ments are substantially; correct:]

any now exists. This pamphlet is a clev-

er political quis ; and was written by three

young gentlemen of the World newspaper.

namely, D.G. Croly, George Wakeman

The design of "Miscoganation" was ex-

ceedingly ambitious, and the machinery

employed was probably among the most

ingenious and audacious ever put into

operation to procure the indorsement of

absurd theories, and give the subject the

widest notoriety. The object was to so

make use of the prevailing ideas of the

extremists of the Anti-Slavery party, as

to induce them to accept doctrines which

the community, and which would, of

course be used in the political canvas

which was to ensue. It was equally im-

portant that the "Democrata", should be

made to believe that the namphlet in

question emanated from a "Republican"

source. The idea was suggested by a dis-

course delivered by Mr. Theodore Tilton,

at the Cooper Institute, before the Amer-

ican Anti-Slavery Society, in May, 1863,

on the negro, in which that distinguished

orator argued, that in some future time

the blood of the negro would form one of

the mingled bloods of the great regener-

ated American nation. The scheme once

conceived, it began immediately to be

put into execution. The first stumbling-

block was the name "amalgamation," by

which this fraternising of the races had

been always known: It was evident that a

book advocating amalgamation would face

still-born, and hence some new and novel

word had to be discovered, with the same

meaning, but not so objectionable. Such

a word was coined by the combination of

the Latin misore, to mix, and genue, race:

from these, miscegenation-a mingling of

'amalgamation," and much more correct

complete without it. Next, it was neces:

eary to give the book an erudite appear-

torm po unimportant part of its matter.

Neither of the authors being versed in

fournal can get up an article of any I ng h.

and E. C. Howell.

The book was at first written in a most cursory manner; the chapters got up without any order or reference to each other, and afterward arranged. As the impression sought to be conveyed was a serious one, it would clearly not do to commence with the extravagant and abaurd theories to which it was intended that the reader should gradually be led. given immortally to the name of its author, The scientific portion of the work was Edgar Allen Poe, even if his other great therefore given first, and was made as grave and terse and unobjectionable as In a kingdom by the sea.

That a maiden there lived whom you may possible; and merely urged, by arguments drawn from science and history, that the blending of the races of men resulted in a better progeny. As the work progressed they continued to "pile on the agony," until, at the close, the very fact that the statue of the Goddess of Liberty on the capital is of a bronze-tint, is looked upon as an omen of the color of the future

American! "When the traveler approaches the City of Magnificent Distances," it says, "the seat of what is destined to be the greatest and most beneficent power on earth, the first object that will strike his eve will be the figure of Liberty surmounting the capital; not white, symbolising but one missing the property one and ther, but a starus representing the composite race, whose sway will extend from the Atlantic to the Pacific ocean, from the equator to the North Pole-the Miscogens of the future."

The book once written, plans were laid to obtain the indorsement of the neople who were to be humbugged. It was not But our love, it was stronger by far than the only necessary to humbug the members of the Beform and Progressive party, but to present-as I have before said-such serious arguments that Democrats should he led to believe it a bena fide revelation of the "infernal" designs of their antagonials. In both respects there was complete suc-For the moon never beams, without bringing osse. Although, of course, the mass of the Republican leaders entirely ignored And the stars never rise, but I feel the brigh the book, yet a considerable number of anti-slavery men, with more transcendental ideas, were decidedly "sold." The And so, all the night ride, I lie down by the machinery employed was exceedingly Of my darling-my derling-my life and my ingenious. Before the book was published proof copies were furnished to every prominent Abolitionist in the country, to prominent spiritual mediums, to ladies known to wear Bloomers, and to all that portion of our population who are sup-THE FAMOUS "MI*CEGENATION" P.DI. posed to be a little "soft" on the subject of reform. A circular was also enclosed, The following sketch is furnished to requesting them, before the publication of the New York Mercury by P. T. Bernum, the book, to give the author the benefit Esq., the celebrated showman. We have of their opinions as to the value of the recently come into possession of information which satisfies us that Mr. B's stateof the immediate publication of the work; to be inclosed to the American News Some persons say that "all is tair in poli-Company, 121 Navsan Street, New York tics." Without screeing with this doc--the agents for the publishers. The bait trine, I nevertheless feel that the history took. Letters owns pouring in from all of Kucient and Modern Humbugs would sides, and among the names of prominent not be complete without a record of the persons who gave their indorsement were last and one of the most successful. of Albert Brisbane, Parker Pillsbury, Lucreknown literary houses. This is the pamtia Mott, Sarsh M. Grimke, Angelina G. phlet entitled "Miscegenation," which Weld, Dr. J. McCune Smith, Wm. Wells Brown. Mr. Pillsbury was quite excited advocates the blending of the white and black races upon this continent, as a reover the book, saying: "Your work sult not only inevitable from the freeing has cheered and gladdened a winter of the negro, but desirable as a means of morning, which I began in cloud and sorcreating a more perfect race of men than row. You are on the right track. Pur-

> he had given much thought. The promised letter, I believe, however, was never received; probably because, on a careful perusal of the book. Mr. Tilton "smelt a rat." He might also have been influenced by an ironical paragraph relating to himself, and arguing that as he was a pure "specimen of the blonde," and "when a young man was noted for his angelic type of feature." his sympathy for the colored race was accounted for by the natural love of opposites. Says the author with much gravity: "The sympathy Mr. Greeley, Mr. Phillips, and Mr. Tilton feel for the negro is the love which the blonde bears for the black; it is the love of race-a sympathy stronger to them than the love they bear to woman. It is founded upon natural

sue it, and the good God speed you."-

Mr. Theodore Tilton, upon receiving the

pemphlet, wrote a note; promising to read

it,and to write the author a long and can-

did letter as soon as he had time; and

saying that the subject was one to which

law. We love our opposites. It is in the nature of things that we should do so, and where nature has free course, men like those we have indicated, whether Anti Slavery or Pro-Slavery, Conservative or Radical, Democrat or Republican, will marry and be given in marriage to the most, perfect apeciment of the colored race "So far, things worked favorably; and, having thus bagged a goodly number of prominent reformers, the next effort was to get the ear of the public. Here, new machinery was brought into play. A statement was published in the Philadelphia laquirer, (a paper which, ever since the war commenced, has been notorious

for its "sensation" news,) that a charming and accomplished mulatto-girl was about to publish a book on the anbiect of the races. The word is as euphonious as the blending of the races, in which the took the affirmative view. Of course, so in meaning. It has passed into the lan- piquant a paragraph was immediately guage and no future dictionary will be copied by atmost every paper in the couniry. Various other stories, equally ingenious and equally groundless, were set ance, and arguments from ethnology must billout, and puolic expectation was rivoted on the forthcoming book. Some time to February last the book

this science, they were compelled to de was published. Copies, of course, were pend on encyclopedias and books of refer. sent to all the leading journals. The This obstacle to a New York edt Angle-African, the organ of the colored ser or reporter was no so great as it might population of New York, warmly and at The public are often favored in great length indorsed the doctrine. The mit journale with dimertations upon vari. Anti-Slavery S made d, edited by Mr. Oliver ous a strust matters of men who are en. Johnson, gave our a column of serious tirely ignorant of what they are writing argument and endorsement to the work. about. It was said of Cuvier that he could Mr. Tilton of the Irleportest, was not to restore the skeleton of an extinot animal be caught napping. In this journal, unif he was only given one of its teeth, and der date of February 25, 1864, he devoted so a competent editor or reporter of a city a two-column leader to the subject of Miscegenulia, and the little pamphlet in on any given subject, if he is only buy question. Mr fitten was the dist to annished one word or name to start wir nounce a better that the book was a hoar. There was but one writer on ethiology I quiste from his article;

distinctly known to the authors, which wis "Remaining a wile on our table un-Prichard; but that being secured all the read, our attention was specially called to rest come savily enough. The authors it by noticing how savagely certain newspapers were abusing it.

Beares. We keep conseasily on hand a went to the Astor Library and secured a "The authorship of san particular to the Astor Library and secured a well kept section; at least unknown to us. large selection of Legal Blanks, of appared volume of Prichard's works, the perusal well kept section; at least unknown to us. large selection of Legal Blanks, of appared volume of Prichard's works, the perusal well kept section. Nor, after a somewhat careful reading, are formed such as Deedy, Markey Bappass and of which, of owner, give them the names' we convinced that the writer is in an appared of many other authorities, which were our first impression was, and remains, others not in such senseal use. These also consulted; and thus a very respects that the work was meant as a piece of ble erray of scientific arguments in favor pleasantry-a burlesque upon what are
