Some unpleasant matters in connection with the present management of the U. S. steamer Michigan are reported to us. As we do not like to criticise without good foundation, we shall be thankful if some one fully acquainted with the facts will furnish them to us.

The Venango Spectator says John M. Lane, member of the 16th cavalry, who lost a leg in the service, was a candidate for Treasurer before the Abelition primary elections in that at 2 a. m. yesterday, Miss Munson shot county, and was defeated by a civilian. When it is remembered that this party is continually harping about the poor soldiers, the defeat of Lane is a fitting comment on its hypocrisy.

The wages of the brakemen and oilmen on the Eric railway have been reduced from The ball passed through the dog and then \$2 00 to \$1 75 per diem. This regulation through Hiss, three hundred feet off, took place June 15th. We hear it is in contemplation to reduce the wages of all employees on the road, ten per cent. in a short time. A general reduction of wages is being made on all the railroads in the country.

The Harmonists, however, are a body of gentlemen with whom it is a pleasure to be associated, and we expect to realize a great deal of enjoyment from our connection with them.

The daily Dispatch furnishes us the following paragraph. Were it not for the unimpeachable character for verseity sustained by our young friend, the local of that paper, we would confess to some slight hesitation in believing that any person so green was in ex-

istence about this part of the country : "The other day, an intelligent appearing woman stepped into the railroad telegraph office here, and taking out a five dollar greenback, asked the operator to sond it to her son in Wisconsin. She explained that her son had written her for money, and she was anx. ious to have some reach him at once. When informed that it was not possible to transmit the bill by telegraph, she was quite disappointed, and left, evidently thinking telegraph lines were a humbug."

UST PUBLISHED a New Edition of DE. CULVERWELL'S CRLEBRATED ESSAY on the redical care (without medicine) of SPREMATORRHORA, or Seminal Weakness, Involuntary Seminal Losses, Information, Montal and Physical Incapacity, Impediments to Marriage, etc.; slao, Consumption, Erizafer and Firs, Induced by self-indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple, certain and effectual, by me in sof which every sufferer, no matter what his condition may be, can cure himself cheaply, privately and radically.
