We have been complimented by a number of persons lately on the careful and reliable abstract of the military news which appears in our columns each week. One gentleman remarked that he could get a clearer idea of the operations of the war, in a few minutes time, by reading the one or two column summary in each issue of the Observer, than he could from the entire batch of telegraphic news which appears in the daily papers. These flattering testimonials to the accuracy of this important feature of our journal, are, of course, highly pleasing, but they do not belong wholly to us. A considerable portion of them is due to the Philadelphia Age, which daily furnishes us a digest of the most interesting news, so complete and faithful, that we have only to do a little trimming in some parts, and insert a word here and there, to suit it to the change of place and locality, to have it ready for our readers. The Age is a most excellent paper in every respect, but especially in its military summary, which surpasses that of any other of the daily prope.

GLOOMY FEELING AT THE CAPITAL .- For some reason or other, says the World's correspondent, Mr. Lincoln and all the members of his Cabinet were never in a more depressed and uneasy state of mind than at present. Mr. Lincoln is said to be particularly out of sorts. Upon returning from the scene of his interview with General Grant, it is said that he passed twelve hours without making a joke or telling a questionable story. It is certain that since the commencement of the war, the mili. tary situation has never looked so unpromis ing, or the political so unfavorable-for the Administration.

The Gazette of this week comes out flatfooted, and enderses Old Abe's determination that the war shall be prosecuted for the "abandonment of slavery," regardless of the grounds, at Washington, on Fast day. Happy cost of life, blood and treasure. The effort has caused considerable labor, but the result exactly corresponds with public expectation. A more servile tool of power, or cringing slave to party, does not exist in the whole broad universe than that same Lincoln "Copperhead" Gazette.

We call the attention of our readers to the fact that numerous parties from Ohio and New York are in this city, picking up substitutes and volunteers and having them credited to their localities. I think but little of Vallandigham and less of Fremont. The first has too much lip, and acted improperly, in my opinion. The last is too black, and, in reality, has no principles whatever, and only seeks the Presidential chair to rain the codutry worse than Old Abe has it already. Now, I have given you a little of my views

in regard to the Presidency. They may not suit yours, perhaps, but this is a free country. I am opposed to those Peace men, who desire peace any way we can get it, but am for an armistice, and believe an acceptable compromise could be then arranged that would suit all sections; but I fear for our country if this year does not settle the war. You tell me you fear your sentiments, if fully written out, might, perhaps, be an injury to me. I speak my thoughts out openly to my comrades; and my views are those of three-fourths of all have argued with; but I own the majority are Old Aba men-though his popularity is slowly decreasing; and some act of his may yet turn the army against him. My own opinion is, the next election will be carried by fraud somehow: for I think the Republicans are bound to use us in some manner to gain that point. If the hand of Providence does not come to assist the Demogracy, Satan will certainly overcome us in the next election.

rom J. Hanton Brown, D. D., Editor of the Encycli-patia of Rollgione Enoulogy. Although not disposed to favor or resommend Patent Medicines in general, through distrust of their ingredients and effects; I yet know of no sufficient reason why a man may not testify to the beneft the believe himself to have received from any simple preparation, in the hope that he may thus contribute to the beneft of others. I do this the more received negarity Roofland's German Ritters, prepared by Dr. C. M. Jackson, or this city, because I was prejudiced against them for many years, under the impression that they wave chiefy an alcoholic under the impression that they were chiefly an acconous injuries. I am indebted to my friend Robert Shoemsher, Eaq., for the rembral of this prajudice by proper test, and for encouragement to try them, when suffering from great and long continued debliry. The case of three bottles of these Ritters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not fait for six months before, and had almost despaired of registring. Itherefore thank God and my friend for directing me to the use of them.

fibers are many preparations sold under the name of itters, put up in quart bottles, compounded of the beapest whiters or common rum, cesting from 30 to 40 min per gallen, the taste disguised by Anise or Corian-radies. This class of Bitters has caused and will continue to

This class of Bitters has caused and will continue to cause, as league they can be sold, hundreds to die the bath of the drankard. By their use the system is kept continually under the influence of Alcoholic Stimulants of the worst kind, the desire for Léquor is created and aspt up, and the result is all the horrers attendant upon drunkard's life and death.

For those who desire and will have a Liquor Bitters, we publish the following receipt: Get One Bettle Heej issue of German Bitters and mix with Three Querie of viced Breach or Whiskey, and the result will be a preparation that will for excel in medicinal virtues and true ancellence any of the numerous Liquor Bitters in the market, and will cost such less: You will have all the virtues of Heegland's Bitters in connection with a good article of Liquor, at a much less price than these inferior exparations will sort you.

Attention, Soldiers, and Priends of Soldiers.

We call the attention of all having relations or friends in the army, to the fact that "HOUFLAND'S German ditters" will cure nine-tenths of the diseases induced by apourse and privations incident to camp life. In the light, pablished almost daily in the newspapers, on the crival of the sick, it will be noticed that a very large apoption are suffering from debility. Every case of that kind can be readily cured by Hoodand's verman fitters. Diseases resulting from disorders of the digestive rgans are speedily removed. We have no lengtation a stating that, if these Bitters were freely used among our soldiers, hundreds of lives might be saved and otherwise will be lost.

We call particular attention to the following remarkable and well authenticated cure of one of the nation's heroes, whose life, to use his own language, "has been saved by the Bitters."
