It is estimated that at least one-third the bar interview of the United and demerits of the various systems of medi-cine, as daily practised side by aide, have come to a deliberate conclusion, from its uni-form success, that the Honmoopathic system is the only one which is founded on the sternal laws of the Great Creator, and a large pro-portion of them would rather die without medical aid than to employ anything else. It is at the liberties of these people and not at the interests of a few devoted honmeopathic physicians that the above resolutions most directly strike, and the physicians would cer-tainly be blind to the interests of their pairons and friends, if this matter was let to pass without even a word of warning. and friends, if this matter was let to pass without eren a word of warning. As there was no other way of as-certaining their medical prodivides, the ques-tion was asked directly, whether the candi-date had any sympathy with homosopathy. If he confessed that he had, he was abruptly pushed one side.

## Making the Application.

Several days ago a Republican and a Democrat got into conversation on the subject of making voters out of negroes. The Republican contended that the negroes should be allowed to vote as a matter of right. "But," replied the Democrat, "that will lead to social equality." "Let it," rejoined the Republican, "the only difference between the negroes and the whites is in the color of the skin and in the hair." "Then you think," said the Dem-cornt "the the negroes should have the series ocrat, "that the negroes should have the same social as well as the same political privileges the whites enjoy." "Certainly," replied the Bepublican. "Now, suppose a negro and your daughter should conclude to contract your daughter should conclude to contract marriage, what would you do in regard to that " asked the Democrat. "Why, I should queried the Democrat. "On', ak." Yawalia not do that. If my daughter married a me-gro, I should discard her." replied the Re-publican with spirit. "What," asked the Democrat, "discard your daughter for be-lieving and practising the doetrines you teach? Come, neighbor, don't you think you are carrying this negro business too far? If there is no difference really between a negro and a white man, excepting the color of his skin and in the matter of hair," why would you discard your daughter for marrying a ne-
