their gracein and perfect shape where three or four ordinary shirts will have been thrown aside as useless.

They combine comfort, durability and economy, with that elegance of shape which has made the Duplez Riptie the standard shirt of the fashinnshie world.

The invention consists of Duplez (or two) Elliptic steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible elastic and durable spring ever used. The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplez Elliptic Shirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad care, therefore pews, sur chairs, &c., and for promeande and house dreas, as a skirt, can be folded when in use to occupy a small spece assemily as a cilk or mails dreas. They are undoubtedly the lightest, most desirable, comfortable, and economical skirt ever made. The "Empresa Trait" the "Paris Trait," and the "Pride of the World" the latest styles introduced, is made of the new Duplez steel, which is rolled thick, giving a great resistance, and producing the most perfect and beautiful trail suggested by the present is him, losing none of the flaxible qualities for which the Duplez skirts are so pre eminent.
