and vicinity.

subscription. A paper in these days is an expensive luxury, but much more so to its publishers than to its patrons. Putting out of consideration the wear and tear of mind and body, we could do a more profitable business in our office if we printed no paper at all and merely attended to our jobbingd epartment. With the Republican journals of the city the

peace and good times return, we hope to be

able to comply with the wishes of all our

case may be different, for they receive enough official and party patronage to in part at least make up for the extra expense, but as we can depend on obtaining nothing of the sort, we must rely solely on the liberality and confidence of.our Democratic patrons. They have stood by us manfally in the past, and we have no fear but they will do the same in thefuture.

The Crawford Journal says that Lient. Col. D. C. McCoy has been in command of the 83d regiment since Col. Woodward was wounded, and complains "that not being an Erie county man, the Erie papers persistently overlook him." The Journal is too sensitive entirely. If Col. McCoy has not been as extensively alluded to by the Erie press as some other officers, it is solely because the people of this county are not well acquainted with him, and do not, naturally, feel as much interest in him as in their own citizens. We are always ready

to do as complete justice by a Crawford county man as any other, and trust the time will never come when we will fail to appreciate coursge and ability without regar I to the section from which they spring. The people of Erie and Crawford counties have too many intérests in common to be anything but friends, and despite the Journal's snap pish efforts to the contrary they will probably always remain such.

We have not heard of any of our "loyal" citizens, who are exempt by age or otherwise,

baving sent a "representative recruit" into the service, in accordance with Provost Marshal General Pry's suggestion. We are charitable enough, though, to attribute the fault to a failure on their part to have seen Gen. Pry's circular. We publish it in fall in another part of this week's issue, so that all may have a chance of reading it ; and expect to see an immediate movement among the exempts to send "representative recruits" to the front.

A man named J. B. Allen performed the difficult feat of crossing the Allegheny river at Oil City, on Monday evening of last week, upon a ferry wire. The wire is only an inch thick, and its height from the surface of the river is estimated at eighty feet. The distance from shore to shore is about a thousand feet: The Oil City Register is in reptures over the accomplishment of the affair, and pronounces it superior to anything ever perform ed by Blondin.

In reading the war news every person should make a practice of keeping a map always by their side to refer to. We are never without two or three maps in our office, and have found the rule to afford a great deal of satisfaction. The war dispatches are very blandering at the best, but with a good

during the past few weeks, the question of boys, and then it was discovered that the inpublishing newspapers at all will become a nocent cause of all this excitement was only matter of grave deliberation." We are in a recruiting party who had started out to see if they could not infuse a little "patriotic"

that it has within the past few months, we lion. But it was all of no avail ;- the drums see plainly that we must follow the example beat, and the fife shricked; the flag gaily floated to the breeze; the procession marched along, as men and boys do who are cognizant of performing a noble act ;--alss, for the de-

> cayed patriotism of the times, not a solitary recruit was added to the ranks ! The finale of the whole affair is summed up by a letter from Col. Camp, Secretary of the committee on arganization :

REPORT OF THE CONNITTER FOR BAILING ONE HUNDRED DAYS VOLUNTEERS .--- The Committee met at 9 o'clock a. m., as per adjournment. Out of 34 registered volunteers less than 20 reported themselves. The parents of several of the young men came forward and expressed their unwillingness to have their sons leave home without at least a company organization, having some experienced Captain to look after and provide for their comfort. with which view the Committee unanimously coincided.

Col. Schlaudecker then, in behalf of the Committee, thanked the young man who had so promptly responded to the call of their country and dismissed them, promising to preserve the register of their names for future reference and as a testimonial of their patritism on this occasion. Col. Schlaudesker and Major Reynolds both expressed their readiness to go in any capaci-

ty with a company organization. INVINE CAMP. July 13, 1864. Sec'y of Com. The daily Dispatch of Thursday morning adds to the above the following significant

paragraph: RECEUTING ONE HUNDRED DATE MEN A FAILURE .- The effort to recruit a company for service for one hundred days, was yesterday morning abandoned by the men who at first took the most interest in the matter. An adjourned meeting was held which was attended by four men and 13 boys, instead of all the men and boys who were enlisted and ordered to report ready to march. The same result has so far attended the recruiting in other parts of the county, so far as we have been able to learn, and it now seems as though nothing but a draft would bring men for soldiers out of Erie.

Ob, for the hypocrisy of modern "loyalty !" In a great county like this, with three thousand majority for the war any day in the year, and a Loyal Longue organization in such township pledged to "sustain the Administration in all its efforts to suppress the reballion," not a single company can be raised to march

to the defense of our beleasuered capital. althe' the imbecile Governor whom these mane Leaguers helped_to elect, gets down on his knees, and pitcously begs of them to come forward. After this, let us hear no more vaunting boasts of superior patriotism from this city and county.

or six hundred men drafted in this county,

between eighty and ninety have paid sommu-tation, thirty have furnished substitutes, ane-fifth have not reported, and the balance have been exempted on account of physical disability and other causes. Not one of those originally drafted have gone into Pather Abraham's service. Crawford, it is well known, it a strong abolition coupty, where the " friends of the administration" have been loud in infallib professing to be ready to sacrifies "the last man and the last dollar." What arrast llars.

influence of the Custom House officers of this city, Mr. Demond, keeper of the light house, being the other.

The steam fire engine to be purchased by this city, will be built by the Amoskeag Company, of Manchester, N. H. This company ington announce that the rebels were rehas aiready turned out more than a hundred pulsed in their attack upon Fort Stevens, steam fire engines, including two for London and one for Russia

The Observer is now read weekly by not less than ten thousand persons. Its influence, we risk no charge of egotism in asserting, is as extensive with those who believe in its doctrines as that of any other paper of its circulation in the Union. The benefits of advertising in its columns must be apparent to all

who reflect. Banyard and Bener have finally succeeded in abolishing that "nuisance" opposite their stores. Such shocking exposures are very detrimental to the morals of the young, and should not be tolerated for an instant. We tender the thanks of an outraged community to those gentlemen, and proudly record them in the list of public benefactors.

The Lancaster Intelligencer came to us this week, enlarged, with new editors and propristors, a complete new suit, and very much improved in all respects. Hon. George Sanderson has sold the paper to Messrs. Cooper, Sanderson, Smith and Martin, young and active men, experienced editors, and fully capable to make it such a journal as the Democrats of Lianeaster county should take a pride

in sustaining. A young man named Holmes, of Phillips Corners, was drowned near Wattsburg on Sunday last. In company. with another person he went in bathing in the East Branch of French Creek. He was unable to swim, but not thinking the water was deep, he plunged

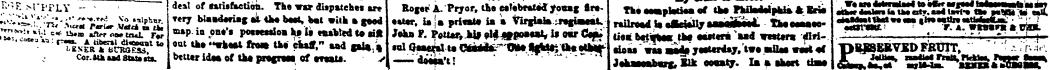

in fearlessly, and was soon discovered to be in a drowning condition. His body was in the water about an hour and a half before it was discovered.

The 145th regiment has been reduced to a hundred and twelve men, three Lieutens ats and one Captain. Its losses have been larger ceived or disease contracted, upon application in proportion than any of our three regiments, to G. P. GRIFFETH, Licensed Military and in proportion than any of our three regiments. It started into the campaign, on the third of May last, with about 450 officers and men .--Major Lynch is now accertained to have been taken prisoner, and is confined in Libby prisen. Is it any wonder that men should not desire to go to war, when they read such ghastly faots as these ?

In Ohio Gevernor Tod goes by the name of "Pot-Metal Tod." on account of his neverfailing opposition, before the war broke out. to snything but a metal currency. Rather than resort to paper, he alvised, if there were not gold and silver enough in the land to formisk a circulating medium, that all the those who compose the political majority in old pots and kettles in the land should be used for the purpose.

USANIMOUS VERDICT .- The most rigid analyzes by good chemists have failed to discover anything in the Chemical Salaratur which can. when properly used, be in the least degree detrimental to the health. While the women of our country entertain sontiments widely different upon other matters, all concur in a verdict that the Chemical Selevatus is the only infallible article in die fir Bget and sweet · . •

From the Philadelphia Bolistin, Tuerday, July 5th.] By Rail to Erie.

CHINA DOLLS, all Sizes, have escaped from the rebels, and have have escaped from the rebels, and have arrived at Baltimore: It is reported, and the statement seems to be well founded DOLL HEADS, New Styles, the statement seems to be well founded, that Major General Franklin has also escaped.

LATER .- Dispatches direct from Wash TOY PAINTS. and that on Wednesday morning they withdrew from in front of Washington; and, driving before them the trains containing the fruits of their raid, recrossed the Potomac. It is reasonable to suppose A large Assortment of Toys & Netions.

that immediate pursuit will be made, and

that the enemy will not be allowed to es cape without severe punishment. HANDKERCHIEF EXTRACTS. From Grant's and Sherman's Armies. FLAVOBING EXTRACTS,

PERFUMERY From the Army of the Potomac we learn NIGHT BLOOMING CEREUS. that our forces are still engaged in plant-HAIR OILS AND POMADES. ing artillery for the purpose of shelling etersburg, and that there are apparently no indications of a decrease in the num bers of the rebels. Our shells have set the town on fire, but the flames have been extinguished, not, however, without caus-ing considerable damage. The people of etersburg are represented as prepared to

see their town laid to ashes if the fate of war should so decide. The inhabitants of Richmond are very jubilant over the results of the rain into Maryland. From General Sherman's army we have information confirming the retreat of the Confederates across the Chattahoochee They are drawn up behind the river and in front of Atlanta. Que corps, however, is still on the north bank of the Chatta-EVERYTHING FRESH! boochee, and has several bridges behind t, connecting with the Confederate main ICE CREAM ody. General Sherman's army has ad-LEMON ICE vanced to the stream. The Federal cen-ORANGE ICE, tre confronts the body of Confederates north of the river; the wings are advanced on each side to the river bank. The Chat tahoches is about six miles from Atlanta

LATEST.-Information received this (Fri MADE TO ORDER. day) morning says Sherman has crossed the Chataboochie, and his advance is now within three miles of Atlanta. Pensions, Bounties, Arrears of Pay, We have a nice Assortment of
