

HON. NIELER CLYMER, OF BERKS COUNTY.

The great Democratic mass meeting at Reading is acknowledged by all parties to have been the largest ever held in the State. Thirty thousand people are estimated to have been in attendance.

The Radical legislature of Tennessee having adopted the proposed Constitutional amendments, Congress, by a vote of both Houses, has admitted (we use the Radical term) that State into the Union, and a portion of her members have taken their seats in that body.

THE EUROPEAN WAR.

The sensational reports about an armed intervention on the part of France are officially contradicted by the Ministry, the French Government organ, which declares that the best of feeling continues to prevail between France and Prussia.

A short time ago we copied from the Springfield Republican a complaint that, although the government is in danger of losing a thousand millions of dollars through the frauds of its cotton agents at the South, no effective step is taken by Congress to prevent it.

The sentiment of a considerable portion of the Southern people was beautifully expressed lately by the President of the Convention of North Carolina, when he said that "they were going home again," in returning to the Union; and it is this of the last few years.

GEN. SHERMAN in a recent speech at New Haven talked very plainly. He told the crowd gathered to receive him that the people of New England had been too hard on the South and were too stringent in their prejudices, but perhaps they were not responsible for it, as they have been so educated.

THE POLICY of the Radical party, as displayed in the action of its officials, is a complete contradiction of its platforms and pledges. Started as a Union party, it has now become the party of division.

HON. NIELER CLYMER, of Berks, the Democratic candidate for Governor, then addressed the assembly. He said that the Union, for which we have paid so dearly in blood and treasure, is not restored.

PROFLIGACY AND WASTE. If there ever was a time when wisdom, patriotism and self interest united in demanding at the hands of a tax-burdened people a change of their law-makers, that time is now.

"Representative Hall is not a day nor an hour too early with his resolutions in favor of retrenchment, for in all our nation's history there is no parallel for the profligacy with which the present Congress has spent the money of the people."

COMPLIMENT TO MR. CLYMER.—At a recent session of the Supreme Court at Wilkesbarre, a banquet was given by the members of the bar to the Judges and others of the legal fraternity present.

THE UNION AND THE DEMOCRACY.—The New York Times, which has been extremely conservative for several weeks past, concludes an article on the Philadelphia movement as follows:—"The Union (Republican) party was proud, in the presence of rebellion, to rely upon the assistance of Democrats like Gen. Dix, Judge Daly, Mr. Brady and Mr. Winthrop, and in the closing days of the session, introduced resolutions declaring it to be the duty of Congress to devise some plan for reducing the public expenditures.

"Representative Hall is not a day nor an hour too early with his resolutions in favor of retrenchment, for in all our nation's history there is no parallel for the profligacy with which the present Congress has spent the money of the people."

breadth of this Commonwealth there was not the heart of a single Democrat which did not beat in unison with his own, and who would not, in the hour of trial and of danger, stand by him as he stood by them.

The Democrats of Gorry, as usual, are wide awake to their duty. They have organized two clubs for each ward in the city, of which the officers are as follows:

"Representative Hall is not a day nor an hour too early with his resolutions in favor of retrenchment, for in all our nation's history there is no parallel for the profligacy with which the present Congress has spent the money of the people."
