The plan the two companies. Considering the brief proposed is to build a road from Westfield, period in which the department has been oron the Lake Shore, to Corry, by way of Mayville. zens, to know by what means the charter for this "cross.cut" road was secured to the people of Buffalo. Here is a railroad striking directly at the interests of Erie, and designed o benefit New York at our expense, yet we hear of no word of protest, no opposition on he part of the Eric county Representatives at Harrisburg, against the incorporation of the company. What man is so simple as to suppose that a New York Legislature would grant privileges to the citizens of another State the palpable effects of which were to rob her own people of a part of their prosperity? We should like some one acquainted with the facts to give us complete information on this matter. How was the "gross cut" railroad charter obtained, and when? Who were its active supporters? Where were our Erie county Representatives at the time? Was it secured during Messrs. Lowry, Cochran and Hill's term, and if so, in what way did they think the interests of their constituents could he advanced by it? The people am entitled to know the facts in the case, and we call for an explanation.

THE INCOME LIST .- Any person looking

It is a matter of some curiosity to our citi-

over the income list for this county cannot fail to be struck with the comparatively small number of persons who return sums ever \$600. Of the 10,000 voters in the county only from three to four hundred pay any income tax. Our readers will generally agree with gives no fair idea of the wealth of our community. We cannot believe that the proportion of poor-persons in Eric county is as large as a stranger would be led to judge by these returns, and it is impossible to resist the con clusion that the list is not a reliable exhibit of our prosperity. In thinking over his acquaintances, any reader will be able to count not less than half a dozen whose names do not appear in the published lists, yet whose style men The distinguished party remained of living gives satisfactory evidence that they must receive from some source more than Why is it that their returns do not appear? Why do we not see the names of hun dreds of clerks and mechanics in this city who are reported to be receiving salaries averaging from \$800 to \$1,200? At the pres ent rates of expense it is almost impossible for any man, married or single, to live comfortably, either in the city or country, on less than \$600, and yet of the ten er fifteen thous and mile citizens of the county, only from three to four hundred pay a tax on their incomes. There is something wrong somewhere. Either the assessors have failed to perform their duty, or thousands of citizens have misrepresented their financial condition. We are by no means in favor of this income tax system, but we insist that so long as it shall be pursued, it must be conducted on a fair and equal basis. It is unjust to the men who benestly report their incomes, that they should have to pay a heavy taxation, while others, very little, if any, less presperous, es cape it entirely.

> The Gazette, in the course of some comments on the Democratic county ticket, intended to be funny, but failing ridiculously in the attempt, publishes the following sen.

> A few more campaigns, with the average martality to the party that has accompanied it for the last four years, and "organization" will be of no service save to "lay" troubled ghost of Erie Democracy.

The editor of the Gazette is as ignorant in the history of our county poli ice as he is in the proprieties of the editorial profession. If he will take up the election returns for the "last four years," he will find that all his talented comments (no sarcasm intended) about the "average mortality" &c., of; the Democratic party, are simply misstatements. The Democratic vote of the county has been steadily on the increase since 1860, and at the Presidential election of last year numbered from seven to eight hundred more than it

had done at any previous period. The won ler to us is, not that our party in Erie county has not increased more rapidly, but that it holds its own as well as it does. With three-fourths of the wealth of the com munity arrayed against us, two-thirds of the business interests, and all the political, with ides will exceed any previous Fair a hoet of zealous office holders anxious to a the county. We urge upon the people continue their places, and expectants, ready to contribute any needed amount for the pur pose of carrying on a campaign, with the enormous influences in the hands of the opposition during the war, and the inaumerable points of advantage always attaching to the dominant party, the steady increase of the Democratic vote in this county is no less surprising than gratifying to the members of the party. That our organization should gain strength under such circumstances is as much atir, and if Eric, the wealthiest and most a tribute to its courage and vigilance as it is

Frremen's Review .- A parade and review in making the coming Fair the finest and of the Fire Department was held, by order of the Chief Engineer, on Saturday afternoon. All the companies appeared in line with their engines brightly burnished and handsomely decorated, and the members clothed in their was very fine, and elicited much praise from our citizens. After the parade, a trial of the Perry and Eagle hand engines was had, the steamer supplying them with water. Eagle company claimed "the broom," which Perry disputes, and considerable had feeling has been the consequence. On Monday morning, Perry Co., through their foreman, Capt. Winfield, challenged the Eagles to a test trial, staking \$100 on the result. Chief Engineer Stafford, in whose hands the money was placed, on consideration, wisely decided to parties who visit the Cemetery. The Gawithdraw his consent to the contest, fearing sette office has failed in its experiment of am-

Tell it from Maine to Oregon, from Florida to the Lakes, that our language as it has been used for hundreds of years is a base fraud' that it means just the reverse of what has been supposed, and that if any desire to see it in its pure, undefiled state they should consult the columns of the Eric Gazette.

Mai. Gen. Hancock is sojourning with his family at Norristowa. The hero expresses himself in favor of the election of Hartrauft and Campbell .- Gazette.

What a difference it makes with these Abo lition papers. in speaking of our Generals, what their political views are? Gen. Slocum. the Democratic candidate in New York, Gen Morean the same in Ohio, and Cols. Linton and Davis, in this State, are all at least equally as brave men as Gen. Hancock, and have given as strong proofs of patriotism, yet how differently they are treated by the Abolition editors. Instead of being styled "heroes," they are pelted with every style of contemptible epithet and inuendo. Even Gens Meade and Sherman, whose services in the war have certainly been exceeded by no other officers. have not escaped the censure of these stay at-home patriots who can see no virtue, "loyalty" or ability outside of the support ers of their political creed. Gen. Hancock is a good officer, and we give him full credit for it, and we insist upon the same for the thousands of equally brave and true soldiers who support the Democratic ticket.

The other, stopping at all stations, will start from Eric at 1:25 at night, and, running slower than the first, will arrive in Philadelphia at the same hour. COST OF NEGRO PAUPERS. The Missouri Republican makes the expenses of the Government, in keeping the lazy and fat negroes, now on its hands, at, what it considers a very low estimate, \$30 000,000. This does not include the enormous expenses of the Freedman's Bureau. In one portion of the State of Maryland there are 10,000 negroes, living at the expense of the tax payers of the country, and in and about Washington, Memphis, and other prominent places, the crowds of these lazy vagabonds have become a public nuisance. In the face of all this we find some of the agents of the Freedman's Bureau, flooding the country, through the muzzled telegraph, with dis putches from certain localities, calculated to give a false impression. Such statements as come from these interested parties are totally unreliable. They are intended to deceive the public, to make the Bureau more popular, and thus, by preventing its being abolished at the next Congress, secure to themselves a longer lease to the lucrative positions, which can be used to plunder the public treasury. The overburdened tax payers will recollect at the coming election that every vote cast for the Ridical ticket prolongs the existence of this public nuisance, and
