THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the eriginator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious prin-ciples, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent; bursting open the sood-gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscurriage.

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

I tried almost every thing a man sould of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told my minger to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. "For twelve years, I had the yellow Ergsipelus on my right arm, during which time I tried all the eclebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and that doctors decided that, my arm must be amputated. I began taking your SARSAPARILLA. Took two botiles, and some of your PILLS. Our only child, about three years of age, was ittacked by pimples on his forehead. They rapid! spread until they formed a louthsome and windent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied altrate of allver and other remedies, without any ipparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrept wound which covered his whole face. Having tried every thing else we had any nope from, we began giving your SARSAPARILLA, and applying the foldite of potash lotion, as you direct. Mr. Chas. S. Van Liew, of New Brusneick, N. stand simple, pure, majestic, having Fact for its basis, Induction for its pillar, and Truth alone for its Capital. My Extract Sersepatills is a Blood Purifler; my Extract Buchn is a Diarette, and will not as such in all cases.

Both are prepared on purely scientific principles—in sectio—and are the most active measures of either that can be made. A ready and conclusive test will be a comparison of their properties with those set forth in the following warfar:

Nor is it pleasant to consult a physician for the relief of these delicate affections, and only upon the most urgent neces-try will a true woman so far sacrifice her greatest charm as to do this. HELMBOLD'S EXTRACT OF BUCHU. Hundreds suffer on in silence, and hundreds of others apply valuey to druggests and doctors, who either merely tantalize them with the hope of a oure or spply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although It may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tes and codee, and frequent childbirth, it is far of-tener caused by direct irritation, applied to the mu-

cons membrane of the vagina itself. When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them: It is but sim-ple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happfness of woman, in all classes of society, and which, consequently, affect, more or less directly, the welfare of the entire, human famfly. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed, and the mind unduly excited by pleasure. perverting in midnight revel the hours designed by sture for sleep and rest, the work of destruction is

half accomplished. In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitoment is over, another in prospective keeps the mind morbidly sensitive to impression, while the new constant restraint of fashionable dress, absolutely forhidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of tem-perature; the complete prostration produced by exessive dancing must, of necessity, produce their isgitimate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, lutherto so utterly regardless of the plain dictates and re-monstrances of her delicate nature, becomes an unrilling subject of medical treatment. This is but a truthful picture of the experience of thousands of

our young women.

Long before the ability to exercise the functions of the generative organs, they require an education o their peculiar nervous system; composed of what is called the tissue, which is, in common with the female breasts and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development. For Female Weakness and Debility, Whites or Leucorrhoa, Too Profuse, Exhausting, Too Long Continued Periods, for Prolapsus and Bearing Down, or Prolapsus Uters we offer the most perfect specific own: Helm'of l'a Compound Extract of Buchu. Directions for use, diet, and advice accompany.
