He must have his joke. and in order to avoid misapprehension here after, that Mr. Galbraith has resolutely decided not to permit his name to be brought before the people for any position whatever in the approaching canvass. He appreciates the kindness of his Democratic friends, and would gladly accode to their wishes, but interests of s personal and business nature, which just now require his sole attention, positively forbid his acceptance of any nomination for office. We happen to be acquainted with the character of these claims, and regard them as a complete excuse for the decision that Mr. Galbraith has arrived at. Much as we would like to see him the standard bearer of our principles in the ensuing congressional contest, we cannot ask of him to Potomac. It will give our readers some idea. sacrifice interests which are of the greatest

importance, in order that he may become such. We make this statement without any suggestion from Mr. Galbraith or any of his immediate friends, and as a simple act of justies to one whom the Democracy of this section delight to honor, and who has been faith. ful to the principles of truth in the face of temptations and difficulties which attend very few men in his position. In couclusion, we take the liberty of saying that, from what we know of Mr. Galbraith's opinions, we can confidently pledge that he will give the nomi-

nee, whoever he may be, his most zealous support throughout the campaign. A stranger coming into Erie and noticing filling up their quota, couldn't resist the conclusion that they must want the draft to come off, and have one-fourth their number forced how few take an interest in obtaining recruits. Many of the townships have had active agents here for two weeks, who pick up scores of city-some of them residents in our midst. Even those who are wealthy and could easily procure substitutes, thus at the same time exempting themselves and helping their poorer neighbors, apparently give themselves no concern on the subject, and indications now lead us to believe that a draft for this city is an inevitable event. Certain parties, whose object it is hard to understand, have spread the rumor that our quota is full, but we assure the public that such is not the truth, and no ways near it. We have furnished enough naval recruits since the war commenced, to clear we from the present call, but as there is much doubt as to whether we will be credited for them or not, the shrewd policy will be to get as many volunteers and substitutes now as

VISIT TO EDITIONO -We make while to Edinboro on Saturday last, and were treated with so much kindness that we shall not soon forget the trip. In the evening a meeting was held in the capacious hall of Mr. Van Tassell, for the consideration of National affairs. Although notice had only been given during that day, and then merely by neighbor to neighbor, the attendance was quite large, and we were pleased to see among those present a considerable number of ladies. The exercises were opened by a short, but well delivered speech, by Mr. Geo. A. Allen, after which, the writer of this article being called upon, made some remarks that, it is trusted, had a good effect. After the speeches, our friends trallied in their strength," and made us up a handsome "donation" of thirty new subcribers, every one paying in advance.

The Democrats of Ediaboro claim, and they are fairly entitled to the credit, of being the "banner" town of the county, so far as early organization is concerned. Their club has now been operation about a month, and helds weekly meetings, which are well attended -All the proceedings are open to the public, and there is good reason for believing, that the fair, frank manner in which Democratic in the esteem of his men and the department. views are furnished to the public, as contrasted with the speaking conduct of the Leval Leaguers, and the logical way in which they are discussed, have already had their influence in leading many from the paths of political folly The speakers are usually men of their own community, some of whom are as espable of discussing public topics as nine tenths of the political orators who make loftier preten-

Where all entertained us with so much cordiality, it is difficult to particularise, but we feel that we owe especial thanks to Mr. Isaac Van Tassel and his excellent lady, for their unremitting efforts to make our stay pleasant. They possess the rare talent of making one "perfectly at home" as soon as he steps over their threshold, and our brief residence under their roof will long be treasured as one of the most agreeable incidents of our life.

We can appreciate the following true story from the Warren Mail, because we happen to be acquainted with the parties connected with it. If our readers could have heard it related, as we did, from the lips of one of the sufferers. they might have considered themselves lucky if they escaped without split sides :

Pleading at the Bar.

Not many nights ago there happened a lit-tle "suckemstaded" in our town deserving to be home-mattered - A brace of legal gentleweary hours in one of those heavy business transactions only known in these parts since the second part were dry-very dry. Naturally they wanted some beer. Beer was only to be had down at \_\_\_\_, so down they went. The party of the first part from abroad went in shead. The man of the mug, with face as genial as the moon and rubicond as his pots has been printed heretofore (Friday afternoon) of .ale, was in the bar alone. "Any beer?" does not suit many of our patrons as well as Dutchman nodded. "Lot's have it." A sol if it was put to press and distributed earlier emn shake of the head was the only response. Why not ?" Another shake of the per will be placed in the Post Office in time to head and twinkle of the eye "Oh come," reach every subscriber in Erie, Warren and Crawford counties by Saturday evening.

SOLDIER'S LETTER .- The following is a let .ter received by a lady of this city, from her husband, who is a soldier in the Army of the of the state of feeling amongst the soldiers, and also of the means used to keep them in ignorance of the political issues before the country :

Dear Wye: -I received two copies of the

I hope he will continue to apply his remedy until all who are troubled with that truly loathsome disease, in the army, are permanently cured. The Cleveland Leader thinks that Pesco wil be obtained before the close of another year. and asks the question: "Shall there be a Peace such as the North wants, or a Peace such as the South wants?" We are inclined to the belief that it will be neither. Both sections hold to views at present that will forever forbid them from living in concord if retained, and until each yields some of its extreme notions, such a thing as Peace and Union is an utter impossibility. Nothing but conciliation and compromise, a giving way of one side and of the other, will enable the

They are now in Cleveland, where the papers speak of them as a first class Troupe. We cannot speak of them from personal knowledge, but judging from the comments of the press in places where they have exhibited, we take the Troupe to be worth the patronage of those whe enjoy negro minstrelsy.

It is a remarkably clear and logical statement of the questions at issue, and deserves to be carefully and widely read. The author is a gentleman of prominence and ability, who voted for Mr. Lincoln in 1860, and his first contribution to our columns is of so excellent a character that we trust to hear from him often again.

Mr. Alfred H. Pease, the planist, we see by the Buffalo papers, is spending his summer vacation in that city. He contemplates soon giving a concert in this city." from J. Newton Brown, D. D., Editor of the Encyclo-podia of Religious Encoledge. Although not disposed to favor or recommend fatent Medicines in general, through distruct of their ingredicate and effects; I yet know of no sufficient reason why a man may not testify to the beneat he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the beneat of others. I do this the more readily in regard to Rocfand's German Bitters, prepared by Dr. C. M. Jacksen, of this sity, occause I was prejudiced against them for many years, under the impression that they were shietly an alcoholic mixture. I am indebted to my friend Robert shoemaker, Equ., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank food and my friend (or directing me to the muse of them.
