Referring to a clause in the proposed Constitutional amendment, Scoffeld remarked, that did the Republicans of both Houses carry their schemes through, supporters of President Johnson were heard to say in threatening tones, that a civil war was imminent at the North That newspapers that were imprudent heralded these proceeding, and he (Scofield) had heard threatenings of this character, fall from the President's own lies. Whoever heard of such treasonable sentiments? Are they to be allowed to be sown broadcast through our land? He denounced in every conceivable manner the President's movements, in whatever direction. He said that every veto that was issued by the President came to the Senate and House with the fings rints and blood stains of rebel criticism; or n other words, the audience chamber of the White tieuse, was daily thronged with Johnson's friends (robeis); whose deliberations, were of great weight in the President's opinions concerning vetoes, &c. We recommend Lawson's Furnace as being altogethe superior to any other article of the kind. It is easier managed, more pawerful and less liable to the tout of order then any other hot air furnace made. And as it will produce more heat with the same amount of fuel, it is also the most economical. All of these points we are ready to establish by satisfactory proof. HOME TESTIMONY.

HOME TESTIMONY.

Ents. Pa., June 25th, 1868.

Messrs. W. W. Pierce & Co.

Strs.—Having used cuing last winter, the 16 J. A.

Lawno Fronces which you put into my house last untumn, I am fally prepared to offer my testimony respecting its efficiency, and will add that I take pleasure in recommendig the same to any one desiring a good heating apparatus. The air that we receive from it is pure and not over brated, but coming into the rooms as it does in large quantities, supplies the required amount of heat, thus obvisting that dryness which is usually experienced from furnace heat. The simplicity of its coastruction and the easy mode of governing the coastruction and the easy mode of governing th

Rais, Pa., February 12, 1865.

Mesurs. W. W. Pierce & Co.:

The J. A. La son Improved Hot Air Furnace, which you put in my house in Erie last fall, has been in use now nearly four months and gives entire satisfation. By a proper adjustment of the draft damper, and occasionally cleaning the fire pot from also and cinders, we can have a greater or less degree of heat and a greater or less consumption of coal, exactly, suited to the changes of the wasther. The air warmed by this Furnace is all that I can device, being free from all noxious cases or swoke. I shall take presented in recommending it to my friends.

Respectfully yours,

WILSON KING.

ERIR, Pa., March 20, 1866.
Gentlemen—The Lawson Furnace that you put in the basement of the First Bapti-t Church in this city, has been in use almost every day and evening during the protracted meeting of fourteen weeks, and has given entire satisfaction and we would cheerfully recommend it to any one desiring a good heating Furnace.
W. J. F. LIDDELL, for Board of Trustees

Also, of a long list of well known citizens who are dag Lawson's Furnace, we refer to the following gen-menn: Mesra. Childs, Boyd and Chaple, Commis-oners of Eric county: Robert Gray, Esq., Ninth Rt, pptair J S. Richards: Trustees of 1st Bantist Church, dan Commissioners of Rouse Estate, Warren coun-

and the Commissioners of Rouse Estate, Warren county Pa.

We regard the Lewson Furnace as not only the best in use but approaching very nearly to perfection as a heating approach, None need delay securing a hot air Furnace in the expectation that any decided improvements are yet to be made in this line of article. As examination of the Lawson Furnace is all we sak to decide this question.

It is designed to heat every kind of building and is made of different sizes, of capacity for a medium sized dwelling or the largest church or other public building. Seven different sizes are now made.

The Lawson Furnace gives universal estimaction and its rapidly superceding all other varieties. Besides the remarkable case with which it can be managed one of its chief boints of superceity is in the purity of the air proceeding from the Furnace. It is seconstructed that o soot, salve or cindare can possibly escape into the ir passence, and all implement odors are also preserted. It can be used equally well with hard or soft oat, and maniged as eatily as any ordinary store.

We invite comparison with all other Furnaces.

HOISERY,

we invise comparison with all other attractes. We have the sole agency for this settion of the country. All longities and orders addressed to us will receive prompt trailios. One of the Farraces is in operation at our establishment, corner of State and Ninth streets, to which we favite attention. We guarantee the Lawson Hot Air Furnace all that it is claimed to be. & W. German Bitters, and I feel it my privilege to recommend
them as a most valuable tonle to all who are suffering
from general debility or from diseases arising from the
derangement of the liver.

E. D. PENDALL. Yours truly,

From Rev. D. Merrige, Pastor of the Passayunk Taplist Church, Philada.
From the many respectable recommendations given to Dr. Roodand's German Bitters, I was induced to give them a trial. 'After using several bottles, I found them to be a good remody for decility, 'and a most excellent tonic for the stomach.'

D. MERRIGE. From Rev. Wm. Smith, formerly Pastor of the Vincentown and Miliville (N. J.) Espirit Churches.
Having used in my 'amily a number of bottles of you.
Hoofland's German Bitters, I have to say I regard there as an excellent medicine, specially adapted to remove the diseases they are recommended or. They attengthen and invigorate the system when debilitated, and are use ful in disorders of the liver, loss of appetite, &c. I are also recommended them to several of my friends whe have tried them, and formit them great's beneficial in the restoration of health. Yours truly,
