The most Largely circulated newspaper in N. W. Pennsylvania, and the best Advertising medium.

To the State Press.

The undersigned, Committee of the Lake Erie Press Association, respectfully call the attention of the publishers of the State to the fact that the bill for the publication of the laws is now in the hands of the appropriate committees of the Legislature, and will soca come before that body for rassies or rejection. with its better instincts. It may be added, The bill, as d-awn up by the Committee. is

so just and impartial as to have met the hearty that, in two-thirds of the cases in which endorsement of most of the publishers in the quotations from the speeches of Demo-State, without regard to relitical distinctions. cratic orators, or the editorials of Demo. A majority of them have published articles cratic papers, are made by the Radicals, in its favor, and the desi's is general to secure | they are garbled and distorted to suit the its adoption. posed above.

What we wish, however, to especially impress upon the minds of the members of the traternity, is this, that in order to effect the passage of the bill individual effort must be combined with newspaper expressions The direct influence of each publisher upon those members of the Legislature with, whom he is personally acquainted will do more towards the success of the measure than all the editorials from now to the day of judgment.

Let every publisher who favors the bill sit down at once and write either to his immediate representative, or to such one of the members vorable consideration of the bill, and requestdertaken to tinker the bill to suit every conflicting interest that may seek to be advanced, the variety of opinions will be certain to ensure its defeat. No act can be drawn up to suit the taste of every person concerned; and defective, it will be an essier task to procure the necessary amendments, than it is to obkind.

The Press of Pennsylvania have long and justly complained of the want of a law such | Democrats of other section . as is now proposed. We can assure the fraternity, from personal knowledge of the opiaions of members of the Legislature, that the look well for the Democracy. In Harrisadoption of a bill for the publication of the burg our ticket was successful by an averlaws is not a matter of as much difficulty as erage majority of 225, carrying every ward might be imagined. All that is needed is the in the city. Mr. Clymer, who was rehearty co-operation of the publishers, of the columns of their papers, but by direct individual exertion,-and if they fail to do this, the stigma of its defeat will lie at their own doors, and they can no longer make just complaint on the subject.
