say that on more than one occasion the coun-try has been indebted to Edwin M. Stanton for timely note of warning that enabled the representatives of the people to meet and defeat the dangerous schemes of a recreant President.

Reduced to plain language this simply means that Stanton has been playing the spy upon the President's actions, attending the Cabinet meetings and securing the secrets hereof, and then hetraying them to the Radical leaders. Can anything be more contemptible, and any position more disgraceful ? A Cabinet officer acts as an informer, and then boasts, through his friends, of his own deg radation

Some shrewd writer, who has evidently studied the subject thoroughly, thus discourses upon our system of taxation :

"Now, you see, in the first place they get the amount of a feller's business. That is taxed. Then they find out how much he earns every month, and that's taxed. Then they find out all about his profits, and that they tax. Then they manage to get some tax on what he owes. Next comes what they call income, and that's taxed. Then if anything is left, the preacher calls round and gets it, to sustain the church and convert the heathen." athen

We do not like his course, but we will do him the instice of beligging that these stories are the justice of believing that these stories are false. Because a man is a Democrat he is Taylor, he is said to be, in the South of General Taylor, he is said to be, in the South some-where, trying to earn a living. Mr. Pryor is a member of the New York bar, who seems to have retired into the absolute seclusion of his profession. These men were Rebels, but, because they were Rebels, are not, nec-cessarily, petty knaves. Mr. Pryor publishes an affidavit denying, as explicitly as words will permit, the truth of the charged, so far as he is concerned. We shall ask better evi-dence than what we have read before believ-ing that either Taylor Wood or Burgare nati Commercial, a Conservative Republican paper, declares that-

The minor Radical press join in chorus with the Tribune, and are as zealously endeavor ing to make him out a supporter of Johnson as they were before in seeking to prove him an upholder of Congress. The same tactics that were pursued in Gen.
