"On or about the 24th day of September, a vessel known as the "Commodore Perry," built in this city for the government under the direction of Capt. Spinner, of the Treasury Department and four ladies, and other inty in Cieveland and Detroit was duly chronicled by the press, together with the marvel-

For this object, a few hundred dellars judiciously expended in wises and other mollifying refresh ments might prove a good investment.

"We are, therefore surprised to learn, as we do, that the bills for the expenses of this lake voyage, amounting to some Two THOU. SAND DOLLARS, were presented to Charles D Norton, Collector of this port, for payment. Mr. Norton, at first "couldn't see it." He was not aware that Uncle Sam provided steamers and wines and whisky and edibles for government officials, on a pleasure jaunt, and telegraphed to Washington for instruc-tions. A FEARFUL JUMP.-We learn that on Sat-urday afternoon the 28d inst. as the Express train going east passed the Panama Station. a lady passenger was observed to get up and go out on the platform. She descended one step, when a gentleman standing there asked ber what "she was going to do ?" She re ported against the vessel was deplorably ig- plied that she wished "to get off at Panama and as the train did not stop, she was going to jump off," and before he could reach her made a jump while the train was moving at the rate of 35 miles an hour ! When picked up it was found that the back portion of her head was very much bruised, her shoulder and arm broken, and she was in an unconscious state. At latest accounts the lady was still living. We have been unable to learn har name. It is a wonder she was not killed outright. When will people learn to be

add to them n them. In that instrument no disfranchise-ment for any such case is found, and no judge of an election will be justified in excluding from the right to vote any persons being otherwise qualified and not excluded by the very terms of the Constitution. It would be absurd to expect an election board to stop the progress of the polls to try a fact like that of an illegal draft and failure to report. They have no jurisdiction of any such ques-tion, there being no disfranchisement arising in the Constitution for any such cause.

Notwithstanding the plain duty of election officers on this subject, we learn that several votes were refused in this city, regardless of the state laws, and the oaths taken by the Judges on entering upon their duties .---We understand that the friends of one of the parties disfranchised have resolved to secure the arrest of the election officers who rejected his vote, and take the question before nourt.

NARROW ESCAPE FROM A GREAT FIRE.-The floor of the kitchen attached to Brown's Hotel, took fire on Sanday morning about 6 o'clock, and was not discovered until it had burned through to Justice's clothing store beneath. By prompt exertions the fire was extinguished, without much damage other

than the soiling of Mr. Justice's goods. It was fortunate indeed that the fire was discovered before it had attained more progress. A high wind was blowing, and if the famos had once got any considerable headway, they could scarcely have been prevented from sweeping the entire block.

A chap who has probably been obliged to leave Brown's Hotel because he didn't pay his board, sends us the following. It is evidently intended to be carcastic : Mr. Editor :--- I cannot agree with the Dis patch in thinking the burning of Brown's Hotel would have been so much of a calumity to the city. It would at least have done one good thing; cleared out the bed-buge. I don't know, be it seems to me the moral and physical benefits attending such a result would far counterbalance the financial losses that might attend it.
