EMPORTANT Norice .- The Drafting Board are now holding sessions at the Court House, in this city, for the purpose of correcting the enrollment lists of Eric county. They will remain until Saturday evening, and we advise all having claims for exemption to appear be fore them at once, and thus reduce the quota of the county. It is to be regretted that a wider notice of their intention to hold a sitting here was not given

Gas .- At a meeting of the City Council of Cincinnati, on Friday last, a proposition was submitted, signed by a number of prominent and responsible citizens, proposing to re purshare the gas works of the city, and enter into contract with private consumers, at two dollars and twenty-fire cents per 1,000 cabic by the gas company. At Toledo, the contract company, for \$50,000. He designs purchaswith the gas company, which was originally ing a farm and locating in Brie county. made for ten years, has expired. The company offers to renew the contract for ten years at three dollars and twenty couts per one | warmly recommended as a skillful physician thousand cubic feet to private consumers, with five per cent. off foreprompt payment, and two dollars for the amount consumed by the corporation. The price in Erie is five dollars per thousand feet. The public is interested in knowing why it is that with coal so much nearer and more convenient to this city than at Cincinnati or Toledo, the cost of gas should be so much higher. We shall gladly give room in our columns for an explanation.

RATHER SUSPICIOUS .- The Cleveland Plain-Dealer has the following rather dubious story. We suspect that the editor, getting thard up" for locals, coined it to fill the de-

A certain Brigadier General took a berth in sleeping car, at Buffalo, on Monday night, westward bound, via. the Luke Shore Road. The General stopped at Erie, Pa., and the train came on to this city. Now we have nothing to say as to what spirits the General was in high or low, but upon examining one I his feet, which seemed slightly uncomfortable, (he proved himself on his small feet)) he discovered, by mistake and the hurry of dressing in the sleeping our, he had got on his feet one of his own hoots and one belong. ing to a budy of this city, who occupied a neighboring section. On the arrival of the train in this city, the conductor of the sleep ing car received a telegrom from the Brigalier, requesting his boot to be sent to the Metropolitan, New York city; also, the address of the "lady of the missing gaiter," and he would return it it is probably all right, and the lady will soon get her boot.

Sevens .- The Olean Advertiser thus re ieves itself: ]

"There is a drunken or reckless post office clerk or route agent somewhere on the mail routes from Buffalo via Dunkirk to this place, or in the Buffalo post office. We have been on his track for two months past, and when we three or four. For days we do not get anythen we get three or four together.

That "drunken or reckless" agent is not confined to the route between Buffalo and: Dunkirk, as the frequent irregularities in the reception of the New York mails in this city attest. The public have borne his delinquencies with great patience in the past, but bey are fast arriving at a point where forbearance ceases to be a virtue. The public interest and convenience call for an immedisto reform in his conduct, or a speedy exposure and dismissal from office.

THE AMERICAN MONTHLY .- Our welcome visitor. The American Monthly, begins the new year with fresh vigor, and a bill of intellectual fare calculated not only to sup ply but to improve the tastes of its many readers. This is the only leading Magazine in the country that espouses Democratio principles, and it is therefore all the more entitled to the support of the members of the party. We - fear, though, as in so, many other instances, Democrats will permit this enterprise to linger along with only half a support, and finally resign themselves to see it die a natural death. Why is it that our party friends are so negligent on these subjects? Thousands of Democrats introduce the trashy Atlantic and other Abolition publications into their families, to poison the minds of their children, when here is a publication of their own faith, infinitely better in its literary contents, and possessing the strongest claims to their support. When we see the subserviency and indifference of some Democrats, it is hardly possible to resist the conclusion at hearing her, opened forth all the fleedthat they must take pleasure in the insults and slanders which the opposition lose no opportunity to heap upon them.

The advanced price of the Observer is acquiesced in by our subscribers with a prompt and reads "Gentle Anua" a lesson through ness and realiness which are deeply gratifying to us. We have not yet seen a single "grumbler," and nearly all with whom we manners. have spoken express themselves determined to sustain the paper, let it cost what it may Wa believe that alike on the score of liberality, attachment to their principles, and devoted patriotism, no journal has a better class of subscribers than the Observer .--Within the past month or two, we have settled from a hundred to's hundred and fifty different accounts, some of them involving considerable sums, and we have still to meet | tionists, he had a hard time of it for many with an unpleasant incident. With such a class of patrons as the Observer possesses, lining in that direction, he bids fair to make publishing a newspaper is quite as agreeable an occupation as could be named.

AN ENTERPRISING FIRM .- Dealers desiring to purchase Confectioneries, (Plain or Fancy,) Foreign Fruits and Nuts, Yankee Notions, Toys and Small Ware, will find it to their advantage to send their orders to Bener & Burgess, Erie, l'a. This firm is well known to all who have transacted business in Eric as one of ithe most enterprising, reliable and flourishing in the city. They are cutering largely upon the wholesalo trade, and will supply dealers at the lowest market prices. These gentlemen are also proprietors and

manufacturers of the celebrated Moss and Eim Candy which has become so popular lately as a remedy for Coughs, Colds, Hosreeness, &c. This preparation is all that it is represented to be, as a brief trial will convince any one. It should be kept on hand in jan 12 lm every store in the country.

The Union says, "Mr. James M. Cassetty, for some years principal of the public school in Dunkirk, has recently been relieved from that position by the Board of Education, for political reasons, (he was a Democrat, we presume,) and a gentleman from New Africa (Oherlin) installed in his stead."

The cases of oil fever appear to be growing in number each week. When persons are afflicted with this complaint the symptoms are too plain to be mistaken—they never talk of amounts less than ten or fifty thousand dollars-sums that would be of some importance to other people, like a hundred or a thousand dollars, for instance, being considored beneath their attention.

Among the many insurance companies organized throughout the country there is none we can commend to the patronage of our renders with more beartiness than the Hartford, of which Mr. Robert S. Bussell is agent in this city. It is an old established institution, and in the course of its long career has obtained a reputation for safety and promptness not surpassed by any other company in he Union. If any of our readers wish to obtain an insurance on their buildings, they cannot do better than to call on Mr. Russell. The First Bu tist church edifice of this city as been undergoing considerable improvements which, when completed, will render it much more convenient, and attractive in an carance than it is at present. An important addition has been made to the building, the present cupola is soon to be taken down and eplaced by a tastier one, and the entire structure is to be covered with a coat of mas tic. We are pleased to notice these evidences of the prosperity of the congregation. A no

Harrisburg. The Pittsburg Commercial, one of the papers in this State that said there would be "no more drafts" if Old Ahe was re elected, has suddenly got its eyes opened to the fact that the "last legs" of the rebellion have not yet given way, and appeals affectingly to the people to volunteer, and give it the "final blow!" This is one of the ways in which it talks:

"The duty of patriotism in this hour is to rush to the aid of the government with a willingness which may set the rebeis to interpreting for themselves the nature of the Northern heart, and what is best for them to do under the circumstances."

We wonder if the editor of the Commercial has yet set the example in "the duty of pa triotism" by "rushing" himself to the "nid of A cheerful life must be a busy one, and a the government?" To be a women of fashion is one of the easi est things in the world. A late writer thus describes it; "Buy everything you don't want, and pay for nothing you get; smile on rage for gold .- [Ex.] Yes, and it branks out all mankind but your husband; be happy everywhere but at home; neglect your chiltime you get a new dress."

AGRICULTURAL SOCIETY .- The stockholders of the Erie County Agriculturals Society are notified by the Republican President and Secretary, through the Republican Gazette. that there will not he a dividend declared for this year, but that there will be a meeting of the stockholders on the 21 Wednesday of January, for the purpose of electing officerfor the ensuing year. A general attendance is requested, but from the fact that the notice is only published in the Republican organ of the county, we presume the invitation is not meant for the Democratic stockholders.

GUNBOATS ON THE LARGE. -The prohibition which England and the United States my tually imposed upon themselves at the close of the last war, to keep each not more than one revenue cutter on each of the lakes, is about to expire. In the month of October last, the Federal Government gave the requisite six months' notice of its intention to discontinue the arrangement. 'There will, therefore, be an end to the prohibition next April. Both parties will then be at liberty to place a naval marine on the lakes.
