FOR SUPREME JUDGE. Hon. George Sharswood,

OF PHILADELPHIA.

THE Radical papers announce with grand flourish of trumpets that the Republicans at Hilton Head, South Carolina, have just succeeded in electing a Justice of the Peace. How the result was won may easily be understood by those who know how the system of Registration works in the South. Two-thirds of the white people there (embracing all the better class) are disfranchised, and the suffrage is nearly entirely in the hands of the negroes. Thus at Montgomery, Alabama, up to the 25th jinst, the total number of persons registered was 3,948, of whom 3,000 were negroes and only 948 whites. In Savannah, Georgia, the registration showed 221 negro voters and only 59 whites, or nearly four to one. Information from other localities leads us to believe that this will be the proportion in nearly every state of that unfortunate section, and it need not surprise our readers, therefore to hear Radical victories reported in abundance from that direction. The sole hope of Radicalism now consists in disfranchising intelligent white men and enfranchising ig-

PENNSYLVANIA TO BE LOST TO THE RADICALS,

A correspondent of the N. Y. Herald furnishes an account of an interview he recently had with the great Radical agitator, Thaddeus Stevens, at the home of the latter, in Lancaster city. The conversation wandered over a wide range, and among other lost to the Radicals, and is, by no means, confident of the Keystone State. We copy the conversation in full upon the Pennsylva-

"Question-Is the Republican party well united in Pennsylvania?

"Stevens—I fear that we shall lose Penn sylvania this next election. I do not think we have carnestness enough in the State to unite and draw out the republican strength. while the republican portion of our Legisla-ture has been so openly, notoriously and shannefully corrupt that all the honest in the State are disheartened and disgusted.

"Question—You do not suppose that you n beat New York in corruption, do you? "Mr. Stevens—I think we could. Cameron had his men with their handfulls of greenbacks working in the Legislature. He had not four-teen votes in his fayor at the close of the election, but soon after he had forty. One man now claims \$50,000 for services, and they refuse to pay him. This corruption will cer-tainly beat us here next election, unless we draw out the republican strength by getting up a furor and excitement on impeachment. Geary, too, hurts us very much. He is an unhappy failure, and his nomination was an unanate thing for the party."

## THE JULY SESSION.

In consequence of putting our paper were unable to state whether a quorum of the members of Congress would be present or not on the 3d inst. We regret to be compelled to announce that the agitators were entirely successful-a majority of both houses answering to their names on the day fixed for assembling. No message was sent in by the President, as customary, and neither house has been respectful enough to notify him offi cially that it is in session. The revolutionary designs of the Radical

majority were disclosed at an early stage of the proceedings, when the members elect from Kentucky presented themselves to be sworn in. These gentlemen, as is well known. are all Democrats, elected by majorities amounting, in the aggregate to 30,000 votes and their certificates are in every particular regular and legal. But, they were met upon the threshold, as it were, by trumped-up charges of" disloyalty," and after a debate of an hour or two refused admission under resolution offered by Schenck, of Ohio, and amended by Logan, of Illinois; and their case referred to the Committee on Elections, by whom, of course, it will be "hung up," for six months, at least, if not for the whole of the present term. And thus, contrary to almost invariable precedent-under which members holding credentials that gave them a prima fucie right to seats, were admitted for the time being, leaving the question as to their eligibility, &c., to be afterwards decided -a sovereign State whose "loyalty" has been acknowledged in various ways by the dominant party, and whose Representatives took their seats unchallenged in the 38th and 39th-Congresses, is now disfranchised, for-no other reason than that her people chose to elect Democrats. As if ashamed to put themselves upon the record in favor of this highhanded and clearly illegal exercise of power the Radical majority refused to allow the yeas and nays to be taken on the resolution

excluding Kentucky from representation. The extra session can be productive of no good to the country; but it is some relief to know that all the evil it threatens is to be confined to the single object of preventing the President from executing the mis-called "Reconstruction Acts" according to the legal interpretation of the Attorney General, A resolution has been adopted almost unani mously, in both houses, declaring that no proposition for general legislation (except for " perfecting and strengthening the Military Reconstruction Act.") shall be entertained: but that all matters calling for such legislation shall be laid on the table, or referred, without debate. This "heads off" the Impeachment plot, if nothing more; and for that the country should be thankful. Several leading Radicals have offered bills amendatory of the Reconstruction Act, all of which substantially agree in their important features. These may be summed up as follows:

1. The military commanders shall have power to cashier State officers and appoint persons to discharge their duties.

2. The Boards of Registration shall have the fullest latitude of investigation and the power of rejecting whom they please all civil officers without exception who afterwards oined the rebellion.

The news from Mexico continues very exciting. A report comes to us that Santa Anna has been shot, and several other prominent persons who were distasteful to the present dominant party have met the same fate. The carnival of blood is at its height in that demoralized nation, and Heaven only knows where it will end. Our Navy Department has received a letter from Commander F. A. Roe, of the U.S. steamship Tacony, informing the Department that, in compliance with a request from the commander of the Austrian man-of-war Elizabeth, he addressed a letter to President Juarez, asking him to give in the body of Maximilian. The Mexican Government has refused the request, and we now learn by Cable that the Austrian Government will immediately dispatch a fleet to demand the body. . All the European Governments show the most intense excitement, and it can hardly be doubted that but for the United States a new and formidable combination of European Powers against the Republican Government of Mexico would be

Thus an attempt to attain by force of law a moral effect, attainable only through education, religion and morality is shown to be a political blunder. Men cannot be enacted into goodness and self-denial. The appetite is never restrained by prohibition.
