Richmond or

Col. McCoy will be withdrawn as Radical candidates for Senator in that county-the supposition being that it will be the former This would seem to indicate a fear that if both remain in the field Lowry will win the day, and a disposition on the part of the latter's Radical opponents to concentrate their forces upon one man. The fact that Lowry has no competitor in this county narrows the contest down to Crawford entirely. and renders it certain that if he carries that county at the primary elections to be held on Friday, the 21st inst., he will be the regu--Since the above was in type, Colonel

Lowry. Richmond and his friends are said to have declared that Lowry must be defeated if by any possibility it can be done, and are hard at work endeavoring to advance McCoy's interests. Among shrewd politicians in Crawford, it is thought that the anti-Lowry element have made a mistake in not withdrawing McCoy and leaving Richnond to fight out the battle with Lowry. The fact that McCoy served four years in the army seems to be the main inducement for making him the anti-Lowry champion, it being supposed that the soldiers will support him nearly unanimously. But, on the other hand, he was the leader of the Finney forces last fall, and in that capacity created many enemies, who will lose no opportunity to secure his defeat. Richmond, on the

majority. We are compelled to the convic ion, as a disinterested observer, that the prospect looks much as if Lowry was likely o win the day. The Radicals of Crawford eem to be as destitute of fit material to make Senators out of as those of Erie, and if Lowy succeeds it will not be as much due to his particular shrewdness or talent, as to the act that no competitor has appeared able to compete with him. We would again call the attention of the anti-Lowry Radicals of Erie to the important fact, that, if they are in earnest in wishing him defeated, they must rally to the support of their friends in Crawford, at once. That county, and the primary elections to be held on the 21st inst.,
