FOR THE HARVEST OF 1867.

DODGE'S PATENT

REAPER AND MOWER,

SELF - RAKING HARVESTER

OHIO AND BUCKEYE COMBINED.

WITH DOUBLE DRIVING WHEELS, FLEXIBLE FINGER BAR, AND FOLDING CUTTING APPARATUS.

This machine has met with the most complete success. In every section where it has been introduced, it his been introduced, it his been introduced, it his been introduced, it his precedence over those machines which have heretofore ranked as first class. We have endeavored to fars BEST REAPER AND MOWER IN THE MARKET.

With this end in view we have secured, by lease and purchase, the control of all the desirable and standard patents now in use, among which we call attention to the Ohio and Buckeye Patents as combined in this mach no. This inschince submores all those valuable features which have contributed to the great success of the Ohio and Buckeye Machines, together with Summer of entirely new, novel and valuable improvements. In compactness, lightness of draft, excellence and eigance of workmanship and finish, combined with great strength and dasptation to all kinds of work, it will surpass any machine heretolore offered to the farmer. The following points of excellence show the advantages of Dodge's Reaper and Mower over all others:

TWO DRIVING WHEELS. This Machine has two driving wheels, which support the whole weight of the Frame, Gearing and Driver, giving it great power and facility of operation.

DOUBLE-HEADED FINGER-BAR.

The Sager-car of Dodge's Machine is attached to the frame by a double hinge join', which allows it to follow the urface of the ground, without being affected by the working of the frame. Over ridges and throng : hollows, the udependent action of the Cutter is pariect, enabling either end to rise or fall without affecting the other.

CUTTING APPARATUS.

The draft of this Machine, in heavy grass or grain, is much lighter than ordinary plowing, and does not exceed an average of 200 pounds direct draft. A lighty air of horses can work the machine easily all day, in any kind of grass or grain, when the machine is properly adjusted and operated. · AS A SELF-RAKER.

The Self-Rake applied to this machine has proved a perfect success. It is a Revolving Rake, and does its own realing, saving the expense and trouble of a real, and yet performing better in all kinds of grain than a Real as of Hand Rake can. It makes a perfect separation with the rake head, in all kinds of grain, whether tangled or ladged, lang or short, he reason of the rake revolving over forward, and striking into the unust grain, or before the sickle, carrying it along and over the platform, and dallvering it in compact buddes, at the pear of the machine, entirely out of the way of the term and machine on its next round, and without any littering whatever. AS A REAPER.

The double hinge joint and two driving wheels make it the ONLY REAPER PERFECTLY ADAPTED TO UNEXEM GROUND. The over hanging Reel is supported upon a reel p st, fixed firmly in the drag-bar socket, and can be readily adjusted, up or down, or backward or forward and all times follows the movements of the platform. The grain is easily delivered at the rear of the machine, sufferly out of the way of the team on the platform. The prainting of the delivery of the first platford of the platform of General Agents wanted in every township, to whom a liberal commission will be allowed.

SOMETHING NEW.

Buy Silver Tipped Shoes for your children. A major ity of the children wear holes in the toes of their shoes in a very few days; then the shoes are soon worthless and as new pair must be bought. The only way to prevent this great waste of money is to buy shoes protected by silver tips. They never wear out at the toe, and musts a pair of snoes last three times as nong as without they have proved worthless. Silver Tips have a seat and substantial appearance, and do away entirely with the disagreeable sight of dirty stockings and profurding toes. We have constantly on han the only amortiment of Silver Tipped Shoes to be found in the city, including the Sewad Shoes. Ayer's Sarsaparilla

effectual Alteratics that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense excite to this large class of our afflicted fellowaccomplish their cure must prove or immense service to this large class of our afflicted fellow-chizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

complaints:

Schoftla and Schofulous Complaints,
Schoftla and Eruptive Diseases, Ulcers,
Pimples, Blotches, Tumors, Salt Rheem,
Scald Head, Syphilis and Syphilitic Appeterions, Mercurial Disease, Dropsy, Neuration of Tic Docloureux, Debility, Dyspresia and Indicestion, Erystpelas, Rose
or St. Anthony's Pire, and indeed the whole
class of complaints arising from Impurity of
the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the

Saraparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain 'little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become name itself is justly despised, and has become synonymous with imposition and cheat. Still' we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for elieving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on
