Notice to the Public.

in the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus on-gaged, made several experiments in regard to the most desirable mode of preparing Pluji Extracts. My efforts being successful—the articles being approved and used by the Medical Faculty—I was desirous of placing them before the public, but besitated for some time before concluding to resort to newspaper advertising, knowing of the prejudices that existed in the minds of many against using advertised Medicines, or Nodrana, but through the advice of friends, and those who had used

The writer reluctantly inserts the above, and would not do so were he not a stranger to many; and concludes by stating the names of his articles, and the die eases for which they have been used by many thou ands with complete success.
