Letter from Conneant Township.

CONNEAUT, Erie Co., Pe. DEAR SIR :- Since the United States have een annexed to Africa and gentlemen of the African distemper are voted as good as Abolitionists, we naturally begin to look around to ascertain whether white men have any rights that the powers of darkness are bound by law to respect. There exists in this town-ship a wide-spread dissatisfaction with regard to the amount of taxes assessed by the Icoal authorities, and the opinion seems to prevail that there is something rotten outside of Denmark. The whole amount of taxes this year, exclusive of the per capita tax, is about twenty-five per cent. on each dollar assessed valuation.

Now, sir, will you oblige your patrons and the readers of the Observer generally by answering the following questions: lat. Under which law, the elder new, should the local anthorities have acted in laying taxes

to procure volunteers for the last draft? 24 Had the local authorities a legal right to pay over four hundred dollars to each vo unteer, and tax the township for the same. and if so, how much could they legally pay by taxation?

8d. Had the local authorities a right to send an agent to Washington repeatedly, to pro-cure veterans to take the places of men already drafted, and tax the township for the 4th, Was it the duty of the local authori-

ties to collect the per capita tax of twenty dollars mentioned in the new law? 5th. Have the local authorities a legal right exempt any one's property from faxation fith. Is there any law authorizing the voters to vote a tax upon the township to raise money to procure volunteers, and if so, has any tax payer a right to know it except those liable to the commorprise set and those already drafted.
