According to the Oil City Register, the total loss to the oil regions arising from the failure of Mr. Culver's Banks, is not less than five

millions of dollars. The Conneautville Record asks its editorial brethren to remember "the meeting of the Lake Eric Press Association, to be held at Cleveland on the 7th of June next. We hope to have the pleasure of greating all the old members of the Association and a large num-

ber of new ones on that occasion." The city authorities have not yet adopted er suggestion to procure cushions for the cenefit of our corner loungers. Meanwhile there public benefactors are obliged to occupy iron rails and stone door steps, much to the discomfort of the sensitive portions of their bodies. We sigh to think of the distress that must be occasioned by this unaccountable re-

missness on the part of our public efficiale, The fire in Titusville last week destroyed some twenty-five buildings, and the loss is estimated at \$300,000, on which there is only a mall insurance.

The number of new buildings finished this spring or in course of completion is estimated at six hundred. We do not think we over esti mate the figures when we say that fully five hundred will be erected during the summer and fall. At the present rate of increase Erie will have not less than 30 000 population in 1870, and be the fourth in rank among the cities of the State.

We are informed by a person employed on board the steamer Michigan, that it is the intention of her new commander, Capt. Brysen. to have the vessel returned to this port as

oon as circumstances will permit. Mr. Evelyn Evans, whose qualities as as actor are well known and favorably regarded by our citizens, proposes returning to Erie about the 1st of October, with a first class company, and undertaking the experiment of keeping up a permanent theatre during the winter. He has been encourage lin his purpose by a number of our leading citizens, and feels much confidence in success.

A private letter from Washington to a gentleman in Titusville states that the committee selected for the purpose have reported the amended fax bill, omitting the tax on pe troleum. This, if true, will be cheering news rists in the South, when the to almost every person in this section.

The act creating an additional Law Judge in this district for ten years was extended by the last Legislature for ten years longer, and the people will be called upon to fill the position next fall. Judge Derrickson, of Crawford county, is the present incumbent, and it, was generally understood that the law was contin urd for his special benefit. Judging from the action of the Bleadville bar, his chances for re-clection are rendered tother uncertain. A meeting of the Republican members of that body has been held, at which H L Richmond. Esq , was unanimously agreed upon as their choice for the position, and a committee selected to notify him of their wish. Mr. Richmond replied, appounding himself as a candi date, in compliance with their wishes, and Judge Derrickson is thus left out in the cold, so far as his party in Crawford county is concerned. We do not know what action the Republicans of this county will-take, but understand that there is a feeling in favor of an Eric man, it being urged that as Crawford county has held the place ten years, it is no more than just that she should concede it to us for the next ten. Warren and Crawford furnish both the Judges at present, and it would seem Q Did you ever hear any observations about as if the large and able bar of Erie might be

able to supply at least one. The theatre-going portion of our public will be glad to learn that Sam Byan, the favorite comedian, who is always welcome to an Erie audience, has determined to visit the city next month with a troupe of first class actors. His opening entertainment will be given on the evening of May 24th, and it is his intention to remain twenty-six nights, provided sufficient encouragement is received. Among the persons attached to his troupe are such well knewn ones as Miss Julia Daley, Miss Emily Melville, and Peter and Caroline Richings. Miss Me'ville's name is not so familiar to our people as those of the others mentioned, but she is exceedingly popular in the West, where it is said her pretty features and winning manners nearly set all the young men crazy. One of the committee of observation who occupy the street corners, and make themselves useful to the community by dissecting the anpearance and character of passers-by, is high ly incensed at the comments made in the newspapers upon the new style of hoop skirts. He says they are the most popular fashions among the people of his class ever adopted affording as they do, so fine an opportunity for a critical examination of the points most

discussed among his fraternity. The expectation of our citizens that the un. sightly old market house, which disagures our West Park, would be removed next month are again doomed to disappointment. To a min who is fit for his position, and understands his business, we believe the publication of a newspaper to be as agreeable and remunerative an employment as can be adopted.

The citizens of Titusville and vicinity do not intend to let the new county movement drop. The measure is to be thoroughly agitated during the coming canvass, and the candidates for Legislature compelled to declare their views upon the subject. It will be the aim of the new county men to get candidates nominated in favor of their project. Failing in this, they will cast their support for the gentlemen who coincide with their wishes, irrespective of their party affiliations. There will be some comical displays of "ground and lofty tumbling" in the political arenas of Crawford and Venango counties next fall.

The desks, books, papers, and other material belonging to the Euperintendent's office of the Philadelphia & Brie railroad have all been removed to this city, and henceforth Prie will be the headquarters of the road. The change in the location of the offices has added two dozen or more to our population, nost of them young men, clerks in the different departments of the company's business. The rooms in Wright's block occupied by the railroad offices have been fitted up in a style of rare nestness and convenience.

We heartly endorse the comments of the Dispatch of Wednesday morning upon the manner in which our city council proceedings are conducted. The inconsistent, unparliamentary and absurd way in which the action of that body is carried on is a burlesque upon the name of a government. Our city fathers should have a school master placed over them, to teach them the elementary rules for conducting a legislative body.

The extensive manufacturing firm of Tibbals. Shirk & Whitehead have purchased six lots on Twelfth street, near Sassafras, on which they design erecting buildings for their purpose upon a much larger scale than their present werks. The energy of this firm has built up a trade exceeding that of any other establishment in their line west of Buffa'c.

The Oil City Register says four fifths, if not all the people of the 20th district, are anxious that Mr. Culver should resign his seat in Congress. It contends that "if Congress fails to remove the tax on petroleum, it will be clearly his fault." There is another so called representative of the petroleum interests who will have to share the blame with Culver.

In spite of the curiosity of many, no person has yet been able to ascertain the reason for GUNS, PISTOLS, & C. sending the body of regular soldiers here, now occupying the Park House. The only reasonable suggestion that we have heard is that they have been sent to keep the Abolition Copperheads from rising in rebellion against the Government.

Gantlemen I have recently been laboring under the
distresting effects of indigestion, see paganised by a prostration of the nerrous system. Numerous remedies were
recommended by friends, and some of them terted, but
without relief. Your Hoofand's German Bitters were
recommended by many cases who had 'indition. recommended by persons who had life them, and whose recommended by persons who had life them, and whose revorable mention of these Bitters induced me to try trem. I must confess that I had an aversion to rate the delicines from the "thousandland one" case the life that the life them. tiem. I must confess that I had no aversion to "atent Medicines from the "thousand and one" quack "Bitters" show only aim seems to be to paim off avertened a d drugged liquor upon the commenty in a sly ray, and the testency of which I fear, is to make many a confirmed draukard. Upon learning that ours was really a medicinal preparation I took it with happy effect. Its action, not only upon the sto mach, but upon the period system, was prompt and gratifying. I feel that I have derived great and permanent beneath from the use of a few bottles. Vary respectfully yours.
