The above invaluable implement has always received the first premium whenever exhibited, and all who have used it pronuces it far suprior? to anething else of the hind. The following are some of the advantages this Cultivator has over every other hind now in use:

Int. Lightness and durability; being me 'e of the best quality of steel, highly pollahed, and the whole implement weighing from fifty to virity coun a.

21. Adaptation to more hinds of work than any other unitivator known; being a perfect and thorough Cultivator when used with all the test on, leaving the ground even and level, and working nearer the rows than any other Cultivator.

31 By removing the small testh, and attaching the wings to the shovel, it is the most perfect instrument for filling that can be found.

4th. It is the best instrument for covering and digging point as ever invested. A man and horse can cover potatoes as fast as a horse can walk, and as me and team can dig from 500 to 500 bushels of potatives in a day, when the crop is a fair one.

5th. It works equalty well in corn or any kind of wrop requiring cultivating, and in most cases hand healing can be dispensed with.

6th. It a changeau, cornidering the may kinds of work to which it can be applied—the farmer having in one implement all that is necessary for cultivating and hilling any kind of crop, or covering and digging potators. The above invaluable implement has always

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Allerative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still so combined with other substances of still greater alterative power is to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense to this largeless of our afflicted fellowaccomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Schopula and Schopulous Complaints.

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUNOUS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AP-PECTIONS, MERCURIAL DISEASE, DROPST, NEU-RALGIA OR TIC DOULQUEUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, EUYSIPELAS, ROSE on St. Anthony's Fine, and indeed the whole class of complaints arising from Involvery of

THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the side this reacher size themselves from are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities have incorrectly the skir in pinnels, exputions. bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell whenever it is toul, and your itemis with two you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no

lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. life is disordered or overthrown.

Barsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing clear.

contain out ittle of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a reniedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the disease it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on or any thing else. be judiciously taken according to directions on

THE KIDNEYS.

The kidneys are two in number, situated at the upper part of the loin, surrounded by fat and consisting

of three parts, viz.: The Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube and called the Ureter. The ureters are connected with the bladder. The bladder is composed of various coverings or tissues, divided into parts, viz.: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the mer rutains. Many have a desire to uri the ability, others urinate without the ability to re-tain. This frequently occurs to children.

GOUT, OR RHEUMATISM. Psinoccurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

THE GRAVEL. The grayel ensues from neglect or improper treat ment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish and sediment forms. It is from this deposit that the stone is formed and DROPSY

TREATMENT.

Helmbold's highly concentrated compound Extrac Buchu is, decidedly one of the best remedies for di-seases of the bladder, kidners, gravel, dropsical swel-lings, rheumatism, and gouty affections. Under this head we have arranged Dysuria or difficulty and pain in possing water, Scanty scoretions, or small and frequent discharges of water; Strangury or stopping of water, Hematuris or bloody trune, Gout and Bhoumatism of the kidneys, without any change in quantum tity, but increase of color or dark water. It was always highly recommended, by the late Dr. Physick, in these affections.

This medicine increases the power of digestion and excites the absorbents into healthy exercise, by which the watery or calcareous depositions and all unnatural ents, as well as pain and inflammation, are niargements, as well as educed, and is taken by

PHILADELPHIA, PA., February 25, 1857. H. T. HELMSDLD, Druggist.

Deter Sie: I have been a sufferer, for upwards of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little salief. than preparations, and over a more the treatment of the most cannent physicians, experiencing but lattic relief.

Having seen your preparations extensively advertised. I consulted with my family physician in regard to using your hitract Buchu.

I did this because I had used all kinds of advertised remodes and had found them worthless, and some quite injurious; in fact, I despaired of ever getting with and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubch, and judiper levels, if occurred to me and my physician as an excellant ombination and, with his a livice, after an examination of the article, and consulting sgain with the druggist, I concluded to try it. I commenced it use about eight months ago, at which time I was astomated and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect for perfort cure, knowing the nit would be digreater value to you and more satisfactory to me. I am your and the perfort of the knowing in it would be further than the memory of any unpleasant taste and odor, a nice tome and invigorator of the system. I do not mean to be without it whenever occasion may require its use in such affections.
