ERIE, PA., JULY 27, 1865.

"It is too hard work to serve both God and the devil." - Gazette. Our cotemporary should assuredly know. He has been trying it long enough to be able to give a presty thorough opinion on the

question. FARMER'S HOTEL .- Our country readers who desire to put up at a good, plain, wellkept and pleasant house when they visit Erie. cannot do better than to stop at the old Far mer's Hatel, at the corner of French and Fifth streets. Last fall this well known house underwent thorough repairing and quie', convenient to the business centre, furgishing clean and substantial fare, and charging moderately. The proprietors, Messrs Worden & Duan, are gentlementy in their friends will like to put up.

The firm of Bener & Burgess, Erie city, continue to keep their trade before the public. They advertise extensively, and well they may, for it is impossible to find a better stock of goods in their line, in this section of the country. They are largely engaged in the manufacture of all kinds of confectionery. and dealers will find their goods to be of the best quality and most saleable kind.

They also keep constantly on hand an assoriment of Oranges, Lemons, Nuts, Foreign and Domestic Fruits, Canned Fruits, Pickles. pysters, Cigars, Tobacco, &c. Their Notion and Toy department embrace all the small varce in daily use. Paying particular attention to the wholesale trade, and buying in carefully filled.

The Moss and Elm Cough Candy continues in demand. The wholesale price per gross has been reduced, giving the retailer a larger jy27-11

Commodore James Stewart desires us to say that he intends being a candidate to represent the contraband population of Erie at the colored convention soon to meet in Harrisbarg. His competitor is Charles Vosburg, End, and a lively controversy is going on between the respective friends of these distinguished individuals as to which is most worthy of the honor. The Commodore's supporters claim that he is entitled to the position by virtue of his acknowledged shrewiness, enterprise and eloquence; but the friends of Vosburg contend that these qualities are not so important as weight of character, dignity and impressive personal appearance, all of which they allege him to pieces in a remarkable degree. The Commotore is highly indignant over a recent legal case instinuted against him, which he eny wis got up to prejudice his claims. He working with superhuman energy and his usal skill to secure the selection, and having staned the influence of a number of prominent citizens, feels confident of success. The Commodore's genius would undoubtedly creste a sensation at Harrisburg, and if he is seat as a delegate we shall look with interest aming the proceedings for the doings and syings of the "gentleman from Erie."

W. W. PIERCE & CO'S. HYDE & WRIGHT'S PATENT

MEST has always received the First Premium when-ever exhibited, and all who have used it pronounce it tar superiorite anything else of the kind. The fellow-ing are some of the advantages this Cultivator has over every other; lad now in use:

Int. Lighthese and durability; being made of the best
quality of skeel, highly polished, and the whole implement weighing rom fifty to sixty pounds.

2d Adaptation to m we kinds of work than anylother.
Calityalor known; being a perfect and thorough Calitvator when used with all the teeth on, leaving the
ground even and level, and working searer the rows
than any other Calityalor.

3d. By removing the small teeth, and attaching the
wings to the shovel, it is the most perfect implement
for hilling that can be found. for fulling that can be found.

4th. It is the best implement for covering and dirging potatoes ever invented. A man and horse can cover potatoes as fast as a horse can walk, and a man and tean can dig from three hundred to five hundred bushels of can dig from three hundred to five hundred bushels o potators in a day, when the crop is a fair one.

5th It works equally well in corn, or any hind of crop requiring cultivating, and in most cases hand hoeing can be dispensed with.

5th Its charpness, considering the many kinds of work to which it can be applied; the farmer having in our implement all that is necessary for cultivating and hilling any kind of crop, or covering and digging potators

to s Numberless certificates from the most influential farmers in the United States might be given of the superiori-ty of the above implement over all others designed for
