CHANCE FOR A BARGAIN.-We offer for sale a Lawyer quarter sheet press, at a great bargain. To a country printer, wanting a press that will do all kinds of work, this is an op-portunity seldom offered.

Last Notice. During the last month we have sent out bills amounting in the aggregate to \$2,500 against persons in arrears upon subscription. The response well be best appreciated when we say that of this large sum we have received to date not more than a hundred dollars. The parties, we know to be mostly good, and their remissuess is therefore the more indefensible. Now, we have only this to say, that we have grown tired of this way of doing business. It is unprofitable to us, and, what चिं। जिल्ला it gives us much embarrassment.

With the money we have scattered shoul in the pockets of delinquents, we could make what improvements we want in our office, get out of debt, and have clear sailing for the future. We now give plain notice that we must sue. These to whom we have sent bills, who neglect to cettle by the first of January next. will have their names stricken from our books, and their accounts placed in legal hands for collection . If they will not pay then, their names will be inserted in the BLACK LIST which we are prevaring for the benefit of the public. It is needless to add that this notice does not apply to the many primpt paying subscribers on our books. To all such we return our thanks, and hope they may continue with us for many years. CIRCULATING PAPERS .- The New York . Tri bure, is commenting on the result of the elec-tion in New Kork, and the steady gain in cortain parts of the State, attributes the triumph of the opposition to the liberal circulation of Radical newspapers. It says:

"The result shown in Troy can be experiobliged to collect and spend larve sums of money just previous to each important election. This is all well, but one-half the amount spent a year in advance to disseminate good new papers would produce a better and more permanent effect. Every earnest Republican knows one or more moderate Democrats or doubtful voters who would be glad to learn the truth through a weekly newspaper, and who would not only vote right, but would enlighten other men of his class. As the Winter is the workingman's reading season, this is the time to commence the canvass for the next election. Let each Union man see that at least one honest. We agree with the Tribune as to the importto those unable to subscribe, they would not is worth listening to, for all that. fail to see when the votes come to be counted the benefits certain to result from the course we have indicated. Let Democrats take a hint from their foes. It is their policy to send a Redical paper into the hands of every family that will receive it. Will not Democrats be them a wide distribution help to build up a better state of political feeling ?
