THE CLEVELAND ELECTION .- The Cleveland indester comes to us with the following rantying report of the late election in that

"We congratulate the Democracy of our city nd State upon the glorious victory won by e Democrats of Cleveland on Monday. The was a fine one and the poll of voters in the Wards of the city was nausually large. e election passed off quietly and in good ler. The Democrats made a gallant and noble fight, winning a brilliant victory unpre-cedented in this city or on the Western Renoble ught, winning a orinant violet and the said jury series for many years. The Democratic gain in the city is immense—from twelve to thirteen hundred on the election last fail. Stephen Buhrer, the Democratic candidate for Mayor, is elected by a majority ranging from four to the control of the respective county. The Democrats gained two ancilmen-one in the Sixth, and one in the oth these Wards last fall were heavy, but e successfully overcome by the Democracy The Democracy of Clevelard had to fight e battle of Monday with all the odds in fanor of their political opponents. The latter had the National, State, County and City pat age in their hands, and all the influence This mighty hat this patronage yields. wer and all the arts and devices their opnents could bring to bear, the Democrats of sheriff and county commissioners before seeveland had to contend with nd out of the lecting and drawing jurors." have come crowned with the arel wreaths of victory '

aber, and continue two weeks each, and in ition thereto, there shall be held in said ity three additional Courts, to commence the fourth Mondays of January, March September, which shall continue two ks, unle a otherwise ordered. All writs, a, propage, appeals, recognizances, et when not otherwise specially ordered. he due and returnable to the regular ne, and licenses shall be grantable at the we resular terms in each year; and the week of the regular terms, when they ist of (we weeks, shall be specially aporisici to the criminal and orphans' a; but the trial of cases in Quarter Sesand Oyer and Terminer may be adned for trial during the second week of term, or at an additional term, by special s may be ordered; if necessary, and seppanels of traverse jurors shall be drawn summaned for each week of the several when juries are needed; Provided. That first Monday of every regular term shall return days of original writs, as heretofore. e Presiding Judge-is to hold the March. . September and November terms in our sty, and the Additional Law Judge the ary, February and August terms, except otherwise agreed or appointed by themand either of said judges may appoint

GOOD NEWS FOR MOTHERS.

Mothers, are you pressed with anxisty for your little ones? Are your slumbers and hearts broken by their cries? Do you awake in the morning unrefreshed and apprehensive? If so, precure a bottle of Dr. Ieon's Left.nt Remedy and you will have no more weary hours of watching and anxiety.

PR. LEON'S INFANT REMEDY

unitystor has over every other kind now in use:

1. Lightness and durability; being made of the best quality of steel, highly polished, and the whole imple ment weighing from fifty to sixty pounds.

2. Adaptation to more kinds of work than any other cultivat r known; being a perfect and thorough Cultivator when used with all the teath on, leaving the ground even and level, and working nearer the rows than any other Cultivator

3. By, removing the small teeth and attaching the than any other Cultivator

3 By removing the small teeth and attaching the
wings to the shorel, it is the most perfect instrument
for hilling that can be found.

4. It is the best instrument for covering and digging
potatoes ever invented. A man and horse can cover potatoes agist as a horse can walk, and aman and team
can dig from 300 to 500 bushels of potatoes in a day,
when the crop is fair one.

5. It works equally well in corn or any kind of crop
requiring cultivating, and in most cases hand hoeing
can be dispensed with \$201.03.
For Thomas Willie, Esq., services as Director one yes.
For Andrew Thompson. Erq., services as Dican be dispensed with

6. Its cheapness, considering the many kinds of
work to which it can be applied—the farmer having in
one implement all that is necessary for cultivation and
hilling any kind of crop, or covering and digging polators. Nomberless certificates from the most influential far-mers in the United States might be given of the superiority of the above implement over all others designed for like purposes

We shall be pleased to receive a call from any one who

We shall be plassed to receive a call f om any one who need a Cultivator or Shorel Plow, and waplain to them the merits of the above Horse Hose operall other implements of the kind. We warrant this Horse Hoe to work as a "Initivator see well as any Cultivator made—as a Shovel Plow as well as any Shurel Plow—an iasa Horse doe a complete success, or refund the money if it does not meet the warrantee. We also keep on hand in connection with our Hardware, Stoves, Tinware, and House Furnishing Goods, complete assortiment of Horse Rakes, Hand Rakas, Grain Cradies, Stythes Scathes, Forks, Hoes, Shovels, Stydes, &c. Dou't fail to give us a call Total S50,030 54

We, the undersigned Auditors of Erie county, having met together at the office of the County Commissioners of Erie county and after having carefully examined the account of the Directors of the Poor and Alms House of Erie county, do report and certify that we find them carred as stated.

Given under our hands and scale, this 7th day of Jansayy. A D 1867.

FOR THE HARVEST OF 1867

DODGE'S PATENT REAPER AND MOWER.

SELF HARVESTER

OHIO AND BUCKEYESCOMBINED.

CUTTING APPARATUS. This machine has not with the most complete success. In every section where it has been introduced, it has aben precedence over those machines which have heretofore ranked as first clars. We have endeavored to furn-

WITH DOUBLE DRIVING WHEELS, FLEXIBLE FINGER BAR, AND FOLDING

BEST REAPER AND MOWER IN THE MARKET. With this end in view we have vicured, by lease and purchase, the control of all the desirable and standard patents now in use, among which we call attention to the Ohio and Buckeye Patents as combined in this machine. This machine embraces all those valuable features which have contributed to the great success of the Ohio and Ruckeye Machines, together with a number of centively new, novel and valuable improvement:

In compactness, lightness of draft, excellence and elegance of workmanship and finish, combined with great strength and elaptation—to all kinds of work, it will surpass now machine heretog offered to the farmer.

The following points of excellence whow the advantages of Bodgo's Reaper and Mower over all others:

TWO DRIVING WHEELS.

This Machine has two driving wheels, which support the whole weight of the Frame, Gearing and Driver, iving it great power and facility of operation.

DOUBLE-HEADED FINGER-BAR The finger-bar of Dodge's Machine is attached to the frame by a double hinge joint, which allows it to follow the urface of the ground without being fleeted by the working of the frame. Over ridges and through ho'lows, the dependent action of the Cutter is perfect, enabling either end to rise or fall without affecting the other.

CUTTING APPARATUS.

The most important part of a Mowing Machine is its cutting apparatus. Of all the numerous experiments and inventions, the Open, Wactour Iron Grand, faced with Cast Strut, as used in this Machine, is the only guard that has proved successful in all places. The advantages claimed for the guards are: They do not bend or break. They are all precisely alike. They do not clog. DRAFT. The draft of this Machine, in heavy grass or grain, is much lighter than ordinary plowing, and does not exceed in average of 200 pounds direct draft. A light; air of horses can work the machine easily all day, in any kind of grass or grain, when the machine is properly adjusted and operated.

AS A SELF-RAKER. The S elf-Rake applied to this machine has proved a perfect success. It is a Revolving Rake, and does its own receipt saving the expense and trouble of a recl, and yet performing better in all kinds of grain than a Reel and Rand Bake can. It makes a verfect separation with the rake bead, in all kinds of grain, whether tangled or lodged, long or short by reason of the rake revolving over forward, and attiking into the unent grain, or before the sickle, carrying it a long and over the platform, and delivering it in compact buildes, at the rear of the machine, solirely out of the way of the term and machine on its next round, and without any littering whatever.

AS A REAPER. The double hinge joint and two driving wheels make it the ONLY REAPER PERFECTLY ADAPTED TO UNEVEN GROUND. The over hanging Reel is supported upon a reel plat, axed firmly in the drag-bar socket, and can be readily adjusted up our down, or backward or forward and all times follows the movements of the platform. The grain is easily delivered at the rear of the meabling, entirely out of the way of the team on the next round, in good shaped bundles for blading. This FLATFOR it is readily adjusted to any required height.

Descriptive pamphies of the Mackins will be furnished on application to W. W. PIERCE & CO., S30 State Street, Eric, Pa., Gaussian Assats for Edward Counties.
