LETTER FROM SECRETARY SEWARD.-The recent affliction of Secretary Seward prevented him from addressing his fellow

AUBURN, 'Nov. 5, 1865. My Dear General: You know how enmy Dear deneral: 100 know now entirely unfitted I am at this moment for the exciting scenes of a political canvass. I was hurried to this place, and I must hasten away from it. Nothing has been left usual by me heretofore nothing need now be said by me to make known my opinion that the delay make known my opinion that the delay of the restoration of the organism of the nation is a great error, fruitful only of danger, and that continually. Persevere in the correction of that error. Faithfully your friend,

WILLIAM H. SEWARD. General Jessie Segoine.

DECAY OF THE NEGRO RACE. The decay of the negro population of the Southern States during and since the war is beginning to attract the attention of observant men. The Alexandria Gazette, in noticing this matter, says "of the large number of negroes who came to this city during and since the war, allured from good and comfortable homes, where they had been raised and where they were well cared for, by the syren voice of the Freedmen's Bureau, many have, after suffering more during their short residence here than in all their lives before, died in misery and distress; and the census now being taken shows that of those who remain alive, many, disgusted with city life and the heartlessness of the prevalent philanthropy, have returned to their former masters." .The census for 1866, now being taken in Alabama, shows the following result. with the change since 1860, in the counties of Lauderdale, Lownder, Madison, Mobile and Pickens: Whites, 75.613; Negroes, 62,362; White increase since 1860, 6,251; Negro decrease since

1860. 3.116. The increase of negroes in Mobile has been 4,093. Their decrease in the county has been 7 209; showing that they are In Hinds county, of the same State, there being upwards of 24 per cent, upon the the political or industrial scale.

WHAT WAS DECIDED .- The Harrisburg thorized organs of the newly elected memoers to maintain private establish worth of nigger in each pound of coffee Governor of Pennsylvania. What they ments commensurating in sumptuousness you purchase; from eight to twelve cents say of the result of the recent election may be taken as law and gospel. The Telegraph declares editorially:

"The 'nigger' will be no longer the issue between parties. The adoption of the Constitutional amendment by three Rad. Maj. fourths of the States, and the admission of Southern Representatives to the 40th Massachusetts 60 000 Wisconsin Congress, has been insured by the late Illinois 55.000 Minnesots election. The extension of the right of lows 40,000 Kansas suffrage to the blacks will quietly follow, New Jersey 3,000 Missouri suffrage to the blacks will quietly follow, and the next question will be: Shall the

frage would follow in the footsteps of a Radical victory at the polls. During the canvass it was denied by them—they said no such issue was before the people. But as soon as the election is over, they come out boldly and avow it. If ever the constitutional amendment is calculated. stitutional amendment is adopted, "the right of franchise to the blacks will follow." Whether it is adopted or not, it will be sought to be forced upon the peo ple. The Press already claims that when twenty-one Assemblymen, their entire Congress meets, suffrage will be conferred county ticket, with one exception, and upon the District of Columbia. The gave their candidate for Governor the proof becomes every day more abundant | magnificent majority of nearly forty. that the Radicals fought the late cam. seven thousand. All honor to them! paign on a stupendous lie.

SUDDEN GLORY.

The Harrisburg Patriot save of the two negroes chosen to the Massachusetts Legislature that since their election they receive on un average a bushel letters each daily. Many of the letters are congratulatory, and come from the prominent Radical leaders of all the Northern States. Many others are of the begging sort-soliciting their votes and influence in every sort of project of legislation, private and public. Besides this, their houses are besleged continually by Radicals awaiting audience, and they have been compelled to employ ushers, who admit the applicants by turns. In many instances money has audience seekers. Advantage has been taken of this fact by professional loafers at the "hub," who go early and stay late; never getting an audience, but always selling out their places in the line of the both decreasing and crowding the cities. at the "hub," who go early and stay late; were in 1860, by the census, 22 363 ne- selling out their places in the line of the groes, and by a census taken this year, highest bidders. Dispatch savs : "It must be evident to every one that sional Districts, is entirely untair and imvenience of a mejority of the members may seem to dictate, without any rule or restriction in regard to the proportion of wealth and population which one county bears to another, or the local character of quence is, that, when a district is formed is thrown together generally with a view vania for an example it will be seen that its Radical Congressional atrength is not owing so much to the number of votes cast s to this peculiar apportionment of the

votes as are cast in any of the Congressional districts. It would follow then that the members of Congress ought to be about equally divided between the two parties. But instead of this, the Radicals have eighteen Congressmen and the Con-servatives but six of the twenty four, while the former had but few votes in excess of the total vote nolled. The system f apportionment, therefore, is unjust and should be changed, not only in the Congressional but also the Assembly Districts vhere the same evil prevails. An arrangement should be made to take these apportionments entirely out of the hands of oliticians, and they should be so made that equality, and the local character of one county as related to another, should be considered."

STAND BY PRINCIPLES.—The devotion of the Democratic party to great cardinal ty of the peace. Surety forfeited.
principles, truthfully remarks one of our Alex, Long, surety of the peace. Recog principles, truthfully remarks one of our selfish calculation. It is born of a clear conviction that by and through a triumph of the doctrines which this grand old party advocates the best interests of the masqes will be subserved, and the glory and greatness of the Republic enhanced Believing that firmly, the Democracy of the North made a most gallant fight in the recent election. They are defeated, but they are not disheartened. They expect their principles to triumph, and to triumph with them.

In all such contests as those in which we have been engaged, the party that stands most firmly on principles has the surest guarantee of success, while the party that is thoroughly and exclusively dentified with a principle vital to the government has a guarantee as absolute as the existence of the government itself. The conservatives of this country stand on such a principle. Let them become identified with it as thoroughly Congress is 44. Estimating from the as they are exclusively, and they must Continued on application of def't until Noprevail, if the government endures it. vember 30th. If the government does not perish, the principle must triumph; and, if they but gallantly lash themselves to the principle, they will triumph with it.

The New York World has come across the following dispatch from New Orleans in one of its cotemporaries. It has forgotten which one, but thinks it must be the N. Y. Iribune. There may be a mistake, but if so, the dispatch bears a very strong resemblance to those which daily

appear in the leading Radical organ : . "Armed organizations, of ex-rebel solliers are drilling nightly upon Canal street. t is reported that Jeff. Davis has escaped rom prison and is in command. No Union oan dare show himself on the street after sunset. A violent rebel threatened to pull down the Custom-House, and but for the timely arrival of the Eighteenth corps, would have executed his threat. Mayor Monroe hung himself and then been paid for first places in the line of killed his family, in order, as he afterwards audience seekers. Advantage has been stated, to avoid the just indignation of river yesterday to see whether the reported surrender of the confederate authorities was correct. Being told that it was, they cursed the United States government, and taking coal and provisions, went down

to Barataria.
"Unfortunately the war vessels in port were unable to get up steam in time to overhaul them. People here do not hesiate to speak openly in favor of President Johnson and the constitution. One man vent so far as to say "D-n the Radicals." The ex-rebels are in a destitute condition and in some portions of the city are eating their children."

A QUESTION ANSWERED .- A Radical sheet, the Tamaqua Journat, says:""We have had the Republican victory-now where's the 'Nigger?"" The response is given by the Belletonte Watchman, as fol-

lows: "Go to your store, and you get from eighteen to twenty-five cents worth of nig-ger in every yard of muslin you buy; from ten to fifteen cents worth of nigger in every yard of calico your wife and children wear; from six to eight dollars wo.th of nigger in each barrel of flour your family consumes; twenty-five cents worth of nigger in every pound of sugar you buy to sweeten it with; you'll find a small bit of nigger in your box of matches, and considerable nigger in your plug of tobacco. You can eat nothing, or have nothing, that is not more or less affected by the miserable niggerism that has con-trolled the country since 'Old Abe' left

Springfield for Washington."

A NOVELTY IN POLITICS.—The election of two colored men last week- to seats in the Legislature of Massachusetta is certainly a novelty in American politics. The event, however, is one that will undoubtedly soon be followed by others of like character in other States, and there will be a logical advance in the struggle on the negro question. The matter is a simple fendant. enough one in the New England States, but when the principle comes to be are the classification. Recognizance remitted of the zenith. Following the arch of the sky, they ran along with immense velocity, des-

cribing in some instances an arch of 20° or 40° in a few seconds. On more attentive inspection it was seen that the meteors exhibited three distinct varieties; the first, consisting of phosphoric lines, apparently described by a point; the second of large fire-balls, that at intervals darted along the sky leaving luminous trains which they left were tinged with various prismatic of the 13th of November, 1888. The display was seen all over North America. A similar display was seen by Humbolt, at Cumana

South America, in 1799. metronic showers observers,

Nickel 25.82 The earliest records of a historic account of the occurrence of grand meteoric showers extend as far back as the Chinese annals of 644 B. C., which nation preserved the only authentic notings on the subject from that date till 333 A. D. In all, during this period, 977 years, sixteen special grand descents of falling stars are recorded by the Chinese. The Greeks, quite strangely, preserved but meagre records of the phenomenon. Their theory was to the effect that the prolites were masses of earthstone forced, off the general surface by the rapidity of rotation.

METEORIC SHOWERS WITHOUT EROLITES. Some of the most remarkable displays of meteorio phenomena have been accompanied term of court, and defendant ordered to renew without the passage of mrolite stones. The body of the meteor, called the halis is a flery body precipitated across the between, and often explodes with a loud noise, leaving no trace of solid materials in their van or wake Aluminous train follows them, and frequentw leaves a brilliancy in the rear that lasts several minutes. They send forth vivid scintillations, and present various bright colors that the same meteoric shower is often differently described from different places. Their average height above the earth has been ascertained to be 20-23 of a degree, or about sixty miles. The now accepted theory of s meteor is that they emanate frem a nebulous bedy that revolves around the sun, in an el liptical orbit, the aphelion of which meets the orbit of the earth at the stated period of their regular occurrence. Their nebulosity is inferred from the fact that none of the meteors. coming though they do, with the prodigious velocity of 350 miles in a minute, ever reach our planet in a solid state, but are dissipated in the atmosphere.

This nabular theory is that of Professor Olmstead, of Yele, and of Arago. The latter suggests that the meteoric bodies constitute a stream in the form of an annular zone, within which they pursue a common orbit; and that through each the myriad of small cosmical bodies are irregularly distributed, and east of these groups the most brilliant displays DRY GOODS
