

The Observer as an Advertising Medium.

Forney to Rice.

Local Paragraphs.

Another important tributary to the interests of our city is soon to be added to the list.

Dr. KATZ, Federal Hill, will describe his disease correctly.

Whitely & Salsman offer great inducements to parties wishing to lay in a supply of coal.

John G. Saxe says it is not necessary to be a profligate, a mendicant, or to be predisposed to pulmonary consumption to be a poet.

Builders are referred to the advertisement of the Erie Lime and Cement Co., who offer to furnish a superior article at low prices.

Messrs. Weigel & Ziegler, music dealers, 820 State street, are agents for the renowned Grover & Baker reorganizing machines.

Josh Billings remarks with as much feeling as truth, that in the good old days there was more fun in 50 cents than there is now in 10 dollars and a half.

The Board of Directors of the Philadelphia & Erie Railroad will arrive here this Thursday evening, on a tour of inspection of the road and return to Philadelphia on Friday or Saturday.

The Democrats of Crawford county have resolved to hold their nominating convention on Tuesday, the 17th inst. We are glad to learn that the party there is thoroughly organized, and confident of making a heavy gain in its vote.

The Williamsport Base Ball Club, on their return home, gave a highly complimentary report of their visit to Erie. They seem to have been much pleased with their treatment while here. The Excelsior Club is talking of paying them a visit soon.

The Warren Ledger announces the discovery of a hidden ledger account near Sheffield Station, in that county, of "almost unprecedented" richness, as regards quantity and quality.

There are three distinct legends, the combined truth of which is nice fact.

John W. Forney, in his Philadelphia Press, has come out in advocacy of Scofield's re-election.

At Forney's office, he is heard to say, "We should like to know what Scofield has promised to do for him that he now believes with his disingenuous praise."

A new candidate for District Attorney has appeared in the person of Mr. J. Campbell, of Corry. Of course it was found necessary that the people should appear to him to see how much he would consent to take the field.

To persons who need the services of a Surveyor, we heartily recommend Captain John H. Miller, whose card appears in our business column. He has had long experience, and has the reputation of being one of the most skillful Surveyors in the State.

Give us a call if you wish handsome cards, bill heads or fine commercial printing. We have laid in an entirely new stock of job type, and our pleasant and accommodating foreman, Mr. Foulke, is turning out some of the prettiest samples of work we have seen anywhere.

The Corry Telegraph accuses the Dispatch with being owned by Copperheads. We have only to say that if it is—which we don't believe—its proprietors lack a stonewall of displaying their party prejudices. If there is a paper printed anywhere that is more Republican than the Dispatch, we have not yet met with it.

The Crawford Journal occupies a paragraph from the Gazette, and accompanies it with the remark that "there is not a single line of truth in the whole extract." Rather sharp language that we should think, for one Republican paper to apply to another of the same politics.

The Corry Telegraph charges that Mr. Salsman, of Erie, proposed to Scofield that he should be a candidate for Congress this fall, and that he should give him a large sum of money to help him in his campaign.

A gentleman authorizes us to offer a liberal reward in his name for some one who will furnish information as to the whereabouts of the late Congressman, Mr. DeCamp, for Congress. The article is such a novelty that we think a large fortune could be realized by catching such an individual and putting him on exhibition throughout the country.

The duty condition of Peach street must be a source of very great annoyance to people who are obliged to travel upon it, as it certainly is to the citizens residing on that thoroughfare. We are surprised that no measures are adopted to put the street in a more satisfactory condition.

Messrs. Dwyer & Humphrey have an exhibition in the West Park a new water draw, which looks to us to be worth a visit to see the ordinary situation. It is at once simple, exact and accurate in operation, and comes nearer anything of a perfect water draw than any other we have ever seen. We would advise those having an interest in such improvements to call and see it in operation.

We should be more than human if we were not susceptible to the many kind expressions of our contemporaries on the occasion of the recent obituary of the Observer. Most of our neighboring exchanges, without distinction of party, have noticed the improvement of the paper in a tone of compliment and encouragement which is as gratifying as it was unexpected. We are pleased to know that our course has been such as to recommend us to the favorable attention of the "brotherhood," and trust that our future career will prove no less deserving of their friendship than the past.

The Crawford County Republican papers are engaged in the pleasant amusement of "throwing dirt" at one another in a most lively style. If we are to judge by their columns, such a state of affairs, recalls and defers to the fact that the party are not in a very friendly mood towards each other.

George H. Cutler, Esq., of Girard, has been presented as a candidate for Congress, subject to the decision of the opposition convention, making the third candidate now in the field on that side from this county. Personally, Mr. Cutler is the best man the Republicans have yet named for the position, but politically he is no wonder that the Democrats of this county are so anxious to see him elected.

If he had retained his "first love," we should have been gratified to give him any help within our power, but the company has kept of late years is such as to cut him off entirely from the sympathy of Democrats. We hope he will some day see the error of his ways, and return to the fold a happier and a wiser man.

A communication which appeared in one of our city contemporaries last week, concerning the prices of dry goods in Erie, has been eagerly seized upon by one or two of our neighboring exchanges, with the object of using it to the prejudice against this city which exists in their respective localities. We are desired by several of our dry goods dealers to say that the statements contained in that article are not true, and to add that they are ready to prove that goods of all kinds are sold here at as low figures as in any city within a hundred miles. Our own experience, and the information we have obtained from others, leads us to believe that their assertions in this respect are thoroughly reliable.

The dry goods stores of Erie are as well stocked and sell at as reasonable prices as those of either Buffalo or Cleveland, and persons from the country or adjoining towns will find it to their advantage to do in Erie, in preference to either of those cities.

Dr. KATZ, Federal Hill, will describe his disease correctly.

Whitely & Salsman offer great inducements to parties wishing to lay in a supply of coal.

John G. Saxe says it is not necessary to be a profligate, a mendicant, or to be predisposed to pulmonary consumption to be a poet.

Builders are referred to the advertisement of the Erie Lime and Cement Co., who offer to furnish a superior article at low prices.
