"done Brown," if curses, deep and loud, could It is probably forgotten, in the general

ejoicing over the triumph of "universal freedom" in this country, that there are two States yet in the Union where slaves may be held, bought and sold with all the impunity of the olden time. These two States are Kentucky and Delaware. The Proclamation of Emancipation did not apply to the slaves there. The people have not freed them by any act of their own, as has Maryland, Missouri and Tennessee. The Constitutional amendment still lacks the ratification of a few States to acquire force and validity. Thus it will be seen that the peculiar institution may yet be enjoyed by its devotees in this country by emigrating to Kentucky or Delaware.

A gay and festive Englishman paid a visit to Washington market, and espied some watermelons. "Aw !" said he, "cawnt you grow larger apples than those in this country ?" "Apples !" exclaimed the vender, "they

been shelling." How small a portion of our life we really enjcy ! In youth we are looking forward to things that are to come! in old age we are looking backwards to things that are past; in manhood, although we appear to be more occupied in things that are present, yet even that is absorbed in vague, determinations to

be vasily happy on some future day, when we have time. We have heard of coon skins, wolf scalps, and "garden sass" as "legal tender" payment of marriage fees, but a few days since a minister at Lafayette, Indiana, on concluding a marriage ceremony, received at compensation three brooms from the happy bridegroom, who is a broom maker.-Ex. Ohio is \$857,000,000, and in Pennsylvania ubitions in Farrar Hall on Wednesday but \$77,000,000. The assessor's books or New York State show an amount of taxable property three times greater than that of Pennsylvania.

> John asked Julia if she would have him. 'No," said she, "I will not have you;" but before John could recover from the shock; she archly put in, "but you may have me."

> "You said," said the Judge, "the parson who married you to this wife authorized you to have sixteen ?" "Well," said Hans, "he told me dat I should have four petter, four vorser, four richer, four poorer-and in our country four times four makes sixteen."

An Incident .- The Louisville Democrat of Tuesday has the following :

A Confederate officer, who was on his way Nashville depet yesterday. He was suddenly favored clime, are, without doubt, the World's surprised at being surrounded by five or six Great Remedy for Dyspensia, Low Spirits, surprised at being surrounded by five or six Great Remedy for Dyspepsia, Low Spirits, negroes who had recognized him and jumped and all other Stomachic difficulties.

They begged him to take them back home with him, that they would be "de best niggss he eber seed " if he would. Arrangements were made, and master and regroes all left on the train for Georgia together last night.

LET THE PRESIDENT STAND FIRM .--- The son this counsel: The New York Observer is vehement in favor of negro suffrage. It denounces President

Johnson, and says "his policy cannot be ac. cepted as the final method of adjustment." We do not think the ravings of these fanatics "Apples!" exclaimed the vender, "they will frighten Andy Johnson into a surrender ain't apples. They're some green peas I've to their policy. If he will stand firmly by the doctrine of State rights and oppose negro suf-frage, the Democracy will help him fight it cut on this line !

The Democrats of Harrisburg, finding that the so-called Union celebration of the Fourth. in that city, is to be an Abolition movement in disguise, have cencluded to have a celebration on their own account, and secured Hon, Charles J. Ingersoll as orator of the occasion. The following communication on the subject, from a returned soldier, appears

in the daily Patriot : EDITOR PATRIOT AND UNION : I see my name used in connection with a celebration of the coming 4th of July, to be held irrespective of party. Nothing would give me more pleasure than to join my fellow citizens on such an oor casion, but since my return to the city, I have seen and heard enough to convince me that it is to be a Contractor's glorification, (a class for whom the soldier has no great love,) and I therefore respectfully decline the honor

-preferring to celebrate that holy day with those who entertain more liberal principles and are decent and respectable enough for my E. S. WITMAN, Late Lieut. Col. 201st P. V.

ONE EFFECT OF EMANCIPATION .- The emancipation of slavery will give the Southern States an increased representation of fourteen members of Congress, and this, too, whether the right of suffrage is extended to the ne-

groes or not. Heretofore, the Southern people only had a three fifth representation for their slaves-now the entire population, black as well as white, will be counted in per capita, the same as is done in Pennsylvania and other Northern States. To make this still more plain : It is estimated that there are, or were, 3,600,000 slaves in the fifteen Southern

States. Two-fifths of that number (1,440,000) were not counted in the enumeration for Congressional purposes. The ratio of representation is, in round numbers, 100,000. Make this the divisor and the other number the dividend, and you have an additional repre-

sentation in Congress, for the black populaappears to be a general agreement among the tion, of fourteen and a fraction over. This is so transparent that the most obtuse intellect Nelse can see through and understand it.

MASON & HANLIN'S CABINET ORGANS .-Musicians are agreed in reference to these instruments that they are unequalled. Mr. Gottschalk, the distinguished planist, pronounces the Cabinet Organ "truly a charming instrument, worthy of the high preise it has received" and "sure to find its way into every household of taste and refinement which can possibly afford its moderate expense." BEANDRETH'S FILLS.-The Weak, the Con-BeanDRIPE, Rheamatic, Costive, Billious and Delicate, after some days' use, will find renewed strength and life pervade every organ of their frames. Every dose makes the blood purer. The nerves com-mence in the strenes and terminate in the veins. These pills, as a first effect, act upon the arterial blood, in-creasing the sirculation, by which impurities are depos-ited in the reins, and they throw off such collections into the bowels, which organs, by the energy derived from Brandreth's Pills, argot them from the system. When first used, the Pills may occasion griping, and even make the patient field worse. This is an encellent sign, and shows the disease will soon be cured.
