This being the icase, then, let us study the history of the Republic for the sixty long years above referred to. Can we find anywhere, in any age of the world, or in any nation, a perallel to the happiness and prosperity of the American people? Crime was almost unknown, and the taxes were so light as to be scarcely felt by the poople. And, by way of contrast, can we find such wretchedness anywhere as followed the overthrow of the Democratic party in 18607 It is literally true, and so impartial history will read, that the immense national debt und r which we are staggering, the whole cest of the gigantic war through which we have passed, its, vast slaughter of men and destruction of property, and the erormous taxation entailed unon us and our children for generations to come, are the returns the people have received for their misplaced confidence in the Abolition party.

If the Abolitionists had not obtained control of the Government, it is admitted that there would have been no war-no shughtering of tens of thousands of men. no destruction of thousands of millions of property, and n , weight of taxation that will for long, year cripple the industry of the Nation and reduce to serfdom the laboring classes. The Abolition party cannot shift the responsibility on the Democratic party. The representatives of the Democratic party in Congress voted for every proposition for a compromise-voted for the resolutions which the late Senators Douglas and Crittendeh declared would result in a 'just and honorable settlement of our national difficulties? "and the representatives of the Abolition party voted against and, defeated them, and loudly cried for the shedding of blood L

These are all facts which cannot be controverted, and the only hope for the zation, the only security for the future, is in the restoration of the Democratic party to power. The Government of this country never has been, and, what is more, never will be, successfully administered upon any other than the Democratio the ory. Other parties have tried a different theory and failed, and the Abolition party of the present day will be the nigst conspicuous failure of them all. Its leaders are fanatics not statesmen. Its policy is inconsistent, extravagant and mischievi ous, and so long as it holds the reins of power the prosperity of the country will be made to suffer, and decay and death to our political institutions will be the final and inevitable result .- Lancaster Intelli-

The Southern States claimed, and the North denied, the right to second from the Union. Both believed they were the Union. Both believed they were r ght, and appealed to the arbitrament o war. The North conquered. The South the result. Why, then, do w maintain that States which we said could not get out of the Union, are out of it?— New York Times, (Republican:) The above puts the whole thing in the

space of a nut-shell. All the inflammatory speeches which Disunion Congressmen can make, will fail to blind the eyes of the people to the true question. If the Southern States are not out of the Union, then they are in it; and if in it the nature of our government, as well as the plain letter of the Constitution, gives them a right to a proportionate share in its legislation. To deny them this right, would involve us in the same political crime of which Great Britain was guilty described by the same political control that the same political crime of which Great Britain was guilty described by the same political control that the same political control that the same political crime of which Great Britain was guilty described by the same political control that towards the Colonies, and which eventuated in American Independence.

THE ISSUES. From the Hornellsville Vidette.].
The issues of more vital important than any hitherte submitted to the American people, and to be passed upon in the approaching elections, are in substance about as follows:

1. Shall the Union be restored upon the basis recommended by Presidents Lincoln and Johnson? 2. Will the American people claim the barred representation in Congress ?.

3. Shall the Constitution of our Fathers be frittered away and rendered worthless n order to keep out the Southern States from any and all of the rights enjoyed by the other States of the Union, in order simply that the Republican party may be kent in power? kept in power?
4. Shall the Government be administer

ed upon the principles of the Constitu-tion, or upon the platform of whatever party may chance to be in power?

5. Shall universal suffrage be extended to the negroes!
6. Shall we adhere as a people to the

Government established by our Forefa-thers, or shall we exchange it for a central one, military and despotic, such as this Congress are laboring to establish?

ERIE RAILWAY.—The Day Express Traina on this Railway have been recently furnished with a new set of Conches, Smoking and Bag-gage Care, which are said to be far shead of gage Care, which are said to be far shead of anything heretof re in use. These coaches were built at the Company's shops, are 67 feet long, supported on six-wheeled trucks, and will seat comfortably 80 passengers. They have been fitted up without regard to expense, and the upholstering is ready luxurions. The improvement in the form tion of the back like an easy chair, is a very derirable one; while special pains has been taken to give ample room for the limbs and support for the feet. Miller's Platform, with his patent efficupler Buffer, has also been adopted, by which the platt rums are brought diese together, thereby and drug the jetking and invitables. which the platty rus are brought close together, thereby availing the jerking and twitching usually exterience d a stopping and a sating trains, and forming a perfectly smooth and safe passage way from one coach to another; leside these advantages, it is claimed that this kind of platform, being a continuation of, and on a direct line with the sills of the coach as prevents the househills. er, prevents the possibility of one coach tel-escoping, as it is termed, into another, in case

of collision or accident of any kind The Smoking Cars are furnished with caneseated revolving chairs, and at one and a news stand has been erected where all the current literature, as well as a good cigar, can be ob-tained. On such a train as this, stopping at proper hours for Breakfast, Dinner and Sup per, at eating houses equal, if not superior, to most of the first class hotels in the country, to most of the first class notes in the country, travelers cannot fail to properly app egiate all that is being done for their comfort by the managers of this great thoroughfare and at the same time enjoy the magnificent econery abounding everywhere on the Line. We commend the Brie to travers either on business order the same. iness orfor ple sure. Through tickets to New York and New England Cities via this line can be obtained at all the principal ticket.

LITABILIONS NOR 1968" J. W. BRADLEY'S CLLEBRATED DUPLEX ELIPTIC (OR DOUBLE) SPRING SKIRTS

shape where three or four ordinary skirts will have been thrown aside as useless.

They combine comfort, derability and economy, with that eleganos of shape which has made the Duplex Eliptic the standard skirt of the fashinable world.

The invention consists of Duplex (or two) Eliptic steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible elastic and durable spring ever used. The wonderful fasibility and great comfort and pleasure to any lady wearing the Duplex Eliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, thurch pewa, arm chairs, &z., and for promeased and house drest, as a skirt can be folded when in use to recupy a small space as easily es a silk or muslic dress. They are undoubtedly the hightest, most desirable, comfortable, and economical skirt ever make. The "Empress Trait," the "Paris Trail," and the "Pride of the World," the latest styles introduced, is made of the new Duplez steet, which is rolled thick, girring a great resistance, and producing the most perfect and beautiful trail suggested by the present fashion, losing ucue of the flexible qualities for which the Duplex skirts are so pre ominent.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self-abuse may be realisably cured without the dangerous use of internal medicine or the application of the knile—pointing out a mode of cure at once simple, certain and effectual, by mens of which every sufferer, no matter what his condition may be, can cure himself cheaply, privately and sedically.

For this Lecture should be in the hands of serry youth and every man in the land.
