

The most largely circulated newspaper in N. Y. Pennsylvania, and the best Advertising medium.

Another European War.

The sudden announcement is received from Europe of a probable bloody strife between France and Prussia.

The radicals everywhere are casting about for excuses for their defeat in Connecticut.

Renegades at a Discount.—The radicals of Whig and Know Nothing proclivities are getting tired of the system which has grown into vogue in their ranks.

We sympathize sincerely with our contemporaries in their affection upon this subject, though we do not believe we can do more than we are doing.

Now, that the radicals of Connecticut have been so ignominiously beaten, the papers of that faction have nearly all commenced abusing them.

The extravagant appropriations of the present Legislature bring the following sarcastic remarks from "Horace," of the Chamberburg Repository.

It is understood that on the 10th of April the Legislature will appoint a special committee of experienced rosters to call on the Treasurer and inquire whether there is any money left, and if the fund is entirely exhausted, the adjustment will take place on the 11th.

There appears to be little probability that a quorum of Congress will meet in July. Very few members are left in Washington, even those who dwell on the thither side of the Rocky mountains having departed to the bosom of their families.

The States of Mississippi and Georgia, through their respective counsel, have filed motions in the Supreme Court to test the constitutionality of the Military Reconstruction law, which will come up for argument in a short time.

The Detroit Free Press says of Brownlow's colored competitor for the Governorship, that "unlike Brownlow, he is a negro from necessity, and not from choice."

THE GREAT RE-ACTION

A BRIGHTER ERA IN PROSPECT!

The Days of Radical Fanaticism Numbered!

THE HAND-WRITING ON THE WALL!

"Memo, Memo, Tolok, Ughasin."

The returns of the Connecticut election have grown even better, since the complete figures have been received, than the first reports led us to expect.

The Democratic majority is still larger upon the Congressional candidates, running up to the handsome figure of 1,800—a gain of 2,337 in a single year.

The radicals crow over the election on Wednesday in the little State of Rhode Island, and claim that it is an offset to their rout in Connecticut.

Thus it will be seen that in a small total of ten thousand votes, the radicals, with the prestige of uninterrupted victory, have lost eight hundred and twenty-five (825) while the Democrats have gained three hundred and sixty-two (362) votes since last year, a net Democratic gain of eleven hundred and eighty-seven (1,187).

Showing a decrease of 95,957 in two years, and that in the very centre of New England fanaticism.

Onto.—At the charter election in Cleveland, the Democrats elected their candidate for Mayor, Stephen Buhner, by five hundred majority, and gained two members of the city council from wards heretofore overwhelmingly Republican.

The National Democratic Convention, called by Kentucky, to meet at Louisville, on May 7th, has been postponed to the 4th of July.

Brownlow has found one colored man so degraded by servitude as to accept a captaincy in his Tennessee militia; but a colonel's commission which he offered to a Nashville barber, was returned with contempt.

Ex-Admiral Semmes says in his salute to the Memphis Bulletin: "Since we laid down our arms at Appomattox Court House, the whole United States has become our country."

The Detroit Free Press says of Brownlow's colored competitor for the Governorship, that "unlike Brownlow, he is a negro from necessity, and not from choice."

also the entire list of delegates to the Constitutional Convention. This is a substantial triumph, and one that will produce good results in the future.

Wisconsin.—The Milwaukee News says of the late election in that city: "It was the most hotly contested election held in the city for many years."

The Richmond Enquirer makes the following remarkable statement: "It will give some idea of the enormous taxes levied by the United States government to stave off the single town of Danville, Va., says we understand, a tax of three millions of dollars on the manufacture of tobacco—the tax being forty cents per pound."

At a caucus of the Republican members of both branches of the New Jersey Legislature, held on Wednesday evening of last week, a resolution was adopted that the present should support the proposition to strike the word "white" from the State Constitution, it being understood that the vote by which it was adopted should not be binding.

The Pleasures of Fame.—General B. F. Butler got into the Pennsylvania Avenue cars in Washington a few days since. The car was quite full and as soon as he entered one of the passengers stood up and said: "Ladies and gentlemen, put your hands upon your pocket book, Ben. Butler is in the car."

Progress of Military Government.—Gen. Sickles, in South Carolina, has for the present prohibited elections, announcing that he will soon begin to appoint Sheriff. In Alabama, Gen. Swayne similarly declares that all local elections are disallowed, and summons all lately elected persons to report the fact to headquarters.

Political Briefs.—Connecticut politics make strange bed fellows. The Irish there all went for English.

Letter from the South.—Norfolk, Va., March 31, 1867. Friend Whitman.—When I left Richmond, my intention was to go direct to Georgia, but I concluded to see this place and gather what information I could here.

Importance of a Vote.—The New Haven Register says that Mr. Logan, the Democratic candidate in the Sixteenth Senatorial District of Connecticut, is defeated by four votes; and this gives the Senate to the Republicans by one majority.

Ex-Admiral Semmes says in his salute to the Memphis Bulletin: "Since we laid down our arms at Appomattox Court House, the whole United States has become our country."

The Detroit Free Press says of Brownlow's colored competitor for the Governorship, that "unlike Brownlow, he is a negro from necessity, and not from choice."

While the Tribune, with its usual address, is trying to put as fair a face as possible on the falling off of the Radical majority in New Hampshire, the Sun (neutral) says: "The fact of the Democrats having gained a little in the local elections held this spring, is the evidence that thoughtful and free-minded men are disinclined to follow the radicals through all their ultra windings."

The Richmond Enquirer makes the following remarkable statement: "It will give some idea of the enormous taxes levied by the United States government to stave off the single town of Danville, Va., says we understand, a tax of three millions of dollars on the manufacture of tobacco—the tax being forty cents per pound."

large tobacco trade done here, it being the furthest point south on the James river. The soil is good for miles back. On top of the hills are fine farms and good buildings. At least one-half of the population is negro—"quite smart of them."

The Richmond Enquirer makes the following remarkable statement: "It will give some idea of the enormous taxes levied by the United States government to stave off the single town of Danville, Va., says we understand, a tax of three millions of dollars on the manufacture of tobacco—the tax being forty cents per pound."

BOENCKEN'S SEAWEED TONIC. This medicine, invented by Dr. H. L. Boenck, of Philadelphia, is intended to disperse the food and make it assimilate, the stomach weak, and to cleanse the stomach with sweetened oil. It is a most valuable medicine, and one that should be used in all cases of indigestion, and in all cases of general debility.

BRONCHITIS, ASTHMA, CATARRH, CONSUMPTION. These affections, when neglected, are often fatal. It is therefore of great importance to have a reliable and effective remedy. Dr. J. C. Smith's Compound Syrup of Marshmallows is a most valuable medicine, and one that should be used in all cases of these affections.
