IRREGULARITIES.

These Drops are a scientifically compounded faild preparation, and better than any pills, powders or motives. Beingliquit, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and sappressions of nature. Their popularity is indicated by the fact that over 103,000 bottles are annually sold and consumed by the ladies of America, every one of whom speak in the strongest terms of priase of their great merits.—They are rapidly taking the place of every other female remely, and are considered by all who know aught of them, as the surest, exfest and most infallible preparation in the world, for the cure of all female combains, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions, stating when they may be used, and explaining when and why they should not, and could not be used without producing effects contrary to nature a chosen laws, will be found carefully folded around each bottle, with the written signature of John L. Lyon, without which none are genuine.

FLUE HOT AIR FURNACE.

Invented by the calchrated P. P. STSWART; set in brick or of portable form This new Furnace is offered to the public in the confident belief that it car passes all others in use. The Courty Commissioners, after examining a number of kinds, unanissously adopted this for the Court House, as the beat they had seen. Its merits may be briefly stated as follows:

It does not clog by dust and ashes, so as to impade the draft.

It can be put in refrect working order in five minutes time, no matter how long it has been in use.

It has the best radiating surface of any Furnace constructed, and requires the least fuel.

It is easily controlled and can be managed by those most unskilled in such matters, of or very little experience. As note examination well satisfy any person of its great superiority. Call at W. W. FICRCE & Co.'s store, and examine it, or send for a pamph t. PRIORS: No 1, \$-; No. 2, \$-; No. 3, \$-.
