[WARRANTED FRENCH.] THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the eriginator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious principles and hose withhold them from greaters. ciples, and has withheld them from general use, lest they should be amployed for unlawful purposes. In perceiping Remale Outraction of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the flood-gates from whatever cause may have stopped them; but they are offered to the pub-lic only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscarriage. These pills are entirely safe under all circumstances, being composed entirely of substances from the vegetable kingdom. From Harrey Sickier, Esq., the able editor of the Trukhamneck Democrat, Pennsylvania.

"Our only child, about three years of age, was ittacked by pimples on his forehead. They rapid, spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied altrate of silver and other remedies, without any pipparent effect. For fifteen days we guarded his hands, lest with them he should tear open the featuring and corrupt womad which covered his whole face. Having tried every thing else we had any lope from, we begun giving your Saksaparilla, and applying the lodde of potash lotion, as you direct. The sore begun to heal when we had given the first bottle, and was well when we had finished the second. The child's cyclashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must be.

From A. J. French, M. D., an eminent physician of Laurence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir I have found your SARSAFARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield o other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew. of New Brunswick. N. J.

Iti alterative is required."

Mr. Chas. S. Van Liew, of New Branswick, N. J., had dreadful alters on the legs, caused by the abuse of mercury, or bearcarded disease, which graw many and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Ayen's Sarsaparilla relieved him. Few cases can be found more laveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhosa, Whites, Female Weakness tre generally produced by internal Scroptions Ut-eration, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies. application of local remedies.

From the well-known and widely-celebrated Dr.

Jacob Morrill, of Clacinasti,

"I have found your Sarsaparitlla an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhoza, Internal Ulceration, and local debility, arising from the serofulous disthesis have yielded to it, and there are few that do not, when its effect is properly sided by local treatment."

A lady, unwilling to allow the publication of her name, writes; "My daughter and myself have been cured of a very debilitating: Leucorrhons of long standing, by two bottles of your BARSAPARILLA." Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by Scrofula in the system, are rapidly ured by this EXT. SARSAPARILLA. AYER'S CATHARTIC PILLS cossess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that ye need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

FEMALES, owing to the peculiar and important relations which they sustain, their peculiar organiza-tion, and the offices the previous, are subject to many sufferings and allinears f cultar to the ser-Freedom from these contributes in no soull degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to ran

on without involving the general health of the individual, and ere long producing perman at sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these delicat affections, and only upon the most argent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex. HELMBOLD'S EXTRACT OF BUCHU. Hundreds suffer on in silence, and hundreds of

others apply vainly to druggists and doctors, who either merely fantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tes and coffee, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect, more or less directly, the welfare of the entire human family. The mania that exists for precocions education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed, and the mind unduly excited by pleasure, perverting in midnight revel the hours designed by sture for sleep and rest, the work of destruction is

half accomplished.
In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night sir; the sudden change of temperature; the complete prostration produced by excessive dancing must, of necessity, produce their legitimate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and rees of her delicate nature, becomes an unmonstrances of her delicate nature, becomes an un-willing subject of medical treatment. This is but a truthful picture of the experience of thousands of

our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system; composed of what is called the tissue, which is, in common with the female breasts and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.

For Female Weakness and Debility, Whites or Leucorrhona, Too Profuse, Exhausting, Too Long Continued Periods, for Prolapsus and Bearing Down. or Prolapsus Uteri, we offer the most perfect specific known: Helmbolt's Compound Extract of Buchu.
Directions for use, diet, and advice accompany. Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature
