when he ought not to. A miss of thirteen summers, residing in Portland, Me., weight three hundred and five pounds, and is gaining finely. Immense bones have been found in Adams county, Miss., which medical mea believe to have belonged to a giant thirty

feet high. Why is the letter B the embodiment of every American patriot's wish? Because it is the end of war and the commence ment of re-union.

Mrs. John Nevins has been arrested in Pittsburg upon the charge of killing, by means of poison, her husband, who has recently returned from the army.

The editor of the Springfield Republican went to market the other day, and upon his return wrote an article upon the high prices and the spirit of speculation every-where rife, and closed up as follows: " Might not our religious teachers find it salutary to turn saide for a time from la mentations over the heathen, who worship the best gods they know, and scatter a little wholesome damnation among the servants of Mammon, who in Christian sanctuaries offer robbery for burnt offer ings? If we had the knack of it, and were duly authorized, there is no mission we could undertake with so hearty a relish."

A Good Joke.-We heard a good joke perpetrated yesterday by a friend. Said he to an acquaintance: "Things are really coming to a pretty-pass in our town-all the ladies stopping at the Exchange' left the table yeaterday!" "Pos-sible!" said the person to whom the re-marks were addressed, greatly surprised. "what caused them to do so?" "Why," responded our friend, convincing himself that the coast was clear, "they had fiu-ished eating!"

One of the Northern "school marms." who is employed in teaching the "freedmen," told a sprightly negro girl that she "must not call the woman with whom she lived, mistress-that she was as good as anybody." Pretty soon the girl asked her teacher what business she followed before coming South to teach. "I was a bonnet-maker," was the reply. "Well," said the girl, gathering up her books and making for the door, "I am not going to sociate wid you any longer—you say I is ekel to my mistress, and she don't sociate wid bonnet-makers."

MEN WHO CANNOT MAKE SPEECHES .-One of the most singular developments of the times is the appearance in American public life of a class of men who cannot make speeches. Thus, we have a Lieutenant General who, when he is fairly cornered by the admiring crowd, will not let a word out of his mouth any mote than he would Pemberton out of Vicksburg, or Lee out of Richmond. General Sherman, on similar occasions, attempts but the most meager replies, although he is ready and pungent enough with his pen. General Thomas returns thanks, and that is all; while the gallant Sheri dan rays: "Excuse me, boys,' you know I never make speeches."—Boston Journal.

A young lady in Chicago was betrothed at the beginning of the war to a lieuten-ant in the army. He was killed in tat-tle, and his body taken home and buried by his nearest friend and comrade who was with him when he fell. To this young man the lady's affections were transferred in time, and she engaged to marry him. On the day when they were to be united, and while the clergyman was about to join their hands, the lady suddenly fainted. On recovering, she said she had seen the spirit of her lover, who had forbidden the marriage. Out of deference to the wishes of the deceased gentleman, the nuptials were indefinitely postponed, and the heroine has just entered a convent.

GOING TO THE DOCTOR - Mr. Henry East, the author, records the interesting story of a dog named "Dash" which had its leg broken, by being run over, and was taken to a surgeon, to have it set. Some time after, when the leg was healed, "Dash' met with one o his friends, who was suffering from a similar accident. He immedietely trotted, off with him to the house of the surgeon where he had himself ob trined relief, and barked and howled for admission. As soon as the door was opened, "Dash" rushed into the surgery, and, as well as he could, explained his errand. The kind surgeon set the poor lame dog's leg, after which the two four legged friends left the house, expressing their gratitude most unmistakably, by the wagging of their tails; "Dash" bounding about with delight.

INTERESTING NEIGHBORS. -- A correspondent of the New York Times, who has been all over Alabams, and who is a rank abolitionist, draws the following picture of the negro population in that State. Who of us would like such neighbors? "Haff a million of freedmen are within the borders of Alabams. Forty thousand of them are aged and infirm, and of course with out means and atr. ngth to assist them. selves. There are, in addition, one hun dred thousand children, necessarily helpless. Those who are able and unwilling to perform labor prowl around upon the farms and plantations, and eke out a miserable life by stealing and marauding.— Take it throughout the State, it is believed that ten thousand hogs and one thousand head of cattle have been stolen and killed by these indolent men and women, all of whom are able to perform any kind of

NEGROES IN THE GALLERIES OF CONGRESS. -The Washington correspondent of the New York News, writing under date of the 8th ult., says: "A new feature is exhibited at this session. This is the appearance in the galleries of both Houses of large numbers of negroes and negress-es, and the airs they put on is a caution. They push themselves into the ladical galleries and thrust themselves into the front seats, and there they sit for hours. No decent people will sit on the seats behind them or near them, and thus there always a wide vacant space between them and the white people. The negroes clap their hands and grin and chatter like monkeys, whenever any of their friends. on the floor make any allusion to the American citizens of African descent. E have seen dozens of ladies come to the door of the gallery, look in astonished at the sight that met their gaze, and a sen turn away and leave the apitol sooner than be contaminated by sitting in the same galiery with the negroes, and behind them, too. Negro equality here is advancing with rapid strides."

A STORY ABOUT Mr. SUMMER. -- There is a pretty good story now currena in Wash. ington concerning the distinguished Sen ator from Massachusetts. While Mr. Summer was working vigorously to com-pel the city railroads of Washington to carry blacks and whites on an equal foet-ing, he happened to be riding one day in Pennsylvania avenue, in one of the cars, seated beside Mr. Powell, of Kentucky, the leading spirit of Senatorial copper-headism, who had long been laboring to prove that the African was not a Caucassian, and vice versd. Pretty soon an American lady of African descent entered the car, and found all the seats occupied. In car, and found all the seats occupied. In an instant up jumps—Mr. Sumner! No, indeed, but Mr. Powell; and never was a Broadway belle more politely bowed into an omnibus-seat, by a Fifth avenue exquisite, than was Dinah ushered into the cushiogied space vacated by the Kentucky Senator. When the two Senators had reached their destination, Mr. Powell twitted Sumner a little, by asking him, with a significant amile, why he didn't give his significant amile, why he didn't give his seat to that "colored lady?" ## SARSAPARILLA.

THE WORLD'S GREAT REMEDT FOR rofula and Scrofulous Diseases From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SABSAFARILLA, but never yet one bottle which failed of the

From Charles P. Gage, Esq., of the widely-known Gage, Marray G. Co., manylacturers of enomelled papers in Nashia, N. H.

I had for several years a very troublesome hunor in my face, which grew constantly worse until it disfigured my features and becames in intogerable affliction. I tried almost every thing a man could of both advice and medicine, but without any colled of both advice and medicine, but without any relief whatever, until I took your Sarsaparilla. It immediately made my face worse, as you told me is might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without smy symptoms of the discase-that I know of. I enjoy perfect health, and without a loubt over it to your Sarsaparilla.

From J. S. Johnston, Esq., Waleman, Okio.

For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The nicers wern so had that the conde became visible, and the doctors decided that my arm must be ampetated. I began taking your HABERAPARILLA. Took two bottles, and some of your Pills. Together they have cared me. I am now as well and sound as my body. Being in a public place, my case is known to every yody in this community, and excites the wonder of ill." From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Partia-

"I have used your Barsararilla in my fimily,

From Harvey Sickler, Reg., the able editor of the Tunkhasnoch Democrat, Pensytrania.

"Our only child, about three years of age, was ittacked by pimples on his forchead. They rapidl spread anull they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied altrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the feetering and corrent wound which covered his whole face. Having tried overy thing clae we had any lope from, we began giving your Sarsanarallina, and applying the indide of potash lotton, as you direct. The sare began to heal when we had finished the second. The child's cyclashes, which had come out, grew apids, and he is new as healthy and fair as any other. From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

DR. AYER. By dear Sir I have found your MARSAFARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a power-hi alterative is required.

From the well-known and widely-celebrated Dr.

"I have found your Barsanantilla an excellent

Irregularity, Leucurrhous, Internal Ulceration, and
