Enie RAILWAY .- The Day Express Trains on this Railway have been recently furnished with a new set of Coaches, Smoking and Bagwith a kew set of Coaches, Smoking and Baggage Cars, which are said to be far ahead of
anything heretofore in use. These coaches
were built at the Company's shops, are 67
feet long, isupported on six-wheeled trucks,
and will seat comfortably 80 passengers. They
have been fitted up witho at regard to expense, and the upholsteringis really luxurious.
The improvement in the formation of the back
like an easy chair, is a very desirable one. like an easy chair, is a very desirable one; while special pains has been taken to give ample room for the limbs and support for the feet. Millor's Platform, with his patent celf-Coupler Buffer, has elso been adopted, by which the platforms are brought close togeth-er, thereby avoiding the jerking and twitching usually experienced in stopping and starting trains, and forming a perfectly smooth and safe passage way from one coach to another. Beside these advantages, it is claimed that this kind of platform, being a continuation of, and on a direct line with the sills of the coaches, prevents the possibility of one coach telescoping, as it is termed, into another, in case of collision or accident of any kind.

The Smoking Cars are furnished with cane-

seated revolving chairs, and at one end a news stand has been erected where all the current literature, as well as a good cigar, can be obtained. On such a train as this, stopping at proper hours for Breakfast, Dinner and Supper, at cating houses equal, if not superior, to most of the first-class hotels in the country, travelers cannot fail to properly appreciate all that is being done for their comfort by the managers of this great thoroughfare and at the same time enjoy the magnificent seemery abounding everywhereon the Line. We com mend the Eric to travlers either on bus-iness orfor pleasure. Through tickets to New York and New England Cities via this line can be obtained at all the principal ticket

A HIRT TO RAILBOAD LOVERS.—We were, says the Dubuque Times of Thursday week, eye-witness to an effectionate scene yesterday. one of the indispensables for a good railroad trip is good company, and that we had. Even time drags, unless the company, has some sub-ject for amusement; and that we had. Ahead of our crowd was a loving couple, taking evidently their first trip after marriage, or their last before; there was no visible means of dethem ining which. They clong to each other as if determined that only death should part them, and were evidently inclined to depart as for from the perpendicular as the back of the seat and the side of the car would allow. While going slowly over Manchester bridge, a little boy was induced by the offer of an apple, to convey to the lap of the amorous swain a note written by some scamp, "Hadn't you better take a sieoping car!" An exploding shell could not have separated them quiexer, the convert the car contained no more perpendicular countries the care countries of the care countries and the care countries and the care countries and the care countries are careful to the careful than the care iar couple than they.

A HAPPY NIGGER .- A negro sat on the curbatione bare, the light of his grinders showed freedom from care; his hat was brimless and full of air-holes, his shoes nearly minus vamps, quarters and soles, while his cost, sents and vest into fragments were blown, and, excepting the collar, his shirt was all gone. To any one passing, 'twee easy to see, this darkey was happy, as happy could be; although wanting food, he seemed not to feel it, but patiently waited a good chance to ateal it. No muster to hector him now, like a work; no handling of plow, hoe, shovel or spade, and nothing to do but sit back in the shade—and starve to death.

A CLINCHER .- An old lady once triumphantly pointed to the Epistle to the Romans. and asked where one could be found address ed to the Protestants ? This was equalled by an old negro Baptist at the South, who said to his master (a Methodist): 'You've read the Bible, I s'pose?' 'Yos.' 'Well, you never saw nothing about no John de Methodist, did you ?' 'No.' 'Well, den, you see dere's Baptists in de Bible, but dere sin't no Metho. dists, and de Bible's on my side."

The Chicago Tribune has just discovered that it is unconstitutional for the President to remove a Federal office holder. It is singular how feeble the Executive power has alliat once become. A little while ago it was something more than imperial, but just now it has faded from the Radical mind " like the baseless fabric of printing." bascless fabric of a vision."

The Louisville Jo rnal says that no doubt the Radical members of Congress would like to remain at Washington to anney and embarraes and obstruct the President, but they

We shall probably, says the Memphis Ledger, soon have an attempt made to change the flag of the United States, that it may correspond with the legislation of Congress and the radical doctrines. Why has not Thad Stevens already introduced a proposition to add a black star and a dusky stripe?

CAMPAIGNN OF THE

ABMY OF THE POTOMAC By William Swinton. The standard history of the grand army. The greatest work on the war; universally amorsed by army officers and the press. The au thor says:
"I design in this volume to record what that army did

self imposed.

"I shall have to follow it through a checkared experience in a tale commingled of great minfortunes, great follies and great glories; but from first to last, it will appear that smild many buffels of fortune, through "sinter and rough weather; the Army of the Potomae never gave up, but made a good fight and finally reached the

gave up, but made a good fight and flustly reached the goal.

"Of, this drams there will be no other here than the Army of the Potome itself; for it would seem that in this war of the people it was decreed there should arise no imperial presence to become the central figure and cynomic of man's eyes. Napoleon is an outbornt of haughty eloquence, sandains that in the great armies of history the Commander was existing the first presence of history the Commander was explained. The proud apothests has no application to the army of the Petomac. And one must the here energy it never had a great, and generally had medicare commanders: it was that it right be said that whe ever it won it owed not to gening but tought with its blood."

This is the oil flustery of the Grand Army, and no one who has borne a part in its condicts, or is interested its its grand achievements, should be without it.

This work presents a rare chance to make mokey.
