Written for the Observer.] History of the Triangle.

Lake Erie, as also the town of Erie, derived is name from a powerful tribe of Indians of that name-located upon the south shore of the lake; and from discoveries of Indian mounds, burial grounds, and other relics found in this vicinity, this must have been their headquarters. The fine hunting-grounds in the neighborhood, as also the abundance of fish in the bay, was probably the inducement. They were called "Eries" or "Cat Tribe" by the other tribes, and were named by the early French explorers as the "Chats" or "Neutral Nation."

The original name given to the place by the French was " Presque Isle," which signifies "almost an Island" or "Peninsula." The name "Erie" was given by the State authorities, when the act to "lay out the town " was passed by the Legislature, July, 1795. The town was laid out in sections a mile square each. In July, 1805, the first section was incorporated into a "Borough."

GLENNI W. SCOPIELD. He was born in Chautauqua county. New York, March 11, 1817, graduated at Hamilton college in 1840, and removed to Warren, Pennsylvania, where he was admitted to the bar in 1843 In 1850 and 1851, he was a member of the State Senate. In 1860 he was appointed President Judge of the Eighteenth Judicial district of the State, and in 1862 he vania to the Thirty-eighth Congress, serving on the committees on Elections and Expenditures in the War Department. Re-elected to the Thirty-ninth Congress.

Letter from Wellsburg. WELLSBURG, Dec. 18, 1865 Mn. EDITOR: As Wellsburg is a village of some importance, I thought it worth while to notice some few items in connection there Still deformity of Hare, lip, removal of with. It is situated about eight miles south turing of Piles and Fistula in Ano. of Girard, and one mile east of Albion, in the township of Elk Creek. We have three drygoods stores, a large building in process of erection to be used for the purpose of Salt. January 10th and 11th, and at the selling goods, a good flouring mill, tannery, the selling Hotel. Greenville. on Friday, flux mills, two saw mills, &c. There is some thing said in reference to oil here. There have been five hundred acres of land so'd adjoining this village for oil territory, at from fifty to one hundred dollars per acre. As to politics, they are of a darkish shade. By the way, this township has not furnished one person to fill a county office since it has been settled. We paid a tax in the township of twenty thousand dollars last year, and about the same the present year.

> The Titusville & Pithole railroad, the Oil Creek Lake & Titusville Mining and Trans zortation Co., and the Westfield Railroad Co. have connolidated into one company to be called the Westfield, Titusville and Pithole Railroad Company. The result of this movement, if the roads are built, will be to throw most of the trade passing over it from Titusville into the hands of New York parties, and to advance, as far as the influence of its offi cers can, the interests of Buffalo and Westfield, in antagonism to those of Erie. It will not be many months before our citizens awaken to a full realization of the damage inflicted upon our city in letting the charter of these roads pass into the hands of outside parties,

Items of Local Interest. A schoolmaster the other day struck "lie,"

tax payers knew how much exira cash the "honor" would cost them they would not be so anxious. Such cases, however, are much like matrimony-people will never besatisfied until they have experience on the subject.

Several of the New York State weekly papers will increase their subscription prices on the first of January from \$2,50 to \$8,00 per year. The cost of pristing paper makes that course accessary.

Those of our citizens who have need of a Dentist, (and with all respect to the profession, we trust they are few), will find Dr. H. Y. The bridge erected by the Buffale & Erie R. R. Co., over the deep gully near the State line, is one of the most interesting objects in this section. The height from the bottom of lent purgatives, which debilitate the system the ravine to the railroad track is 128 ft. The and cause a return of the disease with inarches and abutments are of solid masonry, creased asperity? Is it not better to have a that have been constructed for permanency, which will defy the attrition of the elements for ages to come.

Our citizens are probably not generally aware that a number of young men connected last week two drafts were returned to the with Cook's Commercial College have for some Baker, for \$9 50, drawn by the cashier of the | performers. A public exhibition is intended to be given as suon as the members feel com. petent to appear in that capacity.

The Warren Ledger reminds oil and lumber operators that work in their line "can be got cheaper and done in better style at the Erie City Iron Works than at any other establishment in Northwestern Pennsylvanis. A slight index to the magnitude of the firm may beseen by the fact that it employs 150 men. Mr. H. L. White, Shipping Agent of the establishment, is a gentleman and a business man of the first merit, and all who may have oc casion to deal with him will agree with us in what we say." True all around.

A Concert and Festival for the benefit of St. Paul's United Evangelical Protestant Church will be held in Farrar Hall, on Wed. nesday evening next, the 8d of January. The price of tickets is 50 cents; children half price. A fine programme has been arranged, and the reputation of the members of this congregation for superior singing gives as surance that it will be performed in a satisfectory manner.

Messre. Chambers & Dunn, photographers, whose advertisement appears in our columns to-day, are first class artists, and pleasant, was elected a Representative from Pennsyl- accommodating gentlemen. They have added to their establishment one of the patent sliding arm chairs, which enables them to take pic tures in something more than a dozen different positions. It is the only article of the sort in the city, and gives them a great advantage. We heartily commend them to the

patronage of our readers. The editor of the Dispatch announces, in Saturday morning's paper, that his daily is no longer an experiment, but that its patronage is such as to ensure the permanency of its publication. The business of the office has increased to a wonderful extent, and it may fairly chim to take rank as one of the most successful printing establishments in the country. Mr. Lynn is emphatically a working man, and to his energy and perseverance msy mainly be attributed the prosperity which has attended the paper. As a member of the graft he has proved himself, in his dealings with us, to be honorable and accommodating, and while we shall seldom or never, in all probability, agree in politics, it affords us gratification to know that he is doing well in

business point of view. The Gazette denounces severely the parties who sold out the charter for the building of a railroad from Union to the New York line. It thinks the construction "of such a road would materially injure the business and general prosperity of this city and county, and whatever may have induced the managers of the said 'Mining Company' to enter into such an arrangement with the New York capitalists, it is too evident that they made a grave error, which nothing but prompt action on the part of our citizens can remedy. The 'cross-cut' road must to a considerable degree sever the connection between Brie and E S T H A Y . the oil region, and destroy to a great extent the wholesale trade now carried on between them." Our distinguished Senator and his half dozen peppets will not fancy this plain cording to law. port of talk from their county organ.

The party with the sun The new over the season was much more severe at several points on the Lake than here. The following are some of its doisgs in Buffalo: St. John's turret damaged and windows broken. The spire of the new Universalist church rocked so badly that it crumbled the capstenes and dislodged some of them." Part of the roof of the Courier office carried off.

The smoke stack and part of the roof of the Buffalo Steel Works down. The steam barge International was taken from its moorings and carried down the Ningara river some distance. A large number of chimneys were blown down all over the city.

An Irish laborer named John Leonard was accidentally kitled last week at Shaffer by attempting to cross the track in front of a locomotive passing through the yard at that place. He was terribly mangled, and only survived the accident about three-quarters of an hour. No blame can be attached to the engineer, as the man was very much intoxicated at the time, and the engine was within fifteen feet of him when he attempted to cross.

A brakeman on the local freight train of the P. & E. R. R., named Austin Needham, was killed at Concord last week, by the passenger train going east. He had left his own train to cross the railroad track for the purpose of obtaining some refrashments, and in returning again was struck by the down train and died almost instantly. He resided in this city, and had many friends among the railroad men here bouts.
