Special Advantages of this Loane. Special Advantages of this Loan.

Special Advantages of this Loams it is a National Sures Bark, offering a higher rate of interest than any other, and its best security. Any savings but which pays its depositors in U. S. Notes, considers that it is paying in the lest circulating medium of the country, and it cannot pay in any thing better, for its own assets are either in government securities or in notes or bonds payable in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or primanent investment. The notes can always be hold for within a fraction of their face and accumulated interest, and are the best security with banks as collaters is or discounts. CONVERTIBLE INTO A SIX PER CENT 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth shout three per cent, per annum, for the current rate for 5-20 Bonds is not less than size per cent, presumm, and helicus the way the arenium can't present.

before the war the premium on six per c-ntill S. slocks was over twenty per cont. It will be seen that the actual profit on this ions at the present market rate, is not less than ten per cent. per annum. Its Exemption From State or Municipal Taxation.
