OHIO AND BUCKEYE COMBINED.

WITH DOUBLE DRIVING WHEELS, FLEXIBLE FINGER BAB, AND FOLDING CUTTING APPARATUS.

This machine has not with the most complete success. In every section where it has been introduced, it has been introduced, it has been forwarded to farm precedence over those machines which have heretofore ranked as first class. We have endeavored to farm BEST REAPER AND MOWER IN THE MARKET.

With this end in view we have secured, by lease and purchase, the control of all the desirable and standard patents now in use, emong which we call attention to the Ohio and Buckeye Patents as sembled in this machine. This machine embraces all those valuable features which have contributed to the great success of the Ohio and Packeye Machines, incepture which have contributed to the great success of the Ohio and Packeye Machines, incepture of the original contribution of the process of the Ohio and Packeye Machines, lightness of draft screller candelegance of workmanable and shield, combined with great strength and dearwatern to all hinds of overly, it will surpsus any machine between onlines of the farmer.

The following points of excellence show the advantages of Podge's Reaper and Mower over all others: TWO DRIVING WHEELS,

This Machine has two driving wheels, which support the whole weight of the Frame, Gearing and Drive lying it great power and facility of operation.

DOUBLE-HEADED FINGER-BAR.

The finger-car of Podge's Machine is attached to the frame by a double hinge joint, which allows it to follow the surface of the ground, without being effected by the working of the frame. Over ridges and through hollows, the ndependent action of the Cutter is perfect, enabling either and to rise or fall without affecting the other.

The most important part of a Nowing Machine is its cutting apparatus. Of all the numerous experiments an inventions, the Open, Wattrux Innu Grain, fixed with Cast Strum, as used in this Machine, is the only guar that has proved successful in all places. The advantages claimed for the guards are: They do not bend or break They are all precisely alike. They do not clog.

DRAFT.

The draft of this Nachine, in heavy grass or grain, is much lighter than ordinary plowing and does not exceed an average of 100 plus of direct draft. A light rair of houses can work the machine easily all day, in any kind of grass or grain, when the machine is properly adjusted and operated.

AS A SELF-BAKER.

AS A SELF-BAKER.

The Felf-Pake applied to this mad use her proved a perfect success. It is a Revolving Pake, and does its own realing, saving the cape me and trouble of a real, and yet perform in a better in all kinds of grain than a Real are Rand Bake cap. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

complaints: -- Schofulous Complaints. ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TORORS, SALT RHEUM, SCALD HEAD, STPHILIS AND STPHILITIC AP-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR TIG DOULOURSUE, DEBILITY, DYS-PEPSIA AND INDICESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

class of complaints arising from IMPURITY OF
THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to
expel the foul humbrs which fester in the
blood at that season of the year. By the timely expulsion of them many rankling disorders
are nipped in the bud. Multitudes can, by
the aid of this remedy, spare themselves from
the endurance of foul eruptions and ulcerous
sores, through which the system will strive to
rid itself of corruptions, if not assisted to do
this through the natural channels of the body
by an alterative medicine. Cleanse out the
vitiated blood whenever you find its impurities
bursting through the skin in pimples, cruptions,
or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it
whenever it is foul, and your feelings will tell
you when. Even where no particular disorder whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations,

for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarssparilla. contain but little of the virtue of Sarsaparius, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Earsaparills for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intendor any thing else. by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
