South of the Union Depot, (J. F. Decker's old stand,) may be found a choice selection of Groceries, Provisions

Foreign and Domestic Fruits, Crockery and Glass Ware, Yankee notions, Yoys, &c. In fact everything usually kept in a Family Grocery Store. WE WILL GIVE REASONABLE CREDIT

to all good-paying customers, and sell goods just as low as any one who claims to sell only for cash. For a confirmation of the above statement we ask only a fair trial.

DODGE'S PATENT

REAPER AND MOWER.

BELF - RAKING

OHIO AND BUCKEYE COMBINED.

WITH DOUBLE DRIVING WHEELS, FLEXIBLE FINGER BAR, AND FOLDING

This machine has met with the most complete success. In every section where it has been introduced, it has been introduced, it has seen introduced, it has precedence over those me hines which have heretofore ranked as first class. We have endeavored to fair BEST REAPER AND MOWER IN THE MARKET.

With this end in view we have secured, by lease and purchase, the control of all the desirable and standard patents now in was, among which we call attention to the Ohio and Buckeye Patents as combined in this mach no. It is machine embraces of the Ohio and Buckeye Patents as combined in this mach no. Purkeye Machines, together with a number of entirely new, morel and walkable improvements. In compactness, lightness of draft, exceller or aid elegance of workmanning and finish, combined with great strength and dataptation to all hints of work, is will surpase any mechine bereiner offered to the farmer.

The following points of excellence show the advantages of Podge's Resper and Mower over all others:

TWO DRIVING WHEELS.

DOUBLE-HEADED FINGER-BAR. The finger-rar of Dodge's Machine is attached to the frame by a double hings joint, which allows it to follow the surface of the ground, without being affected by the working of the imms. Over ridges and through hellows, the independent action of the Cutter is pariet, enabling either end to rise or thil without affecting the other.

This Machine has two driving wheels, which support the whole weight of the Frame, Gearing and Driver, cleaning it great power and facility of operation.

CUTTING APPARATUS. The most important part of a Mowing Machine is its cutting apparatus. Of all the numerous experiments and inventions, the Orms, Wapcourt Inou Grann, fixed with Casy System, as used in this Machine, is the early guard that has proved successful in all places. The adventages claimed for the guards are: They do not bend or break They are all precisely alike. They do not clog.

DRAFT.

The draft of this Eachine, in heavy grees or grain, is much lighter than ardinary plowing and does not exceed a sverage of \$(0) store, direct draft. A light air of herres can work the machine easily all day, in any hind f grees or grain, when the machine is properly adjusted and operated.

AS A SELF-RAKER.

AS A SELF-MAKEM.

The Felf-Rake applied to this weekine has proved a perfect success. It is a Bevolving Rake, and does its own resiling, taving the expense and treate of a ried, and not perform insplatterin all kinds of grain, whether tangled or standards, one of the reason of the rake revolving over forward, and striking into the next grain, or before the sickle, carrying it along and over the platform, and delivering, it in compact bundles, at the reason of the machine entirely out of the way of the team and machine on its next round, and without any littuing whatever,

AS 'A REAPER.

The double tirgs is intered two driving whesh make it the ONLY REAPER PERFECTIVE ADAPTED TO UNBYEN GROUND. The ever sharging Rest is supported upon a real pe at, fixed firmly in the dan-bar socket, and
cam be restily adjusted up or doub, or backward or forward and all times fellows the movements of the platform. The grain is easily delicited at the rear of the machine, entirely out of the way of the team on the next
round, in grand shaped bundless for liceting. THE PLATFOP is it readily adjusted to any required height.

Ayer's Sarsaparilla

effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, HORSE HOE OR CULTIVATOR PLOW so combined with other substances of stil greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their oure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

omplaints: —.
Schopula and Schopulous Complaints, BRUPTIONS AND ERUPTIVE DISEASES, ULCERS Pinples, Blotches, Tunors, Salt Rheun, Scald Head, Syphilis and Syphilitic Ap-PECTIONS, MERCURIAL DISEASE, DROPST, NEU-PECTIONS, MERCURIAL DISEASE, DECENTY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impurity of

THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to. expel the foul humors which fester in the blood at that season of the year. By the timelood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell way where no narribular disorder. whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else. or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Saranparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparills, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on
