MANHOOD: How Lest, How Restored Jast Pablished a new edition of Dr. Colvenwell's Chinnered Essay on the rediced care (without medicine) of Spranary Rangel, or Seminal Weakness, Involuntary Seminal Losses, Informative, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Community, Efficiency and Fire, induced by self-indulgence or sexual extrava-

games. These is a sealed envelope, only 6 cents.
The colebrated author, in this admirable centy, clearly
demonstrates, from a thirty years escossiful practice,
that the alarming consequences of self-ajmin may be radically cared without the dangerous use of internal medicine or the application of the knife—pointing out a mode
of cure at ance simple, certain and effectual, by me ns of
which every sufferer, no matter what his condition may
be, can cure himself cheanly, survivately and radically. which every states, no matter was in condition may be, can cure himself cheaply, privately and restically.

Ladies, take Particular Notice THE REAL VELPAU FEMALE PILL

[WARRANTED FRENCH.] THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the eriginator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the flood-gates from whatever cause may have stopped them; but they are offered to the publio only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for

they will be sure to produce a micarriage.

These pills are entirely safe under all cir cumstances, being composed entirely of sub stances from the vegetable kingdom. Each box has the coat of arms for the City of Paris stamped on the box, with the words "Trade Mark" in French, to counterfeit which is a misdemeanor, and all persons will be dealt with according to law.

Full directions accompany every box.
Ladies can obtain a box scaled from the eyes
of the curious, by inclusing One Dollar and six post-office stamps to any respectable drag-gists, or to O. G. STAPLES, General Agent for the United States, Watertown, N. Y. Agents,

Ayer's SARSAPARILLA.

THE WORLD'S GREAT REMEDT FOR Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Ox "I have sold large quantities of your SAESAPA RILLA, but never yet one bottle which fulled of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there ha-been no medicine like it before in our community." Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin. From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unabliture until we tried your SARSAPARILLA. She been well for some months."

From Mes. Lyne F. Rice, a well-known and mach

cure until we tried your Sarsararilla. She been well for some mouths."

From Mrs. Jane E. Rice, a well-known and muck exteemed lady of Denniseille, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous cruption, which was very troublesome Nothing afforded any relief until we stried your Sarsararilla, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nahua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intelerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your Sarsararilla."

It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a loubt owe it to your Sarsararilla."

Erysipelas—General Dobility—Purify the

Erysipeles-General Debility-Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fall to remove Exuptions and Scropholous Sores by the persevering use of your SARSAPARILLA, and I have just now cured an attack of Malignant Erysipelas with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

olied to the profession as well as to the people."

From J. E. Johnston, Etg., Wakeman, Ohio.

For twelve years, I had the yethous threinsland on my right arm, during which time I tried all the celebrated physicians I could reach, and took hun dreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the dectors decided that my arm must be amputated. I organ taking your SARSAPARILLA. Took two botles, and some of your Pills. Together they have used me. I am now as well and sound as any body. Being in a public place, my case is known to every ody in this community, and excites the wonder of ill."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted,"

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes. Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the
Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was
stacked by himples on his forchead. They rapid!

spread until they formed a loathsome and virulent
sore, which covered his face, and actually blinded
his eyes for some days. A skilful physician applied
difrate of silver and other remedies, without any altrate of sliver and other remedies, without any ipparent effect. For fifteen days we guarded his ands, lest with them he should tear open the festering and corrupt wound which covered his whole size. Having tried every thing else we had any tope from, we began giving your SARSAPARILLA, and applying the loddo of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child'us gelashes, which had come out, grew sgain, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts. "Dr. Ayer. My dear Sir: I have found your SARSAPARILLA an excellent remedy for Sphills, so h of the primary and secondary type, and effectual in some cases that were too obstinate to yield no other remedies. I do not know what we can em-

ploy with more certainty of success, where a power-ful alterative is required." Mr. Chas. S. Van Lieve, of New Brussecick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more med more aggravated for years, in spite of every remedy or treatment that could be applied, antil the persevering use of Ayen's Sarsapantle. Telieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen oottles to cure him.

From the well-known and widely-elebrated Dr.

Jacob Morrill, of Cincinnati.

I have found your Sarsaparalla. An excellent alterative in diseases of framels. Many cases of Irregularity, Leucorrhea, Internal Ulceration, and local debility, arising from the scrofulous disthesis have yielded to it, and there are few that do not, when its effect is properly aided by local treatment.

A lady, unwilling to allow the publication of her name, triles:

"Hy daughter and myself have been cured of a very debilitating Leucorrhea of long standing, by two bottles of your SARSAPABILLA." Sheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

FLUID EXTRACT SARSAPARILLA, For purifying the Blood, removing all ghronic constitu tional diseases arising f. out on impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrotals, Scala Read, Sait Blumm, Pains and Swellings of the Bones, Ulcarations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly Eruptions of the Skin, AND BEAUTIPYING THE COMPLEXION.

NOT A FEW of the worst disorders that afflict mankind arise from the correction that accumulates in the Dlood. Of all the discovaries that have been made to purgo it out, none can equal in effect fizhmoode's Compound Extract of Sam-SAPARTLLA. It cleanses and renorates the Blood, intills the vigor of bealth into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that ground and rankle in the blood. Such a remedy that could be relied on has long been sought for, and now, for the first time the public have one on which they can depend. Our space here does not admit of certificates to show its effects. t that the trial of a single bottle will show to the sick that it has its virtues surpassing anything they have ever taken.
Two tablespoonsful of the Extract of Saranparilla added to a pint of water is equal to the Lisbon Diet Drink, and one bottle is fully equal to a gallon of the Eyrup of Sares

parills, or the decoction as usually made.

HELMBOLD'S ROSE WASH, An excellent Lotion for diseases arising from habits of pation, used in connection with the Extracts Duchu and Sarsaparilla, is such discuses as recommended. Evidence of the most responsible and reliable character will secompany the medicines. Also explicit directions for use, with hundreds of thousands living witnesses, and up wards of 30,000 unsolluited certificates and recommenda-tory letters, many of which are from the highest sources, including eminent Physicians, Clergymen, Stalesmen, & the newspapera; he does not do this from the fact that his articles rank as Standard Preparations, and do not need to be propped up by certificates. FEMALES, owing to the poculiar and important relations which they success, their peculiar organizamany sufferings and ailments peculiar to the sex-Freedom from these contributes in no small degree to their impuress and with a speciment to their impuress and with a speciment to their py who are ill. Not only so, but no one of these vi-

rious female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome, complaints peculiar to the sex.

HELMBOLD'S EXTRACT OF BUCHU. Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tes and coffee, and frequent childbirth, it is far of

tener caused by direct irritation, applied to the mucous membrane of the vagina itself When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but sim-ple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect, more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and pervertof in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed, and the mind unduly excited by pleasured by perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction is

half accomplished. In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely for-bidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night air; the sudden change of tempersture; the complete prostration produced by excessive dancing must, of necessity, produce their legitimate effect. At last, an early marriage caps the elims of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of

our young women. Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system; composed of what is called the tissue, which is, in common with the female breasts and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.
