No amount of labor was too great for him if by it he succeeded in having a Democrat torn from his home and family and incarcerated in some filthy prison. The late Grant jam at the Fifth Avenue Hotel, was the biggest thing of the kind. It was toadying on a heavy scale. The General has, for the past six months, been the recipient of any quantity of small demonstrations, but this one was a clincher. All the wealth and all the morals were out in full feather: for inasmuch as fifteen hundred sclect were ticketed in, and fifteen hundred more stole in without tickets, it is safe to say the arsemblage was "promiscuous, very." As a speci-men brick of the taste of a portion of the sovereignty while being "introduced," we give the following: "General, this is my eldest son, Wm. Mason-Willie, tell Gen. Grant the prayer you say for him every night." | [Willie attempts to de so, but is jerked on sud-denly by a heathenish committee man.) "Move along, move along, say your prayers another time."

Ladies, take Particular Notice THE REAL VELPAU FEMALE PILL [WARRANTED FRENCH.]

THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of shortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the eriginator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem that the trails completely charges, they seem to be truly omnipotent, bursting open the flood-gates from whatever cause may have atopped them; but they are offered to the pub-lic only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscarriage. These pills are entirely safe under all circumstances, being composed entirely of substances from the vegetable kingdom.

Each box has the coat of arms for the City

of Paris stamped on the box, with the words "Trade Mark" in French, to counterfeit which is a misdemeanor, and all persons will be dealt with according to law. Ladies can obtain a box scaled from the eyes of the curious, by inclosing One Dollar and six post-office stamps to any respectable druggists, or to O. G. "I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and coe tinued until my face is as smooth as any body's, and I am without any symptoms of the disease that is know of. I enjoy perfect health, and without a loubt owe it to your SARSAPARILLA."

"Our only child, about three years of age, was ittacked by pimples on his forchead. They rapidi spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied alirate of silver and other remedies, without any apparent effect. Having tried every thing else we had any lope from, we began giving your Sarranparituda, and applying the foldio of potash lotion, as you direct. stand simple, pure, majestic, having Fact for its basis, induction for its pillar, and Truth alone for its Capital. My Extract Sarsaparilla is a Flood Parifier; my Extract Buchn is a Diurctic, and will act as such in all cases.

Both are prepared on purely scientific principles—in racuo—and are the most active measures of either that can be made. A ready and conclusive test will be a comparison of their properties with those set forth in the following works:

FEMALES, owing to the poculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings and adments becalar to the sex-Freedom from these contributes in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these vazious female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these delicate affections, and only upon the most urgent necessity will a true roman so far sacrifice her greatest charm as to do this. The sex will then think us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMBOLD'S EXTRACT OF BUCHU.

Hundreds suffer on in science, and hundreds of others spply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them were. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although is may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse mentionation, the use of tes and coffee, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucons membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the ny additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect, more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and pervert of in the restraints of dress, the early confinement of school, and especially in the unhealthy excitoment of the ball-room. Thus, with the body half clothed, and the mind unduly excited by pleasure. perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction da

In consequence of this carly strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitoment is over, another in prospective keeps the mind morbidly sensitive to impression, while the new constant restraint of fashionable dress, absolutely for-bidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of temperature; the complete prostration produced by excessive dancing must, of necessity, produce their logitimate effect. At last, an early marriage 'caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and re-monstrances of her delicate nature, becomes an unrilling subject of medical treatment. This is but a

truthful picture of the experience of thousands of our young women.

Long before the shillty to exercise the functions of the generative organs, they require an education of their peculiar nervous system; composed of what is called the tissue, which is, in common with the female breasts and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long befo to habits which sap the very life of their victims ere nature has self-completed their development. For Female Weakness and Debility, Whites or Leucorrhom, Too Profuse, Exhausting, Too Long Continued Periods, for Prolapsus and Bearing Down, or Prolapsus Uteri, we offer the most perfect specific known: Helmbolt's Compound Extract of Buchu.
