

Dates of Sacred Events.

Our Saviour was born on Wednesday, December 25, 4707, January 1st, 1878, October 25, 1878, sixth month, A. U. C. 747 (ninth month, fifth day); Julian year, 3618. He was baptized by St. John in the River Jordan, on Sabbath (Saturday), January 6th, 4708. His public entry into Jerusalem was on Palm Sunday, March 21, 4731, (April 1st); 20th Olympiad (sixty-fourth year, A. M. month); A. U. C. 698; Julian year, 73, A. M. nine month, first day; associate reign of the Emperor Tiberius, sixteenth year of his sole reign. He was betrayed by Judas Iscariot on the following Wednesday evening. He celebrated the Passover and instituted the Eucharist on Thursday evening, March 25th. On Friday morning, March 16, at the 3d hour, or nine o'clock, he was nailed to the cross in the hour when the lamb of the daily morning sacrifice was offered in the Temple. At the seventh hour, or three p. m., when the lamb of the daily evening sacrifice was offered in the Temple, he expired. At five p. m. his body was taken down and deposited in the tomb of Joseph Arimathea. On the first Easter Sunday, March 28, about the beginning of the morning watch, or three o'clock a. m., he rose from the dead. It was the morning after the Sabbath, and he rose when, according to the law, the first sheaf of the earliest ripe grain was to be offered in the Temple by which the "first fruits" was sacrificed, that Christ "who first harvest," rose from the dead, as a type and pledge of the future resurrection of his faithful followers. On Thursday, May 6, he ascended into Heaven. On Sunday May 16, the days of penitence and the only Ghost descended upon the apostles and disciples.

W. W. FIBRE & CO.

Notice to the Public.

In the year 1840, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged, made several experiments in regard to the most desirable mode of preparing the most valuable medicine being successful in the articles being approved and used by the Medical Faculty. I was desirous of placing them before the public, but hesitated for some time before commencing a report in regard to their merits, fearing the prejudices that existed in the minds of many against what is termed the 'Medicine of the North', but through the advice of friends, and those who had used them, this objection was removed.
