The Finance Committee of Councils made a report, on Monday evening, recommending the following as the rates of taxes for 1866: General fund, 12 mills; Interest fund, 18 mills; Water, 5 mills; Police, 3 mills - 33 mills on the dollar in all. These rates were agreed upon by the Councils, and a commission of three per cent. allowed the collectors for securing the city taxes.

We are gratified with the re-appointment the city Councils of Thomas Crowley as Chief of Police. He is probably the fittest man in the city for the position, and we are confident that if given proper subordinates he will perform its duties in such a manner as to give general satisfaction. In order that e may be enabled to do so, though, he should be conceded the privilege of selecting his own assistants, subject of course to the approval of the Mayor and Councils.

We have endeavored, but without success. to obtain some reliable information of the rumored arrangement between the Atlantic & Great Western and the Philadelphia & Eric Railroad Companies. The officers of the latter Road at this city say some arrangement has been entered into between the two corporations, but they are, or profess to be, as little informed as the outside public in regard to the particulars of the contract. The matter is of too much importance to remain a secret much longer.

The new banking firm near the Union depot is to be known as Eliot, Goodwin & Co. The original parties have asso iated with them Messrs. John Goodwin and M. When this firm gets into operation, we will have seven benking institutions in this city—four national banks of issue, and three private banking houses.

We understand that Col. Rogers, of the 83d regiment has decided to become a candidate this fall for the office of Prothogotary. G W Colton, the present incumbent, has also declared he intention to seek a re-election. "The soldiers must be rewarded." said the Republicans during the war, and we trust they will not forget their pledges now.

The improvements at the dock bid fair to keep pace with those up town. We learn that Gen. Reed has determined to creet a rolling mill at some point near the outlet of the caral Two large planing and saw mills are to be erected by Messrs. Peckham & Hong and C. D Hill. They will be completed by fall. The timber is to be floated here from Canada, and sawed into lumber at this point.

We are informed that Gen. Reed has expressed his intention to erect a fine brick block on the property at the corner of the Park and State street, now occupied by Mr. G J. B.ll. The site is one of the best in the city, and if properly built un would undoubtedly prove a very lucrative investment, as well as add to the appearance of the locality.

The congregation of the Baptist church have voluntarily increased the salary of their devoted young patter, Rev. Mr. Bainbridge, from \$1 200 to \$1,500-an act of generosity which speaks volumes in their behalf, and shows the strong attachment they have formed for him during the brief period of his ministry in Erie. In addition to this liberal sum, he has been presented with a donation of \$260. The office of the General Superintendent of the Philadelphin & Eric Railroad has been removed to this city, the rooms in Wright's Black having been taken possession of for that purpose on Thursday. Erie will be the headquarters of the road hereafter, and we are much mistaken if the change does not reult in a ve y material advantage to the interests of our city.

It would be well if all disappointed politicians would take defeat as coolly and piously as one of our catemporaries, who desires some of his readers o lend him a copy of Baxter's "Saints' Rest." He says "he wants to read some good book in which there is no aliusion to politice.

. FEG & TOR AMERICAN JOURNAL OF PHARMACY, Ma-1865, edited by Wm. Proctor, Jr., Protessor of Pharmacy in the Philade'phia College of Pharmacy .- "Will the Fluid Extracts go out of use owing to the high price, o can we have some authoritative modificat one of the ormulas by which we can make them at a more reason able cost? If the latter, shall the change be in the quality of the meastraum, or in the manner of applying it, so as to reduce the quantity requisite? Can' there be a convocation of the Committee of Revision to an thorise some new method or modification of the present recipes i''

With regard to the contemplated change in the quan tity, or in the menutruum itself, in the preparation of fluid extracts, I would take occasion to say that in med icine the health of the patient is the great object to be gained. The cost of the material is something, but when put lote the scale with human health, and o'ten human life, it is ha-dly worthy of consideration at all. My Buchu (Helmbold's) will continue to be made as ormerly, and if it cannot be maintained at present prices, they will have to 'e advanced to mee: the advance in the price of material. . To such as desire quantity instead of quality, we would say that water is a cheap commodity, and may be readily added by the person using the medicine if he desires to do so.

READ WHO SAYS SO.

From Rev. W. D. Seigfried, Fastor of Twelfth Baptist Church, Philada.

Gentlemen I have recently been aboring under the difference of indigastion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hooftand's German Bitters were recommended by persons who had tried them, and whose-favorable meution of these Bitters induced me to try tiem. I must confess that I had an aversion to listens Medicines from the "thousand and one" quase "Bitters" whose only aim seems to be to palm off, sweetened and drugged liquor upon the comments in a sly way, and the teachery of which, Ifear, is to make many a confined drunkard. Upon learning that cours was really a medicinal preparation itsels it with happy effect. Its action, not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feet that I have derived great and permanent benefit from the use of a few bottles. Very respectfully yours.

W. D. SEIGFRIED, No. 254 Thackamaxon St.

From the Rev. E. D. Fendall, Assistant Editor Christian Chronfele, Philada.

I have derived decided benefit from the use of Hoofisud's German Bitters, and I feel it my purilege to recommend them as a most valuable tonic to all who are suffering, from general debility or from diseases arising from the derangement of the liver. E. D. FENDALL.

From Rev. D. Merrige, Fastor of the Passayunk Paptist
Church, Philads.
From the many respectable recommendations given to
Dr. Hoodland's German Bitters, I was induced to give them
a trial. After using several bottles, I found them, to be a
good remedy for decility, and a most excellent topic for
the stomach.

D. MERRIGE.

From Rev. Wm. Smith, formerly Paster of the Vincen-town and Millville (V. I.) Raptist Churches. Having used in my 'amily a number of bottles of your Hoofisul's ferman Bitters,' have to say I regard them moning a serial natures, I have to say I regard them as an excellent medicine, specially adapted to ramons the diseases they are recommended for. They strengthen and invigorate the system when debilitated, and are useful in disorders of the liver, loss of appetite, dec. I are also recommended them to several of my friends who have tried them, and found them greatly beneficial in the restoration of health. Yours truly,

WM. SMITH, 963 Hutchinson St., Phriada.
