A. ADAMS & CO., A. Political Paragraphs.

The first tresson case, consequent upon the late rebellion, is now being tried in the U. S. District Court. before Judge Trigg. The case is the United States vs. John G. Gamble, who was an enrolling of BO ficer under the Confederate Government, in Blout county, East Tennessee. Col. O. P. Temple is counsel for the defendant, and Col. Hall is prosecutor on behalf of the United States. This is the first treason trial since the memorable Aaron Burr 0150.

John Tillman, a negro who most bru tally violated the person of Lillie Bevins, a child of five years, was tried last week in New York, and evidence of his guilt adduced of the most revolting character. His counsel attempted no defense, and the Judge gave him the extreme sentence of the law-20 years in the State Prison as hard labor., The case is one of the most horrible we have ever known even in thit hot-bed of crime.-Iribune.

Senator Pomeroy, of Kansas, made a speech in the court house of Bureau Co., Ill.. in which he made the following tree-sonable remark : "I would rather help tear down the Capitol than allow the Southern States to come back into the Union without letting the negro vote!" That is the kind of sentiment that pervades the benevolent breasts of the Radicals.

Gerrit Smith, of New York, is now in Chicago for the purpose of prosecuting the proprietors of the Chicago Tribune for a libel published in that journal in June last, wherein, by implication he is accused of feigning insanity to ercape from his responsibility in the John Brown raid, and that he purposely continued it until after Lincoln was inaugurated.

An elopement from Indianapolis, which took place a couple of months ago, has berne disagreeable fruit. A young and headstrong girl, daughter of one of the "first families," despite the protests and entreaties of the parents, married a handsome but rather wild blade. She eloped, married, returned, was reconciled, discovered an incompatibility of temper, was divorced, and is again in the bosom of her family within the brief period of two months. Rather a rapid experience. even for this fast age, for a young Miss in her "teens."

Richard Winder, John McGee and John Duncan, late of the rebel army, and who were till recently confined in the Old Capitol in Washington. on charges of inhuman treatment of Union prisoners, have, now that the establishment is no longer to be used for a prison, been sent to the South, where they will be tried by court martial.

Boys. -The Salem Republican says the most approved method of raising children now adays is to let them run about the streets until a late hour-call swearing smartness, black-guardism precoclousness, and every species of malicious mischief, fun. The pupils of these n ght schools hardly ever fail to gradu-ate in the penitentiary, and not a few take Gor Azro where o the higher or gallows degree. The Republican is right. A boy who is allowed by over in-dulgent parents to run about at all hours of He is h the night, will never amount to anything, and will very likely come to a bad end.

A man in Atlanta had a well nearly filled with rubbish which he wanted cleaned out. The freedmen in that country are not much in favor of work and are difficult to hire; but the owner of the well quickly started a story that an iron safe belonging to the express PEAC company, and full of gold, had been throws well when the city was evacuated Always In less than an hour his yard was filled with negroes who cleaned cut his well in almost no time. But they didn't find the safe.

The Brandon (Miss.) Republican says the prettiest girls are in Brandon. An Atlanta editor says the dearest widows are around in his neighborhood, and adds that a man with the "pewter" can get married so quick in Atlanta, that it will make his head swim.

HESE PILLS, so celebrated many years ago in Paris for the relief of female egularities, and afterward so notorious for air criminal employment in the practice of ottion, are now offered for sale for the first me in America. They have been kept in mparative obscurity from the fact that the iginator, Dr. Velpau, is a physician in Paris great wealth and strict conscientious prinoles, and has withheld them from general tiples, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Fenale Obstructions, falling of the Womb, Whites, Green Sick-ress, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the lood-gates from whatever cause may have topped them; but they are offered to the pub-it only for legitimate uses, and all agents are d only for legitimate uses, and all agents are orbidden to sell them when it is understood hat the object is unlawful. FEMALES, owing to the peculiar and important relations which they sustain; their peculiar organization, and the offices they perform, are subject to many sufferings and allments peculiar to the sor-Freedom from these contributes in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness vidual, and ere nong providing prevaience of the second premature decline. Nor is it pleasant to consult a physician for the relief of these delirate affections, and only upon the most urgent necessity will a true woman so far sacrince her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found effica-cious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

NELMBOLD'S EXTRACT OF BUCHU.

Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or suply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although to the anticted, but 1 and ourgen to say that although if may be produced from excessive exhaustion of the powers of life, by laborious employment, unwhole-some air and food, profuse menstruation, the use of tes and coffee, and frequent childbirth, it is far of tener caused by direct irritation, applied to the mu-cous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the sttendant evils consequent upon them. It is but sim-ple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect, more or less directly, the welfare of the entire human family. The manis that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed, and the mind unduly excited by pleasure. perverting in miduight revel the hours designed by nature for sleep and rest, the work of destruction is half accomplished. the truth of the assertion. The Constitution, once affected by organic weakness, requires the aid of medicine patrengthen and invigorate the system, which HELMBOLD'S EXTRACT OF BUCHU

In consequence of this early strain upon her system, unnecessary effort is required by the de tem, unnecessary enors is required by the data of the votary to retain her situation in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and retention of organic health and strength ; the exposure to night air ; the sudden change of temperature ; the complete prostration produced by ex-cessive dancing must, of necessity, produce their legitimate effect. At last, an early marriage caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and ro-BUCHTU is unequaled by any other remety, and for all complaints incident to the sex, or is the DECLINE OR CHANGE OF LIFE, monstrances of her delicate nature, becomes an un-willing subject of medical treatment.  "Our only child, about three years of age, was stacked by pimples on his forehead. They rapid ' spread until they formed a loathsome and virulent bore, which covered his face, and actually blinded his eyes for some days. A skilfni physician applied altrate of silver and other remedies, without any ipparent effect. For fifteen days we guarded his bands, lest with them he shoald tear open the fes bring and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SasapAsiLa, and applying the iofide of potash lotion, as you direct. The sore began to heal when we had given the first botth, and was well when we had given the sits botth, and was well when we had finthed the accord.  From A. J. French, M. D., an eminent physician of Lacrence, Mass., who is a prominent member of the Legislature of Massachusetts.
 "Dn. AYER. My dear Siri I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effec-tual in some cases that were too obstinate to yield to other remedies. I do not know what we can em-pley with more certainty of success, where a power-in alternitive is required."

In alternive is required." Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SAESAFARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to care him.
