QUOTATION OF GOLD. The quotations of gold are green in the money markets of the daily papers, convey no fixed idea to the common mind; the information needed by the general public is, what is a paper dollar worth.

CITY DIRECTORY. The new City Directory has been issued from the office of the Dispatch, and is in all respects one of the most creditable publications of the kind we have ever seen.

Population of the City.

The publishers of the Dispatch are about to issue a directory, and to add to its interest have employed persons to take a census of the city.

Second District. Male, 2,173; Female, 2,210; Total, 4,383.

Third District. Male, 1,754; Female, 1,810; Total, 3,564.

Fourth District. Male, 2,000; Female, 2,209; Total, 4,209.

The following is the reported population of the adjoining borough of South Erie:

White, 949; Col'd, 86; Total, 1,035.

Total male, 8,443; Total female, 8,688; Total white and black population, 17,131.

The census, however, was somewhat hurriedly taken, and it is but proper to suppose that many persons were necessarily omitted.

At the time the U. S. census was taken, the inhabitants in what is now known as South Erie were very few in number, probably not over 500 at the most.

A curious feature of the census consists in the fact that while the white population has increased at such a wonderful rate, the colored has stood nearly still, only 16 having been added to their number in the seven years.

AN IMPORTANT MATTER. The difficulty of access for teams from the country into the lower portion of the city is exciting some interest among our business men.

It may not be known to many that last month and the present are the most fatal periods of the year in our city for adults.
