It is estimated that every freedman in the South has cost every white man in the North five thousand dollars.

The Richmond Times finds consolation in the "peculiar fact" that "three prominent members of the Bepublican party have died within a brief space of time, while indulging in pleasurable recreation. Joshua B. Gid-dings fell by the side of a billiard table; President Lincoln died in a theatre, and Mr. Corwin was stricken down while enlivening the festivities of an evening with jokes."

Thomas Clohesy, a journeyman trunk maker, residing at No. 25 Pearl street, re cently picked up an envelope in front of the Bank of Attics, in Buffalo, which upon examinstion was found to contain ten thousand dollars in greenbacks. He immediately en tered the bank and left the parcel to be re stored to the owner. Such honesiy should be rewarded liberally.

The people of several counties in Illinois are using corn for fuel. Corn costs ten cents per bushel, and seventy bushels make a cord ; the cost of a cord is, therefore, seven dollars. A cord of wood with the sawing of it costs hine dollars and fifty cents, so that two dollars and fifty cents are saved ; besides which the corn makes more heat than wood. The corn erop is beyond the demand. It would be a blessing if some of the Eastern poor could be furnished with foed from Western woodpiles.

" but for one reason." "Ah. what is that ?" asked Beecher. "Because," said Benjamin, with a merry look of his eyes, "I make it an invariable rule never to go to any place of amusement on Sunday."

Mr. Graham, in the Strong case, alluding to the plaintiff, who had studied law but never entered upon its practice, said, " when a man has the shrewdness of a lawyer, but without his industry, he is an uncomportable member of any family. You might as well have the plagues of Job in your house .--When a man has been sharpened by the hous of the law, he needs something to cut, and if he doesn't cut the world, he will his familv.

R. A servant girl in Brest, France, has confessed to the murder of three children, by cutting the veins of their necks with a knife. She declared that she was moved by some irresistible impulse to the commission of the act.

The Charleston South Carolinian says that the negroes of that city, with their arms, are exactly like a parcel of small boys when each has got a new toy. They go popping about in the street, at the sparrows, at the pigeons, at the fences, at the trees, at the air, and at the sky. Those who can't obtain lead, or who dislike to waste it, entertain themselves with firing blank salutes to the town. The Charlestonians are very suzious to have the arms taken away from the jubilant darkies.

Mrs. Partington said that she did not marry her second husband because she loved the male sex, but just because he was the size of her first protector, and could wear out his old clothes.

The Boston Transcript says that the house in Washington owned and occupied by Gen. Grant, had a library, architecturally speak. ing, but no library in a literary sense; con-sequently, certain parties of Boston, under the lead of Hon. Samuel Hooper, M. C., resolved to supply the deficiency. The sum of five thousand dollars was speedily raised, and a carefully selected collection of standard works purchased.

The Madison, Wis., Journal says that, within the last five years, six children belonging to three families in Waterloo, in the before mentioned State, have mysteriously sickened and died. Their disease manifested itself in spaams; but its nature was not understood until recently, when a child died with all the symptoms of hydrophobia. It was then recollected that the cow had been bitten by a mad dog six or seven years ago, and all the children had been since drinking ker milk.

At St. Cloud, Minn., a few days ago, a man offered to bet he would est six dozen raw eggs in an hour. The bet was taken, and the egg eater commenced. The eggs were broken first, and measured five quarts. He then commenced, and in twenty minutes actually stowed them sway. This was after having eaton three hearty meals that day ! He then offered to bet that he could eat four dozen more eggs, but no one seemed willing to take the wager.

The Boston Commonwealth writes the abit. uary of the late Republican party as follows "The wedge which is to sunder the Republican party is now held in hand. It is presented in the form of a message of the President in the Senate, on Tuesday last, on the subject of his reconstruction policy. * * In view of the fact of the whole question being under consideration by Congress, this forcing of an issue by proclamations and messages, and the restoration of sovereignty to States held by military occupation, whose represent-atives are denied seats on the floor of Congress, presages neither unity to the Republican party nor good to the country."

If President Johnson is at a loss to know what to do with the reconstructed South, he can't blame the loyal liorthern Governors, whose annual messages seem to be made up pretty much with unasked, not to say impertinent, advice on the subject.

The Bosten Post says: "The very men who oried 'Union' so lustily, when secession was a threatening power in the land, are now the sole obstacle to the realization of that

cause, to give which has always been cause, to give which has always been possible. Shame up has not spunk and Bain ill humor

THE REAL VELPAU. FEMALE PILL. [WAREANTED FRANCH.]

THESE PILLS, so celebrated many years ago in Paris for the relief of femulo irregularities, and afterward so notorious for their criminal employment in the practice of shortion, are now offered for sale for the first bottion, are now onered for site for the hist time in America. They have been kept in comparative obscurity from the fact that the eriginator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious prin-ciples, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the Bood-gates from whatever cause may have stopped them ; but they are offered to the public only for legitimate uses, and all agents are n to sell them when it is understood forbide that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscarriage. These pills are entirely safe under all cir-

counstances, being composed entirely of sub Each box has the coat of arms for the City.
