#### jan19'65 lt\* Important Notice.

After this date not less than Two Dollars and a-half will be taken for h year's subscrip tion to the OBBERYER, under any circumstances. Due notice has been given of the advanced rates, and those who neglected toavail themselves of the opportunity to pay up at the old terms cannot justly complain. We cannot afford to print the paper any longer for \$2.00 a year-every number that we would issue at that price would be a loss to us-and we trust that the friends of the office will weither ask nor expect that we should do so.

AGENTS FOR THE OBSERVER.-We have selected the following persons as agents for the OBSERVER in their respective localities. They are authorized to collect bills for subscription, advertising and job work adde this office, and receipt for the same. Parties who know themselves indebted to the office will much oblige us by calling upon these gentlemen

and miking immediate payments: Pairview Amos Stone. Capt D. W. Hutchinson. Girard, Lockport Albiob. C. E. Lincoln. Watertord, Corry. North East. Amos Heath B. A Tahor. Cups G. J. Whitney.

Putts & Eurs R R. -The delays and an rovances on the Phila. & Erie railroad are exosedingly vexing to those who travel over and do business upon that thoroughfare. It was houed that by this time the road would be in complete running order, but really things appear to grow trom had to worse. We do not like to criticise the management of the road with severity, for it is an enterprise in which we have ever taken the greatest interost, but it is merely saying what fow will deny, when we state that the system on which it is being conducted at present is alike a disappointment and a veration to:almost our entire community.

AN ENTERPRISING FIRM .- Dealers desiring to purchase Confectioneries, (Plain or Fancy,) vantage to send their orders to Bener A Bur gess, Erie, Pa. This firm is well known to all who have transacted business in Erie as one of the most enterprising, reliable and ficurishing in the city. They are entering largely upon the wholesale trade, and will supply dealers at the lowest market prices.

These gentlemen are also proprietors and manufacturers of the celebrated Moss and Eim Candy which has become so nonular lately as a remedy for Coughs, Colds, Hoarseness, &c. This preparation is all that it is represented to be, as a brief trial will convince any one. It should be kept on hand-in every store in the country.

If it he a marai crime to lead others into tempiation, and to indulge in profanction. guage, our city gas company have a load of sin charged up to their account which it will require many years of consistent pisty to balance. Hardly a night passes but the lights all over the city go out, and sometimes it happens two or three times an evening. The number of irreverent and wicked expressions that ensue is frightful to consider, and were it within the capability of human will to accomplish the wishes that are frequently rendered, we greatly fear our gas works would long before this have been consigned to that, hot locality of which the preachers Itell us, where no printers ever go, and many rich men do. There is a reform needed somewhere, and we express the unanimous desire of a long suffering community, when we say that we hope it will not be delayed.

THE BOURTY QUESTION .- The City Councils adjourned on Monday evening last, without taking any definite action in reference to filling up our quets. A proposition was offered in the Select Council by Mr. Starr, taxing each person liable to draft \$50 for bounty purposes, pending which the gas lights went out, and that body adjourned! What a pity some charitable individual could not have furnished them with a lamp or a "tallow dip !"

While on this subject, we may as well correct an erroneous impression as to the amount expended heretofore for bounty purposes. A member of the Councils informs us that the total amount of bounty tax paid by the city up to this time is about \$83,600, which is considerably less than most persons suppose. Last summer the city appropriated \$35,000 to fill the quota under the call for 500,000 men, of which but \$3,600 were actually ex-, pended. We have little doubt that if a liberal bounty is at once offered, and the matter placed in the hands of active men, our quota oan be filled without much difficulty

BY THE BARD OF THE VEHANGO SPECTATOR. The land of Grease! the land of grease! Where burning Oil is loved and sung; Where flourish the arts of sale and lease, Where Rousevi lierose, and Tarville sprung ;

But Oil wells render dear such spets The engine's puff; the pump's dull creak, The horseman splashing through the pools Of greaty mud along the Creek,

Eternal summer gilds them not

Deep in the vale of Cherry Run The Humbeldt works I went to see, And sitting there an oil cask on I tound that Grosse was not yet free; For husily a dirty carl Was branding "bonded" on each barrel.

They were still there. But where art thou My:dry hole! On the river shore The engine stands all idle now, The heavy auger beats no more: And mast a well of so great cost Be given up and wholly lost?

Tis awful when you bore a well Down in the earth six hundred feet. To find that not a single smell Comes up your anxious nose to great; For what is left the bored one here, Por grease a wish; for grease a tear.

Must I but wish for wells more blessed. Must I but weep? No, I must toil! Earth render back from out thy breast A remnant of thy odorous oil! If not three hundred, grant but three Precious barrels a day to me.

What ! silent still ? and silent all? Ab no! the rushing of the gas Sounds like a distant torrent's fall And answers, bore ahead, you ass, A few feet more, you miss the stuff Because you don't go deep enough.

in vain! is vain! Pull up the tools! Fill high the cup with lager beer ! Leave oil wells to the crasy fools Who from the East are flocking here. See? at the first sight of the can How hurries each red shirted man.

Fill high the cup with lager beer! Towards my lease their footsteps steer To see if vet my fortune's made. But sneers their pretty faces speil To find I have not yet acruck oil.

Place me in Oil Creek's rocky dell, Though mud be deep and prices high, There let me bore another well No more I'll work this dry hole here, Dash down that cup of lager beer.

HEAVY ROBBERT .- On the 28th of month Mesers. William Osburn, David McGill and William McGill, of this county, started West to buy cattle, for which purpose they had borrowed \$20,000 of the bank of Crawford County, and a considerable amount of the banking house of Mr. James B. Dick, in this place. They took with them in all \$38,-500, which they carried in a leather hand bag; with some shirts, which at no time was not in the hands of one of the gentlemen samed. After proceeding together some distance, which we have not precisely learned, and hearing of a lot of cattle for sale at a certain place in Illinois, it was agreed that Mr. Osforn should leave the others, to see if he could make the purchase, and all were to meet at Chicago. The Messrs. McGill, tak-When the cars arrived at that place, they gut out, William McGall being in advance of his brother and carrying the hand bag. Further Auggestions. ESITOR BRIS OBSERVER -Sir: In a roccus issue of the Observer ! noticed a communication headed "Important Buggestions to Dem. ocrate," and aigned "Self Defences" My object in addressing you is to express my agreement with your correspondent's views, so far as he york. It seems to me, however, that he makes no practical suggestions. Most assuredly it is in the power of the canservative portion of the North to make themselves heard and felt in these perilous times. Tuer have but to form societies which, while liberal in their doctrines and practice, shall yet discountenance every thing pertaining to the odious and bloody fansticism that has ruined

Let such a society be formed in the city of Erie, and let each township follow the example. Let the objects be the circulation of conservative literature and the increase of conservative lectures. Let the question be settled whether these people who boast so loudly and so insolently of their superior virtue and intelligence, will attend weak and trashy lectures, simply because (whatever the subject announced may be) they are certain to have at the conclusion a percention to the inevitable African, or whether they will give their support to those valuable for their liter ary merit and soundness of thought. I trust that these suggestions may receive a favorable response from your readers. PRACTICAL.

A worthy farmer who throughly detested taxes and tax collectors, was once called on by a collecter a second, time for money, for which he had mislaid the ire ceipt, and as he told the story to hi friend: "Well," said the friend, "what did, you

da ?" "Do! why I remonstrated with him! "And to what effect?" "Well, I don't know to what effect, but the poker was bent!"

ATTENTION BOYS! -- A CHANGE TO MAKE MONEY. - Very few persons are aware, that by a recent invention, newspapers and scraps of printed paper, can be converted into material tion of some 5 the most emines as for printing upon again. The high price of paper has made an active demand for old the set box—the name of paper has made an active demand for old the set box—the name of paper for this purpose, and it is orgin; paper for the proprieters. printed paper, can be equierted into material per mills. By collecting and saving all; the material of this kind about their houses, and selling it, many a family can put "money in their purses," which would otherwise be lust. The highest price, in cash, will be paid for it

THE LUNGS .- The cold and, changeable weather tells terribly on those who have weak and diseased lungs. Many are suffering at this time with affections of the throat and lungs. Bronshitis is becoming a very common affliction. Those who are predisposed to Colds, Coughs, Bronchitis, &c. should avoid the night air. There are many preparations recommended for these diseases, but there is not a doubt but that Dr. Strickiand's Mellifluous Cough Balsam is the best remedy We have known it to effect cures in the wors cases of Coughs, Colds, Bronchitis, Asthma. and primary cares of Consumption. dr8 2meaw
