THE OBSERVER.

ERIE, PENN., JUNE 10, 1887.

RAILROAD TIME TABLE. Cleveland & Erie and Erie & Pittsburgh time tables.

As Usual—The Editor of the Tribune writes that "the lady" who yesterday called the attention of another to her petted breeches, wherewith they both laughed so heartily, is informed that a new pair will be purchased when her husband's "little bill" is settled.

MUST PROVIDE A SEAT—The heirs of William Walker, who was killed by a collision on the Long Island Railroad, some months ago, brought suit for damages in the Supreme Court of New York, and on the trial the Court decided, among other points, that it is the duty of a conductor to furnish seats to all passengers.

MILITARY DUTY OF THE NEW YORK FRONTIERS—The Military District of the Northern frontier, which is under the command of Major Gen. Barry, U. S. Army, extends along the Canada frontier from Erie, in the State of Pennsylvania, to Plattsburg, on Lake Champlain, the north-eastern border of the State of New York.

What is the Nicholson Pavement? The following communication in relation to the Nicholson Pavement we find in the Louisville Courier.

PREPARATION OF THE GROUND. The ground is levelled; or rather rounded off, in such oval form as, by situation, width of street, etc., may be required; after which, in order to procure uniformity, it is thoroughly raked and made as smooth and even as a floor surface.

THE UPPER STRATUM. This consists of white or yellow pine planks laid side by side, lengthwise of the street, so as to entirely cover the ground. The planks are then completely covered, by means of suitable brooms, with a layer of asphaltum and coal tar.

THE LOWER STRATUM. This consists of white or yellow pine planks laid side by side, lengthwise of the street, so as to entirely cover the ground. The planks are then completely covered, by means of suitable brooms, with a layer of asphaltum and coal tar.

THE FILLING. This consists of clean gravel, screened so as to vary from the size of a pea to that of a nut, and is laid in a layer of one inch and a half thick and allowed to remain until it becomes partially pulverized and filled into the crevices of the wood, and is set down on the surface of the asphaltum and coal tar.

THE FINISH. This consists of clean gravel, screened so as to vary from the size of a pea to that of a nut, and is laid in a layer of one inch and a half thick and allowed to remain until it becomes partially pulverized and filled into the crevices of the wood, and is set down on the surface of the asphaltum and coal tar.

DECLARATION—The following is the letter of H. L. Richmond, of Mendville, declining to be a candidate at the Radical primary meetings for State Senator.

GOOD FORTUNES—It has been truly said, "the noblest acquisition of mankind is speech, and the most useful art is writing."

LOCAL EXHIBITS. Thayer, Noyes & Co. will exhibit in this city, on Tuesday, the 14th, corner of Parade and Sixth streets. See advertisement.

WESTLEY SAYS, "Condemn no man because he does not think as you think. Let every one enjoy the full and free liberty of thinking for himself."

THE EDITOR HAVING BEEN ABSENT since Saturday, and having to prepare the matter for this issue before leaving, we are without our usual full report of local doings.

LOAN'S EXTRA PIOUS PRETENSIONS are the cause of fun being poked at him on all sides. The correspondent from Mendville writes of a good anecdote in connection with this subject told of a man from New York, who was visiting Washington at the time when Mr. Van Buren was Vice President.

THE BUREAU FOR HAND TIME is elected the doctor by being temperate; the lawyer by keeping out of debt; the demagogue by voting for honest men, and poverty by being industrious. Subscribe for the Erie Observer pay for it in advance and have a clear conscience and rest well at night.

AN EDITOR OF ONE OF OUR EXCHANGES is a little of the "richest" man we know of. In the offer that Republicans are to make to the editor that he will be willing to regard a man as a personal enemy, solely because he did not think as we do on the mode of administering the Government.

THE DOYLESTOWN CASE, in some comments on the Van Daniker case, says: "It may not be generally known that these detectives work the night shift."

THE DIAMOND COPPER—David Copperfield—Forty thousand copies of the three current issues of "The Diamond Copper" have been sold.

JAMES L. HAWES, of Bangor, Mich., was recently sued by Sarah Thonson for breach of promise, claiming \$4,000 damages.

ST. LOUIS HAS A shocking sensation. A Rev. Mr. Matlock, whose amorous propensities are well known, and whose love for a young lady is well known, and who is now in confinement on the charge of bigamy, was induced by a young lady, to marry her.

A FASHIONABLE WEDDING at Norfolk, last week, was a grand affair. The bride was Miss Mary A. Thayer, daughter of Mr. Thayer, of New York, and the groom was Mr. Charles W. White, of Norfolk.
