WE WILL GIVE REASONABLE CREDIT to all good-paying customers, and sell goods just as low as any one who claims to self only for cash. It so unfortunate as to have any bad dobts, we piedge ourselves to do as all honorable merchants ever have done—pocket the loss ourselves, and not ask our good customers to make it up—as some claim to have done.

For a confirmation of the above statement we ask only a fair trial.

Goods delivered promptly to any part of the city. Remember the place, 1821 Peach street, near the Union Depot. ear the Union Depot.

REAPER AND MOWER.

SELF - RAKING HARVESTER

OHIO AND BUCKEYE COMBINED.

WITH DOUBLE DRIVING WHEELS, FLEXIBLE FINGER BAR, AND FOLDING CUTTING APPARATUS.

This machine has met with the most complete success. In every section where it has been introduced, it hakes precedence over those n a hinea which have heretofour ranked as first class. We have endeavoyed to furn BEST REAPER AND MOWER IN THE MARKET.

. TWO DRIVING WHEELS, This Mechine has two driving wheels, which support the whole weight of the Frame, Gearing and Driver iting it great power and facility of operation.

DOUBLE-HEADED FINGER-BAR. The finger car of Podge's Machine is attached to the frame by a double binge joint, which allows it to follow the murkee of the ground, without being effected by the working of the frame. Over ridges and through hollows, the underendent action of the Cutter is parient, enabling either and to rise or fall without affecting the other.

CUTTING APPARATUS.

The most important part of a Mowing Mechine is tis cutting apparatus. Of all the numerous experiments and inventions, the Over, Whotcomy Ison Guand, faced with Casy Syzet, as used in this Vachine, is the only guard that has proved preserved in all places. The advantages claimed for the guards are: They do not bend or break. They are all precisely alike. They do not clog.

The draft of this Machine, in heavy gress or grain, is much lighter than ordinary plowing and does not exceed in average of 100 pource direct draft. A light pair of houses can work the machine easily all day, in any hind of grass or grain, when the machine is properly adjusted and operated.

AS A SELF-RAKER. AS A SELF-HAKER.

The Peli-Fake applied to this machine has proved a perfect success. It is a Perolving Rake, and does its own reeling, taving the expesse and truble of a seel, and see performing better in all kinds of grain than a Reel and Hand Rake can. It makes a reflect separation with the rake bend, in all kinds of grain, whether targled or ladged, long or short to reason of the rake receiving once forward, and striking into the unout grain, or telore the sickle, carrying it sleng and over the platform, and delivering it in compact bundles, at the rear of the machine entirely out of the way of the term and machine on its part round, and without any littsring whatever.

china entirely out of the way of the team and marking on its part round, and without any littering whatever.

AS A BEAPER.

The double hirge is int and two divings wheels make it the ONLY READ'S PRESENTLY ADAPTED TO UNEXES OF COLORS. The ever herging Real is exprosted upon a real practiced simply in the diagram anchet, and can be readily adjusted upon or one of the way of the markens of the platform. The stain is easily clivered at the rear of the machine, entirely out of the way of the feam on the least round, ingred shaped but due for inding. Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarasparilla. so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is rejuted to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizers. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Schopula And Schopulous Complaints. so combined with other substances of still

class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body rid itself of corruptions, if not assisted to do
this through the natural channels of the body
by an alterative medicine. Cleanse out the
vitiated blood whenever you find its impurities
bursting through the skin in pimples, eruptions,
or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it
whenever it is foul, and your feelings will tell
you when. Even where no particular disorder
is felt, people enjoy better health, and live
longer, for cleansing the blood. Keep the
blood healthy, and all is well; but with this
pabulum of life disordered, there can be no
lasting health. Sooner or later something
must go wrong, and the great machinery of
life is disordered or overthrown.
Sarsaparilla has, and deserves much, the
reputation of accomplishing these ends. But

reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla or any thing else.

contain but little of the virtue of Sarasparius, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarasparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarasparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarasparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarasparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should eradication from the system, the remedy should be judiciously taken according to directions on
