A third rail has been laid down on the Oil Creek railroad, enabling cars to run direct from this city to Titusville and Shater. If, as is anticipated, this improvement, will add to the facilities for shipping goods to the oil country, we shall be heartily gratified.

The article they furnish is the most delicious boverage we have ever tasted. Mr. Carl Benson, formerly editor of the

Free Press, has returned to Erie and opened a jobbing office, where he is prepared to do all kinds of German and English printing. The collectors are busily employed at ga-

thering in the State, city and county taxes. The bounty appropriations of the last two years swell them up to a high rate, and complaints are general. Many persons decline Douglass on or before June 80th.

The newspaper men of the city complain, and with justice, that at public meetings no arrangements are made for the accommodation of reporters. At every gathering of a pubfor the Press. Until this is done, no one can properly complain of incorrect or deficient reports. We hope parties having these affairs in charge hereafter will give the matter the attention it deserves.

A communication on the subject of the proposed Lake Naval Depot will be found in another place. This is a subject of great importance to our citizens, and should not be left, like too many other measures for the day, June 7th, at half past 10 a. m. benefit of Erie, until it is too late to accomplish anything. If our prominent business men will take hold of the matter in the right way, there can be no doubt that we shall succeed.

One of the pleasantest social gatherings we | Proposals for Furnishing the Material have ever attended was the supper given at Brown's Hotel, on Friday evening of last week, as a compliment to Captain Roe, of the Michigan, his officers, and Mr. John Delay camp, the gentleman employed by the Gove ernment to make surveys of our harbor. The company consisted of some sixty or seventy of our hest known citizens, all of whom appeared to enjoy themselves exceedingly. The speeches of which there were, perhaps, a dozen or so were brief, pointed and genial, and thre'out the entire proceedings there was such a predominant feeling of cordiality that we were involuntarily carried back in fancy to the good old times, when men could disagree on politics without being personal enemies. We wish that we had room and time to make as extended a report of the proceedings as they deserve A friend suggests to us that the arrange-

ments for the proposed Fourth of July celebration should be consummated immediately, in order that they may receive as ;wide a circulation as possible. If it were known ed to a sufficient depth to sail the largest that a celebration on an extensive scale, and sized vessels that float on the lakes, and the of a thorough Union character, is to be held in the city, the people of the adjoining towns would probably postpans any contemplated connection with the Lutheran congregation of demonstrations, and throng to Erie by thous. ands. This would be especially the case if

feature of the celebration that should by no means he neglected.

It is stated that the late Col. MoLane expended \$2,000 out of his private funds in the organization of the 834 regiment. The suggestion is made that this amount by right belongs to his fimily, and it is proposed to reimburse them by voluntary donations from the public. The sum of \$100, realized from Rev. Dr. Forrester's looture, has been appro pristed to the purpose, and we shall be gratifiel to see the entire amount obtained and appropriated to the purpose proposed.

We regrat to learn that the proposed rolling mill enterprise has been given up. The necessary amount of stock had been subscribed. but want of hearty co-operation among the

The following are the persons who will be here : Bishops Morris, Simpson, Baker, Thomson, Clark, and Ames. The irregularities that our citizens expe-

rience in the reception of mail matter from Ne w York are a severe test to their patience, and we respectfully insist that the period has come when there is no longer any excuse for them. In the winter, we could readily understand how the mails might be detained unavoidably, and gave due allowance for the same, but now we know of no other reason for failure than negligence on the-part of the mail agents on either the New York & Erts or Lake Shore railroads.
