SUBSTITUTES .- The Provost Marshal publishes the following interesting item of news: By late orders received from Headquarters Provost Marshals are allowed to accept col-ored men as substitutes for white persons

drafted into the U. S. service, or those enrolled and liable to be drafted. The Board of Enrollment will be absent from Waterford from the 11th to the 20th of July, holding examinations in different parts of the District. Prior to the 11th and after the 20th, the Board will receive all acceptable

substitutes which may be pre-ented. H. S. CAMPBELL, Pro. Mar'l. The above decision, we presume, will pave he way for a very active operation in colored substitutes, from this time on to the next draft. It will be remembered that the new law permits parties who are liable to conscription to procure substitutes previous to any draft, who are sworn in for three years, and whose acceptance clears the person for whom they are accepted for that length of time. If

every man who is lisble, and able to spare the money, will go to work and secure a substitute, it is possible that the draft can be avoided in this city for a year or two to come:

Union Sabbath School Celebration. The success which attended the Union Sabhath School Celebration on the Fourth must have been very gratifying to the friends of and participants in the movement. Thirteen Sabbath Schools, including representatives

from all the Protestant denominations in the city, with the exception of the Park and Eniscopal congregations, took part in the exercises. The procession was formed on Peach street about 10 o'clock, under direction of Mr. Charles Metcalf, Chief Marshal of the day, to whose tact and industry much of the success attending the proceedings is due. It numbered 1500 teachers and scholars, by actual count, and extended over a space of a mile and a half. Each school had previously drawn for its place in the ranks, and the line

was thus formed without any had feeling or difficulty. The procession was headed by the North East Cornet Band, the members of which acquitted themselves in a manner that drew forth the commendations of all who admire fine music.

The extreme length of the procession obliged the route previously decided upon to be some. what extended, and it marched up Peach street to Twelfih, thence to State, and from State into the East Park. As it marched down State street we heard several strangers remark that

appear. This railroad has been doing an immense trade ever since its completion, and yielded, perhaps, a larger profit to its stock bolders than any other of the same length in Atlantic & Great Western Road, most of its trade was naturally diverted to that route.-

Reilroad Batters.

The new owners intend changing the track at once, so as to make it of the guage of the roads centering at our city, and after that date it is expected that most of the petroleum trade coming by the Oil Creek line will be carried by the Philad's, Lake Shore and New York Central roads. That destined for New

Fork and the West, will come first to this city and be here changed to the lines running from this point. If the efforts now being made to build up a direct trade between Erie and Eq.

rope, by way; of the Lake, shall meet with success, we doubt not that before long this city will become the great oil depot of the country. The change of guage on the Oil Creek railroad will he of immense advantage to our wholesale dealers, aside from its value as regards the petroleum interest. Herefolore a

great amount of inconvenience has been experienced in the transhipment of goods at Corry, and this, added to the heavy charges for the same, bid fair for a while to cut us off almost entirely from the vast wholesale trade of the oil region. The new guage will enable goods to be sent from this city straight through to

enter into successful competition. The result of this purchase will also, in all

the tow path, making a direct connection between Erie and the coal regions." The rivalries between these three mammoth corporations possess a rare interest to the people of Erie because it is plain that they all look to this city as a point of great importance, and every movement they make will be towards securing the advantages of trade at our harbor.

By order of Col. J. H. PORTER. L. V. PIRROR, Major and A. A. G. Captain F. A. Nash, Provost Marshal, 18th District

If this is to be the course pursued in every part of the country, it will interest a great many people to know it. In this county large number of persons who were drafted in 1862 placed substitutes in the service for three years, and have been resting happy in the confidence that they were exempt for that D. # The State Militia Called Out.

HARRISBURG, July 6. The following proclamation has just been issued by the Governor : It is now ascertained that a large rebel

force has been detached from Richmond, and is advancing on the North. So large a portion of our army is at remote points that it becomes necessary to raise immediately a sufficient body to repel them. They are already within the borders of the Commonwealth. You have always heretofore been ready to answer the call of your country. You will not now be less pr ready to come forward when your homes

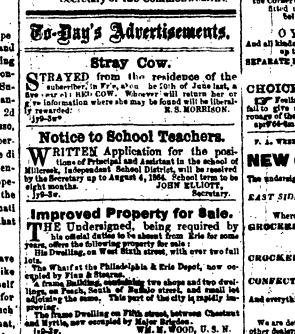

prominent Democrats will do well in future to and firesides are to be defended against a abstain from participating in these so called profligate horde of plunderers. United States to call for 12,000 volunteers in

in addition to those required by my proclamation of yesterday to serve for lays in Pennsylvania, Maryland, Washngton and its vicinity. 1 appeal to the freemen of Pennsylva-

nia to rouse themselves for the necessary effort and come promptly to sweep the invaders from her soil.

I refer to the general order from the headquarters of the Pennsylvania militia, No. 50, dated July 5th, 1864, published with this proclamation for the details of the arrangements. I do most earnestly require the good and loyal men of the Commonwealth, and especially the veteran soldiers in all her borders to show themselves to be worthy of her in this emergency. Her sons have established a for themselves on many a bloody field a reputation for the martial virtues which they will not now forfeit when both their well earned fame and the safety of their families and homes are at stake.

ELI SLIPER, Secretary of the Commonwealth ...
